Vol. LXIII—No. 4850

THE NEWTON GRAPHIC (Newton, Mass.) FRIDAY, AUG. 2, 1935

Eight Pages

Single Copy 5c; \$2.50 per Year

Quarter Million Dollar Loss From Accidents

The traffic report published recently and showing the results of the survey made in Newton under ERA auspices, states that "In 1934 there were 666 automobile accidents in Newton involving an economic loss of \$224,695; an accident situation that demands immediate planning with a view to establishing a definite program of activity to prevent continual recurrence. However, planning alone will result in little that is tangible unless provision is made for the spending of time, energy and money for its fulfillment. This report, therefore, has a threefold purpose:

1. To point out the seriousness of the accident situation that now prevails in the City of Newton.

2. To propose engineering changes for the elimination of physical hazards, and measures for adequate traffic control.

3. To present recommendations which in themselves serve as a medium to acquaint the average citizen with his individual responsibilities, and to develop in him a responsibility to the problem as a whole."

The report gives the following table of fatal accidents on seven principal streets in Newton from 1931 to 1933 inclusive.

"Of the 1575 automobile accidents occurring in Newton during 1931-1933, 60%, or 941 accidents occurred on the seven principal streets, and of 23 fatalities, 21 or 91.5% occurred on these seven streets. It is obvious, therefore, that those streets should be given priority in accident prevention."

During the years 1930 to 1934, inclusive, 506 rear-end automobile collisions occurred in Newton; 152 head-on collisions, 18 while cars were passing other cars after overtaking them; 256 automobiles drove off roads in accidents; pedestrians were hit in 914 accidents; 141 accidents occurred while automobiles were making left turns, 23 while automobiles were making right turns; 445 while automobiles were crossing other automobiles at intersections.

The period between 5 and 6 p. m. is the period of greatest hazard in Newton. Factors of operators and impatience are blamed for this condition. From 11 a. m. to 5 p. m. accidents are continually on the increase, prior to the peak hour. The number of accidents by days of the week during the

(Continued on Page 4)

Water Main Job Under Way

Work on laying the 12 inch water main along Jackson rd., Newton, started last Saturday. This project will extend along streets in Nonantum and Newtonville and will cost \$81,000. A continuation of this project next year will cost about the same amount. The work is largely mechanized. Pneumatic pavement breakers are used to open the bituminized macadam surfaces on the streets, and then a large power shovel excavates a trench about three feet wide and seven feet deep. A small, but powerful tractor crane lifts the heavy 16 foot lengths of iron water pipes and lowers them into the trench. About 30 men have been employed on the job during the past week, the trench has been dug along Jackson rd. from Washington st. to Pearl st., and the water main put in place for most of this distance. It was planned to start working on the project during the past week from the corner of Washington st. and Brookside ave., Newtonville, from the opposite end of the route which will have the 12 inch main laid this year. A power shovel owned by Richard White Sons of West Newton is to be used on this part of the project, but because official approval had not been received from W. P. A. headquarters in Washington, relative to the hiring of this shovel, work on the westerly section of the project has not yet started. About as many men will be employed on this section as have been working on Jackson rd. It was expected that the project would take about 12 weeks to finish.

Mother of Bishop Spellman Dies

Mrs. Ellen M. Spellman of Whitman, mother of Bishop Francis J. Spellman of Newton Center, died on July 28 following a long illness. She was born in Plympton, Massachusetts 70 years ago and had resided in Whitman since a small child. She is survived by her husband, William Spellman; three sons, Bishop Spellman, Dr. Martin H. Spellman of Jamaica Plain and Dr. John W. Spellman of Milton; two daughters, Mrs. Arthur Pegnam of Whitman and Mrs. George Garrity of Abington; and a sister, Sister Philomena of St. Anthony's Convent, Boston. Her funeral service was held on Tuesday at Whitman; Bishop Spellman officiated at the solemn requiem mass.

Speeders Fined In Newton Court

Motorcycle Officer Dowling was the complainant against fifteen autoists in the Newton court yesterday on charges of speeding. Most of those he accused of driving too fast pleaded guilty and paid \$5 fines. One, Fred Martin of Wayland, also paid a \$50 fine for driving after his license had been suspended. Others who paid \$5 fines were—Elizabeth Colford, Brookline; Elita Tamkin, Brookline; Viola Anderson, Waltham; Orrin Bellows, Anthony Maliszewski, Donald Cowt, Philip Atwood, all of Worcester; Louis Anapolsky of Dorchester; Clement Aldrich, Beverly; Arthur Benoit, Brockton; and Marguerite Finley Ashland. The cases of William Bagley of Boston and Leslie Hunter of Worcester were continued.

Patrolman James Jenkins was the complainant against Wesley Curran of Newton Centre charged with speeding and driving by a traffic signal against the red light. Harry Bradford of 24 Bowdoin street, Newton Highlands, was charged by Officer Dowling with speeding. Both these cases were continued.

In the Newton court on Monday Motorcycle Officer Hammell was the complainant against a number of speeders. Leroy Richardson of Arlington was fined \$10 and Max Wahl \$5.

Brothers Engage In Scrap

James Grasso of 132 Central ave., Needham, was arraigned in the Newton court on Saturday charged with assault and battery on his brother, Thomas Grasso of 62 Central avenue, Needham. Thomas, the complainant, claimed that John had assaulted him. Thomas showed no signs of having been assaulted but James had a black eye and a damaged nose, so Judge Bacon found him not guilty. Alleged remarks made by James about Thomas' wife was the cause of the brotherly lack of love.

Liquor Raid at Newton U. Falls

A squad of Newton police including Sergeant Mehan and Patrolmen Carley, Dowling and Riley raided the shoe repairing shop of Harry Snyder, 1221 Chestnut st., Newton Upper Falls on Saturday night and seized three pints of alleged whiskey, and about three dozen empty bottles. The raid followed a sale of alcoholic beverage to a spotter who assisted the police. In the Newton court on Monday Snyder was fined \$50 by Judge Bacon, and given a suspended prison sentence of three months.

Folk Festival Closes Summer School Session

Over fifty children from Auburndale and West Newton took part in the pageant of foreign folk songs and dances held by the American Institute of Normal Methods in honor of their 53rd anniversary at Lasell Jr. College, Auburndale, Saturday, July 27th.

The children were members of the Demonstration School which has been held for two weeks at the Williams Public School in Auburndale and the children were trained by teachers studying at the American Institute's summer conference.

Instead of the usual program of a dance followed by a song, the whole program was connected by a story told quite charmingly by Mrs. Stella Marek Cushing of New York, director of the pageant. Mrs. Cushing wore a colorful Czechoslovakian costume.

Over five hundred people watched the young dancers of the demonstration group and students of the institute who took part in their gay foreign costumes as they enacted scenes from Russia, Sweden, Czechoslovakia and Poland.

Mr. Osburne MacConathy, dean of the school, led the small orchestra of high school students that accompanied the dancers.

The summer session of the American Institute of Normal Methods closed on Tuesday evening, July 30th. The principal speaker at the Commencement Program was Mr. John Tasher Howard of New York.

Burke Promoted To Lieutenant

Hoseman Thomas J. Burke of Engine 3, Newton Centre was appointed a Lieutenant in the Newton Fire Department on Tuesday by Chief Randall. He was born in Newton 44 years ago and appointed to the fire department in May, 1915. Most of his service has been with Engine 3, Newton Centre. He has been assigned to Engine 4, Newtonville. Lieut. Francis Linnehan has been transferred to Engine 9, Chestnut Hill.

Former Fireman Reappointed

George H. Monks of 12 Waban street, Newton was reappointed a member of the Newton Fire Department on Tuesday by Chief Randall. Monks was born in this city 49 years ago and was appointed to the fire department in 1912. He resigned in 1919 and entered the employ of the Saxony Worsted Company. In recent years he has worked as a plasterer, the trade he followed before originally entering the fire department.

Falls From Swing, Breaks Collarbone

Robert McLaughlin, 18, of 14 Cheney court, Upper Falls, fell from a swing in the yard of the Emerson School on Wednesday afternoon and broke his collarbone. He was given first aid by fireman of Engine 7 house nearby and then taken to the Newton Hospital in the police ambulance.

COMPLETE SERVICES

Sympathetic Understanding

THE loss of a loved one is burden enough, and to have someone you can rely on to look after every detail of the funeral is a great relief at such a critical time. Sympathetic understanding of the situation qualifies us to serve you.

Parker Appointed To Bd. of Health

J. Earle Parker of 27 Metacomet rd., Waban, has been appointed a member of the Newton Board of Health by Mayor Weeks. Mr. Parker, who has taken a prominent part in civic affairs in this city for years, served as a member of the Newton Board of Aldermen from Ward 5 for years. He is in the textile business with an office in Boston. He succeeds to the vacancy on the Board caused by the recent resignation of Dr. Francis G. Curtis, former chairman of the Board of Health. The other members of the board are Dr. Wilson G. Smilie of Waban and John H. Madden of Newton.

Mayor Weeks has reappointed E. Ray Speare of Montvale rd., Newton Center, as a member of the Playground Commission.

Church Field Day At Lower Falls

The annual field day of St. John's Church at Lower Falls will take place next Saturday afternoon and evening, August 3. Games and entertainment for children will feature the afternoon program. Included among them will be a doll carriage parade, costume parade and Punch & Judy show. During the afternoon and evening various attractions usually presented at field days will be in evidence. Articles offered as prizes and for sale will be of excellent quality. Dancing will be enjoyed during the evening. At the refreshment table a regular supper will be served at 6 o'clock. Friday night an automobile parade advertising the field day will proceed through Waltham, Natick, Needham, Newton and Waltham.

The church grounds where the field day will be held are located at Washington, Columbia and Ledyard streets, Lower Falls. The committee in charge of the affair includes—James J. Cooney, general chairman; William Hughes, secretary; Henry Burke, treasurer; John Maloney, Michael Daley, George Connors, Alice Manning, Mrs. Michael Connolly, William Murray.

Burglar Escapes At West Newton

Last Friday afternoon while Patrolman Joseph Carroll was on West Newton Hill he observed a man trying the door of the home of Thomas R. Winchell at 350 Highland st. The family is away for the summer and mindful of the fact that several unoccupied houses have been burglarized in that district the past couple of months, Carroll started toward the place. The intruder saw the policeman approaching, fled through the backyard of the Winchell property and made his escape. It is supposed that an automobile was waiting on an adjoining street to assist the supposed burglar in making a getaway.

Autos Crash At Nonantum

Last Friday a collision involving two cars and a truck occurred at Watertown and Bridge sts., Nonantum. A car driven by Julianne O'Connell of Haskell st., Allston, stopped quickly to avoid striking a car which had made a left turn. A car driven by Hadley Contri of Cambridge stopped immediately behind the O'Connell car and was hit by a truck driven by John Kozel of Chelsea. The Contri car was pushed onto the first car. Mavis Contri and Somers O'Connell of Belmont, passengers in the Contri car, claimed they were injured.

N'ville Young Man Killed in Stunt

William C. Miller, 24, of 29 Beaumont avenue, Newtonville, was killed on July 26th at Ocean Park, California when he was shot as a human projectile from a compressed air cannon at an amusement park. Young Miller was the son of Mrs. Ethel Miller of Long Island City, New York. For the past 13 years he had made his home with his uncle and aunt, Mr. and Mrs. Edwin T. Campbell, 20 Beaumont avenue, Newtonville. He was born at Fort Fairfield, Me. He attended F. A. Day junior high school and graduated from Newton High in 1929. He had been a student at Tufts College and Duke University. Miller went to California some weeks ago. According to the manager of the California resort, young Miller asked to be permitted to perform the "human projectile" stunt, and stated he was an expert diver. The first time he attempted the feat he was projected about 125 feet from the cannon, hit the water and did not come to the surface. His body was found the next day floating under a nearby pier.

Union Services At Newtonville

The union Sunday morning services conducted in Newtonville by the Methodist and Congregational churches will be held during the month of August in the Central Congregational church on Walnut st. Rev. Randolph Seaman Merrill, minister of Central church, will return to open the series which will include among the preachers Dr. D. Brewer Eddy and Dr. Wynn C. Fairfield of Newtonville and Dr. Harry Kimball of Needham.

Mr. Merrill, who has been spending the month of July at his summer home in Enfield, Mass., has just recently attended the Northfield Conference for ministers and laymen and will bring to his congregation the inspiration derived from this nationally known religious center.

The soloist for the morning will be Franklin Field, well known baritone, and Miss Lillian West will be at the organ. The service starts at eleven o'clock.

Five-Year-Old Boy Hikes To Waltham

Louis Stewart, 5, of 137 Charlesbank road, Newton, disappeared from his home Saturday afternoon and the police were notified. It was feared that the child might have fallen into the Charles River which is near his home. Saturday night Patrolman O'Neil of the Waltham police found Louis window shopping with the crowds on Moody street in that city. The boy had traveled about four miles from his home.

Drove Away After Crash; Fined \$35

James Larkin, 39, of 14 Turner st., Brighton, was fined \$10 in the Newton court on Monday for driving a car without having a license, and \$25 for leaving the scene of an accident without revealing his identity. On June 16 at 11:55 p. m. a car driven by Larkin hit a parked car opposite 230 Walnut st., Newtonville. Larkin continued driving and was intercepted on Page rd. by Patrolman Purcell who chased him in a commandeered car.

THE WEEK IN NEWTON SPORTS

By JACK MORRIS

CATHOLIC AND CITY CLUB NINES TIED FOR TWO-LEAGUE LEAD

Catholic Club and City Club, deadlocked for the league lead, staged one of the best games of the year last Monday night and when the game ended because of darkness the score was tied at 3 all. There is intense rivalry between these two clubs one, the City Club, coached by Jeff Jones, Newton High coach, and the other, the Catholic Club coached by "Buck" Donahue, Natick High School baseball coach. Jones selected McAdams as his pitcher and with the exception of the last inning he kept the hits well scattered. Red Joyce of no-hit, no-run fame was Donahue's choice and with the exception of the last inning he was very effective.

This game will probably be replayed on Sunday, August 11th, when the full nine innings can be played. Newton A. C. continues in a play-off position with two more wins and Scholastics in fourth place are given only an outside chance of passing this club. Each of these two teams has six games remaining to be played, the Aces having four games with first division clubs while the Scholastics have only three hard games.

The benefit game between the League All-Stars and the Directors team will be played Wednesday, August 7, as planned and all league games scheduled for that night have been postponed. In case of rain this game will be played the following Monday. The Directors have added Jimmie "Bullet" Byrne and John Manning to their squad and now have two complete teams.

Schedule For Week of August 5, 1935

Monday

Y. M. C. A. vs Newton A. C. at Cabot, Garden City Club vs Catholic Club at Victory.

Centre A. C. vs Newton Town Team at Highlands.

Tuesday

Catholic Club vs Scholastics at John W. Weeks (W. N.)

Newton Town Team vs West Newton A. C. at Victory.

Sacred Heart A. C. vs Newton Cubs at Cabot.

Wednesday

All-Stars vs Directors at West Newton.

Thursday

Auburndale B. B. C. vs Y. M. C. A. at Auburndale.

Newton City Club vs Sacred Heart A. C. at Highlands.

West Newton A. C. vs Centre A. C. at John W. Weeks (W. N.)

Scholastics vs Garden City Club at High School.

Friday

Newton Cubs vs Newton City Club at Cabot.

Newton A. C. vs Auburndale B. B. C. at Victory.

Standing Including July 31, 1935

	W.	L.	P.C.
Catholic Club	12	2	856
City Club	12	2	856
Newton A. C.	12	4	750
Scholastics	10	6	625
West Newton A. C.	10	7	529
Y. M. C. A.	9	7	562
Town Team	7	9	438
Auburndale	5	9	358
Garden City	6	12	333
Sacred Heart A. C.	5	12	294
Centre A. C.	4	11	267
Newton Cubs	2	13	133

CITY TENNIS TOURNAMENT PROGRESSES

With half the second round matches completed, none of the seeded eight players has been eliminated from the city tennis tournament. Important matches this week will bring together Don Martin against Frank Wetherbee, Henry Jones against Leo Geary, and Ed Strum against Henry Simon.

First round, upper half, complete: Don Martin d. Porter Jarrell 6-0, 6-1; Jack Morris d. Frank Scheele 6-0, 6-2; B. Derow d. Richard Griffin 6-2, 8-6; Frank Wetherbee d. Robert Stewart 6-1, 6-1; Leo Geary d. Walter Michael 7-5, 6-0; Bill Porter d. Wilson Walker 6-3, 6-4; Robert Ashley won by default from B. Mullen; Henry Jones d. Donald Manchester 6-2, 6-1; Paul Rich won by default from Jack Healey; Robert McMillan won by default from Richard Howard; Willard Babcock d. Sam Wyatt 6-3, 6-0; Kersam Chohanian d. Victor Haven 6-3, 7-5; Robert Sproat d. Herman Swartz 7-5, 6-4; Robert deBourke d. Loring Thompson 6-0, 6-1; William Watson d. Robert Symonds 8-6, 3-6, 7-5; Gordon Kitchin d. Ronald Cullen 6-2, 6-2.

First round, lower half: Jack Higgins d. T. O. Sylvester 6-3, 6-1; Gordon Naylor d. Jerry Fagan 6-0, 6-1; Robert Frye d. Robert Borovoy 7-5, 6-4, 6-4; Robert deBourke won by default from J. F. Doherty; Franklin Segal d. D. J. Scott 6-1, 6-0; Basil Ridgeway d. J. F. Head 6-1, 6-3; Ed Strum d. Richard Rice 6-1, 6-3; Donald Grant d. James Nolen 6-3, 6-0; Hollis Whitten d. Richard Griffin 4-6, 6-2, 7-5; Henry Simon d. George Hanow 6-1, 6-4; Lincoln Merrill d. Wesley Dynes 4-6, 6-2, 6-1; Albert Freeman d. Richard Touseley 6-0, 6-2; Johnson Quick d. Frank Light 6-2, 4-6, 8-6; Harry Sylvester d. Jack Canter 6-4, 9-7.

Second round: Don Martin d. Jack Morris, 6-1, 6-0; Frank Wetherbee d. B. Derow, 7-5, 6-2; Henry Jones won by default from Robert Ashley; Willard Babcock d. Kersam Chohanian, 6-1, 6-2; Robert deBourke d. Ed Strum, 6-4, 6-4; Ed Strum d. Donald Grant, 6-3, 3-6, 6-2; Henry Simon d. Hollis Whitten, 6-0, 6-1; Lincoln Merrill d. Albert Freeman, 6-8, 6-1, 6-4. Just eight of the sixteen second-round matches have been played off.

Philip Scanlon defeated Bill Betz in the high school playground championship singles for younger boys, winning 6-1, 6-0, in the final last week. These two led their playground team to a decisive 4-0 defeat of Victory Field in an interplayground match played yesterday on the Nonantum playground courts. The second doubles match was not played.

High School Playground 4, Victory Field 0. Phil Scanlon d. Ralph Sampson 6-4, 6-2; Bill Betz d. Charles Feeley 6-1, 6-1; Bill Harber d. Ed Russo 6-0, 6-1; Harber and John Fairfield d. Harry Balfrey and Ed Russo 6-0, 6-1.

DICK VAUGHAN, YALE, TO COACH PRINCETON

Official announcement was made Wednesday night of the appointment of Richard F. Vaughan of Newton Centre as head coach of hockey at Princeton University. He will take the place of Frank Frederickson, former Boston Bruins professional, who resigned last spring.

Vaughan, the 28-year old son of Professor Richard M. Vaughan of Andover-Newton Theological Seminary, played hockey and baseball at Newton High School, Andover Academy and at Yale, where he was captain of both sports. After his graduation from Yale in 1928, he returned to Andover to teach for a year, then went to Yale as a graduate student of philosophy, remaining there as assistant coach of hockey from 1929 until the present.

Chinese Film Heads Bill At Paramount Theatre

Starting Sunday, August 4th, the feature film at the Paramount Theatre, Newton, is "Oil for the Lamps of China," the latest Cosmopolitan production released by First National Pictures. The preliminary work began early in 1934 when arrangements were made for taking exterior shots in Manchuria, scene of events described by the author. Pat O'Brien has the leading role, that of an American fired with enthusiasm to make good with his company, a great oil concern, and to bring light to China by the way of lamps and oil.

Josephine Hutchinson portrays the girl Pat marries and who, in the end, saves him from being cast aside by the company in whose service he had spent a lifetime of work. The supporting cast includes Jean Muir and John Eldredge and Arthur Byron. On the same program is Ann Sothern and Gene Raymond in "Hooray for Love."

Thursday to Saturday, August 8th, the feature picture will be George Raft in the "Glass Key," with Edward Arnold and Claire Dodd. George Raft as a patent leather gorilla-buster, so dangerous, he'd make the Thin Man run home to mama! Dashiell Hammett's favorite crime sleuth, the most exciting guy ever met, in the most tangled mystery one ever tried to solve. The co-feature offered is "Vagabond Lady," with Robert Young and Evelyn Venable.

Boys and girls enroll now in Bob Mills' Kiddie Revue on the stage every Saturday matinee with the thrilling serial, Tom Mix in the "Miracle Rider."

Hobby Day at Playgrounds

In the second of a series of Hobby Days conducted by the Playground Department, the boys and girls of the Nonantum district made merry in presenting themselves "all dressed up" to their friends and parents, Wednesday afternoon at the Hawthorn Playground. Over six hundred enjoyed the parade and the games that followed.

This Newton district comprising the Hawthorn, Stearns, Victory, Boyd, and Horace Mann playgrounds co-operate weekly in exhibiting a hobby particularly interesting to them. The hobby of "dressing up," of imitating some character of the movies, of fiction, of history, and of everyday life makes continual appeal to all youngsters. The interest, care, and sincerity which these young folks showed was very evident in the perfect resemblance of the characters which they represented.

There were 136 boys and girls in the "Dress Up" Parade. The odds was that no two wore the same costume. It was a variety show of color, dress, music, hats, shoes, umbrellas, and everything that has to do with dress.

The judges were perplexed in their quest for the outstanding "make-ups," for the sincerity manifest by the youngsters was hard to ignore. One little fellow dressed as a one armed fruit vendor yelled at the top of his voice during the entire parade worried, as it were, that his, plainly to be seen, efforts would be ignored.

The final decision of the judges resulted in Eddie White of Hawthorn being chosen as the "most horrible" as his complete costume of a fierce Indian Chief was outstanding. The most unique was given to Sylvia Farine of Hawthorn as a sandwich man. Bobby and Mary O'Connell of Hawthorn were awarded a prize because of the comely originality of their costumes—A Terrible Turk and His Lady. They were a scream all along the parade.

Joan McGrath of Horace Mann representing a woman of the Stone Age was excellent and received a prize. Kenneth Morrell of Stearns was declared the most comical in his perfect resemblance, although he is only a little chap of five years, to Aunt Jemima. Helen Hicks of Horace Mann as Captain Kidd could not be improved and the judges thought that she was an exact replica of the captain himself.

The pity of the entire performance was that each boy and girl could not have been rewarded for everyone was outstanding. In all the parades held in Nonantum on Hobby Days has been one in which the participants were so thorough and complete in the detail of their costumes. It was an exceptional exhibition of child desires, an exhibition of the wholesome desires of every boy and girl to dress up and "make believe." These desires are those of healthy boys and girls and as Superintendent Hermann says "These desires, these hobbies are the ones which we should help to cultivate. Give the boy and girl an opportunity to express himself wholesomely and he will grow, grow in the right direction of sound principles and good character, which is synonymous with good citizenship."

The games which followed the parade were unique relay games which are participated in by the boys and girls of the district daily. They were unusually outstanding in the variety of interests which they developed. Each game of race gave opportunity for fun. They were varied so that the "sure shot" boy or girl athlete received excellent competition. The so-called "athlete" in the "newdeal" must have competition and speed alone will not win. Speed plus keenness of eye, hand and brain as well as sound body were needed in the competition of these youngsters.

A summary of the races: Paper bag relay race—Girls: First, Boyd Playground; 1, Emma Bianchi; 2, Helen Proia; 3, Lillian Nardone; 4, Veronica McWalters. Second, Hawthorne: 1, Eleanor Visco; 2, Carmella Cugini; 3, Alice Lowther; 4, Josephine Shadrelli.

Obstacle Race—Boys: 1, Frank Salvucci, Hawthorne; 2, Albert Lochi-atto, Horace Mann; Girls: 1, Nina Coletti, Hawthorne; 2, Mary Kraterville, Horace Mann; 3, Legged Race—Boys: 1, Rocco Marzelli, Dalby Farnese, Hawthorne; 2, Jack LaCroix, Junior Flynn, Stearns; Girls: 1, Nina Coletti, Matilda Anese, Hawthorne; 2, Laura Tosi, Dorothy Sampson, Victory.

Chesterfields "go to town"

They Satisfy

—that's just the 1935 way of saying what Chesterfields have been saying for years . . .

Chesterfields do about everything a cigarette ought to do.

Chesterfields have TASTE—yes plenty of it. But not too strong. And Chesterfields are MILD—but they're not insipid or flat.

Chesterfields "go to town"

The Days Of Real Sport

In reading a copy of the NEWTON GRAPHIC printed on August 1, 1885, we came across the following account of a 15-mile Tricycle Race held 50 years ago in which two Newton residents were participants. One of these, Edward P. Burnham, was well known to older Newton residents. He was a mason and bricklayer by trade and for years conducted a prosperous business in this city. His hobby was bicycle riding and racing. He gained a reputation as a speedster on the old-fashioned high-wheel bicycles and tricycles, and he was one of the pioneers in popularizing the modern type of bicycle, known as the "safety bicycle" when it was introduced nearly a half-century ago. The fact that Mr. Burnham, after putting in a hard day's work, as a bricklayer, had sufficient surplus energy to pedal a 98-pound tricycle in 15-mile races shows the vitality he possessed.

W. H. Huntley of Nonantum was a young Englishman who was a machinist by occupation. He came to Newton to work in the Nonantum Worsted Mills and was employed in Boston at the time he engaged in the tricycle race.

The roads in 1885, over which the racers pedaled, were in large part of gravel. That they were rough was proved by the fact that Huntley took a header off a tricycle. It is rather difficult to visualize the boys and youths of today who ride in luxurious comfort in automobiles, finding recreation pushing 90-pound tricycles at "top speed" over gravel roads.

"Tricycle Race"

The first event on the program was the 15-mile tricycle race, which started promptly at 3:04 o'clock. Of the six entries, all but one came to the scratch, and aligned from the curb, their order was: W. H. Huntley, Nonantum Club; John Ames, Cambridge; John Williams, Dorchester; E. P. Burnham, Newton, and W. A. Lester, Cambridge. Immediately at the work, Huntley and Williams made a bid for first place, which resulted in the latter's favor, and although pushed a little later by Burnham, who desired to become pace maker, he retained his position, and was not headed throughout, and by the time Dedham was reached the heavy work had so begun to tell upon the favorite that he was content to remain in second place. His wishes were, however, not to be gratified, for having made the turn, Huntley challenged Burnham and passed him, and although between Hyde Park and Dedham the former took a bad header, he pluckily remounted, and made some excellent time during the last part of his course under the able tuition of Corey. As Williams came in sight of the crowd at the finish, cheer upon cheer rent the air, and the rider of the "Quadrant" was the centre of attraction, as

Kiwanis Club

At the Newton Kiwanis Club weekly meeting, held Tuesday noon, at Charles River Country Club, the members enjoyed one of the most interesting talks which they have had in several months.

Mr. E. E. Hickey, a member of the Newton Kiwanis Club, and Treasurer of Bachrach, Inc., brought numerous examples of Bachrach's exquisite workmanship and discussed briefly the aims and processes employed in the Bachrach plant. Mr. Hickey's pleasing personality, combined with his interesting subject matter, gave the club a most enjoyable and worthwhile half hour. During his talk, Mr. Hickey invited the club to arrange for a meeting at the Bachrach plant some time in the fall, at which time members will be permitted to go through the different workrooms and see the Bachrach artists at work.

Next Tuesday at the Charles River Country Club, the Kiwanis Club will be shown three reels of talking moving pictures sponsored by the General Motors Corporation.

praise was showered upon him from all sides for the easy and graceful manner in which the three-weeks' novice downed the sturdy veteran. The summary: First prize, gold medal, value, \$25; second prize, gold and silver medal, value, \$15. John Williams, Dorchester, 1h, 14m. 10s.; W. H. Huntley, Nonantum Club, 1h, 14m. 55s.; E. P. Burnham, Newton, 1h, 15m. 30s. Mr. Burnham's machine weighs 98 lbs., Williams' 65 lbs. This fact, and also that of imprudently riding his machine over from Newton before the race, 13 miles, on a terribly hot day, doubtless affected the result. We shall look for better work from him next Monday, Aug. 3rd, as well as at the Pittsfield races, Aug. 13.

"The route of the tricycle road race of the Boston Club, So. Natick to Boston, 16 1/4 miles, Monday, Aug. 3, will be substantially the same as in former years, finishing between Brimmer and River streets. The prizes will be a gold medal to the winner, silver medal to second and silver record medals to contestants excelling E. P. Burnham's time of last year, 1h, 14m. 40s."

MURPHY; on July 27 to Mr. and Mrs. Matthew Murphy of 63 Jewett st., a daughter.

HALEY; on July 28 to Mr. and Mrs. Jeremiah Haley of 237 Auburn st., a daughter.

Rotary Club

Ten Contest Winners In Fashion Revue Aug. 8th

On Thursday evening, August 8th, the Paramount Theatre in Newton will present the ten winners of the "I. J. Fox Hollywood Opportunity Contest" in a Fashion Revue on the stage in person with the I. J. Fox Fur Trappers' Orchestra, directed by Rakov and the Radio star Adrian O'Brien. Parties are being arranged to attend the Paramount Theatre on that evening to give the contestants of Newton and surrounding cities a warm welcome. Entry blanks for this contest may be had at the theatre. Contest closes on August 5th at midnight.

At the Monday meeting John E. Olcott, formerly professor in the Dept. of Design, Massachusetts Institute of Art and now a consultant in Commercial Design to various industries of New England, spoke on "Art in Business."

In the first place he emphasized that Art is by no means the product or the functioning of a set of rules which have been devised by artists; rather these rules or principles are the formulation by men of practices which have been observed by men in nature or in design. To illustrate his meaning he coined the word "beautility" out of the two all important factors in any kind of art or design—beauty and utility.

The use of art in any real commercial way developed around 1820 when mass production began in industry; and for a hundred years it was largely a matter of copying and adaptation in all of its manifestations, whether in matters of clothing or furniture or houses. About 1920 came a period of real creative development and for a while designers dealt with their materials "like kids out of school" with the resulting weird collections of lines and angles and masses of color of the "modernistic" period.

In artistic design, good taste is "visual rightness"; and good taste may differ widely from the personal taste of some particular individual. There are, however, five essentials to a successful design whether it be the design of a package, a piece of furniture, or a machine: (1) "Balance" or "Equilibrium"; (2) "Harmony"; it must go with the other things with which it will be associated; (3) "Rhythm"; grace in its lines and efficiency in its use; (4) "Fitness"; it must accomplish its purposes (5) and finally and indispensably, it must be "Fashionable" or in accord with whatever styles prevail at the given time. If a design is fashionable and has the other characteristics as well, it will be a success.

Recent Engagements

Mr. and Mrs. Ralph Hatch of Prince street, West Newton, announce the engagement of their daughter, Miss Marguerite Hatch to Mr. Francis Allan Vaughan son of Mrs. Allan Vaughan of Belmont.

Miss Hatch is a graduate of Miss Wheelock's School. Mr. Vaughan is a Worcester Academy and Bowdoin College graduate. He is a member of Theta Delta Chi Fraternity.

The wedding is planned for August 24 at four o'clock in the Second Church, West Newton.

Mrs. Leslie Orrell of Chicago, Illinois, announces the engagement of her daughter, Miss Grace King Orrell to Mr. Dana Frederick Baird, son of Mr. and Mrs. Frederick H. Baird of Loring street, Newton Centre. Miss Orrell is now the guest of Mrs. Baird. No date has been set for the wedding.

Mr. and Mrs. Frank E. Larrabee of 40 Austin st., Newtonville, announce the engagement of their daughter, Miss Margaret E. Larrabee, to Richard P. Howell, son of Mr. and Mrs. William H. Howell of Waltham.

Miss Larrabee is a graduate of the Newton High School.

THE OLD MAN OF THE SEA

The depth to which the Republican party in Massachusetts has fallen was further indicated yesterday on Beacon Hill when the House of Representatives passed the \$13,000,000 highway bond issue despite the earnest plea of Speaker Leverett Saltonstall. Forty-three Republicans, many of them undoubtedly impelled by the prospects of the allocation of funds to projects which seem vital in their districts voted for the expenditures. Five other members, four of them Republicans, were not recorded. While in a measure the responsibility for increasing the indebtedness of the State will fall upon the Democratic party, the fact that but one vote more would have defeated the bond issue places the onus directly upon each and every Republican who could have changed the result.

There is slight satisfaction that the second bond bill calling for more than seven millions of dollars to be spent in state building construction was reduced to four and a half million. Previous actions by the Senate indicate acceptance of both issues by that branch and also by the Governor, who first sought a thirty-five million dollar bond program. The authorization of these bond issues may now seem like an oasis in the midst of the desert to the thousands of unemployed in Massachusetts but will the future prove it to be only a mirage? The Federal government embarked upon a spending program which will be borne by succeeding generations and to this we are adding a state burden which brings to mind the story of the Old Man of the Sea.

A HALF MILLION FOR FORTY THOUSAND

From the \$2,300,000 to be distributed to cities and towns of the State out of the \$13,000,000 highway bond issue Newton will receive \$39,119. Representative Bigelow of Brookline, House chairman of the Ways and Means Committee, recently gave figures showing the amount each locality will eventually pay for its share of funds. Newton, according to these figures, must pay back into the state coffers the sum of \$508,275 during the next ten years for the use of the \$40,000 at this time. Although the legislation calls for payment of interest and principal out of the revenues from taxation of gasoline Representative Bigelow points out the inevitability of an increased state tax unless new avenues of taxation are produced. The increase of the state tax falls directly upon the real estate tax payer. It is by no means a pleasant situation. There is, however, a day of reckoning coming when the taxpayers will receive the relief that they sorely need.

Newton Traffic Report Details

(Continued from page 1)

1930-1934 period were: Sunday, 426; Monday, 346; Tuesday, 341; Wednesday, 349; Thursday, 397; Friday, 379; Saturday, 472. Accidents by months during 1930-1934 were: Jan., 167; Feb., 205; March, 177; April, 217; May, 241; June, 233; July, 199; Aug., 194; Sept., 229; Oct., 299; Nov., 272; Dec., 280.

An interesting fact is that fewer accidents occurred when streets were wet, than when streets were dry. During the 1930-1934 period 1653 accidents occurred on dry streets, and 779 on wet streets. While the atmosphere was clear, 1940 accidents occurred; while the atmosphere was cloudy, 620 accidents occurred. During daylight

hours 62.08% of the accidents occurred; during night hours when darkness prevailed, 37.92%. During 1934 crime caused the deaths of 2 persons in Newton and automobile accidents 7.

Auburndale Boy Disappears

Robert Hennessey, 10, of 11 Gambler road, Auburndale, son of Mr. and Mrs. William Hennessey, disappeared on Saturday after having left his home to go to Forest Grove beach on the Charles River for a swim. When he did not return Saturday evening, his parents notified the police. Sunday and Monday members of the Metropolitan police force searched the Charles River for a trace of the boy and Newton and Waltham police searched along the shores of the river Monday.

ABOUT TOWN

By Edward H. Powers

When we were boys we used to get a laugh when the Chinese laundryman would show us a coin of his native country, the value of which would be a fraction of a cent. We commented "how poor the Chinese must be." Now, this country is about to make and issue coins valued at a half cent, and one mill, which is one-tenth of a cent. How times have changed. According to newspaper reports the one mill coin will be made of aluminum. Another break for Andy Mellon.

Senator George M. C. Fernald was severely criticised for palming his vote, thus permitting the passage of the 48 hour bill for employees of institutions; and in return he severely criticised his critics. The fact of the matter is—that in Moxsey's district are a number of State institutions, the Concord Reformatory, Metropolitan Hospital for Insane at Waltham, Fernald State School for Feeble Minded at Waltham. And there are many votes among the employees of these institutions, their relatives and friends.

The American Institute of Normal Methods which has been in session this summer at Lasell Junior College, Auburndale, gave a demonstration of a new method of teaching geography and history last Saturday afternoon at Lasell campus. Boys and girls participating were garbed in costumes of foreign lands and engaged in folk dances. Certainly teaching methods have changed since the days when we went to school. What a massage treatment the gang would have given any kid in the "Gay 90s" if he attempted to learn geography by doing a folk dance while attired in a Russian costume.

Paul Bowser, as a boy, must have read Phineas T. Barnum's famous comment—"The American people like to be fooled." And Paul was wise enough to realize that people who immigrate to America also like to be fooled. Paul has capitalized by playing to the racial pride of different national groups in this region and elsewhere, as well as featuring the "college boys" in his wrestling game. There has been no depression for Bowser. He knows his stuff.

So, in addition to allegedly spending a "propaganda" fund of \$781,000, more or less, some of those active in defeating the President's bill to curb holding companies in connection with public utilities, indulged in a whispering campaign to spread the impression that Mr. Roosevelt is not right mentally. Such a calumny is not new. We have heard persons gravely assert that they heard the President is queer as a result of having had infantile paralysis. Whether, or not, one believes in the President's policies, it is descending quite low to resort to this sort of stuff. Propaganda of this kind has been used in this and other countries in the past. Not alone to discredit men high in national political offices, but also to prejudice persons against men holding office or aspiring to office in local affairs. It's the way of a certain type of humans.

Of course we would not be sufficient-ly rash, radical or irresponsible enough to insinuate that the \$781,000 was used to bring any venal influence upon Congressmen.

The horrible automobile accident at Cambridge which resulted in the death of a prominent physician was caused, according to witnesses, by a youth who drove at terrific speed through a traffic signal. This accident calls attention to the rapid growth during the past two years of the practice by many autoists of ignoring red lights showing in traffic signals. Is it to be wondered at that this practice has grown when public officials are consistent offenders against this automobile traffic law? We have been informed that one high State official, whose duty necessitates him to admonish those who violate traffic laws, regularly drives through red traffic lights.

At one end of Boyd Park is a walk fenced off from the playground. This walk extends from Jackson rd. to Gardner st. and is used by a large number of persons residing North of Pearl st. The Gardner st. end of this walk is on a very steep grade. When Boyd Park was improved several years ago this walk was not properly surfaced; it was covered with loose gravel which washed away during the first heavy rain. Following protests, an apology for a tarred walk was laid on this steep slope. This surface was washed away months ago and persons using the walk requested that it be repaired so that it would be safe for travel. The "repairs" were recently made. They consisted of placing coarse, broken stones along the walk. Sharp broken stones which have ruined the shoes of those who walk on them and which cause persons to be in danger of falling. Several requests have been made to the Playground Department to have a tar surface placed on this walk but nothing has been done. The expense would be small.

It's the autoist who pays and pays, not alone through compulsory liability insurance, excise tax and registration fee, but continually through a gasoline tax, imposed ostensibly to build and maintain good roads, but actually for necessary and unnecessary State expenses of all sorts. Comparatively few autoists keep track of the amount of gasoline they purchase during a year, and thus have no definite knowledge of the amount they are mulcted through the gasoline tax.

Now that Governor Curley has succeeded in getting the Legislature to pass his bill authorizing the expenditure of \$13,000,000 on roads and \$4,500,000 on public buildings, many Newton men will obtain "work and wages."

Fifty Years Ago In Newton

From Newton Graphic August 1, 1885.

NEWTON ITEMS

Rev. Francis B. Hornbrooke and family left Monday evening by the Portland boat for Bethel, Maine, where they will remain until September.

Charles A. Drew of Newton, a prominent member of the Suffolk bar, and William J. Clark of Newton walked through the notch from Bemis, New Hampshire, to Crawford House the other day.

About 10 o'clock Tuesday night a kerosene lamp was discovered blazing up in the store of George H. Adams by Officer Quilty. With the aid of one of the clerks the lamp was extinguished without damage.

William H. Partridge and family are at Crescent Beach, Revere, at the Y. M. C. A. Camp.

Rev. E. P. Wilson of Watertown delivered an able address at the Y. M. C. A. open air gospel meeting last Sunday afternoon at the Newton Savings Bank grounds, Newton Center.

WEST NEWTON ITEMS

City Hall has been appropriately draped in honor of the nation's departed hero, General Grant. The stores of Nay & Pratt, George Gill & Co., and George H. Ingraham have also put on emblems of mourning.

The Second Congregational Church held a memorial service in the Unitarian Church parlors Sunday evening in commemoration of General Grant. A most interesting sketch of the War and reminiscences of General Grant were given by Mr. W. H. Folsom.

A goodly number assembled on Thursday at 4 p. m. to witness the laying of the corner stone of the Second Congregational Church. The first trowel of mortar was placed by Seth Davis, 98 years old; the second by Rev. Dr. Furber; the third by Rev. Calvin Cutler, the fourth by Rev. H. J. Patrick.

NEWTON CENTER ITEMS

On Tuesday afternoon a travelling German street band enlightened our midsummer somniferous air.

Just visit the lively stables of Shepherd L. Pratt on Beacon street; the neat cool stables, freshly washed floors, large variety of vehicles, well matched with good roadster horses. The arrival of each train at the station is faithfully attended to, and passengers are carried to any part of the village for the reasonable sum of 15 cents.

Dandelion parties have been fashionable this summer. They are modelled after old fashioned quilting parties. The young people assemble and with knives go over every part of the lawns and cut out every dandelion. Then follow supper, games, etc.

Claims ERA Money Wasted

(Continued from Page 1)

addition to repairing the tar sidewalks in this city, men on ERA relief work in this well be employed repairing the many miles of dangerous gravel sidewalks in the Newtons. It was voted to authorize the Mayor and City Solicitor to seek permission so that the new wing which is to be built at the Angier School, under WPA auspices, can be erected at the rear of the school adjoining the B. & A. tracks, instead of on the side toward the playground. This would prevent the building encroaching on the new baseball diamond.

A permit was granted to Hector Incorvat to install a 1000-gallon gasoline tank and pump in addition to those now at 302 Watertown st.; and to permit Margaret Kirk to transfer her employment office from 90 Webster st. to 1001 Watertown st. Leave to withdraw was granted L. Frank Perkins (at his own request) on his petition for a gasoline station at 76 Needham st.

It was voted to hold a public hearing on August 12th on the petition to have Rumford ave., Auburndale, improved at public expense. The sale of certain land owned by the city at Allison Park, Newton, was authorized in conjunction with the purchase of other land adjoining this park.

It is proposed to sell 25,000 square feet of land to former Alderman Daniel O'Connell for 5 cents per foot; this land being located at the rear of property owned by O'Connell on California st. This sale is contingent on the city being able to purchase an equal area of land from the Rohner Wool Scouring Company at the rear of their property at similar price. It is claimed the transfer would square the area of the Allison Park playground site.

Just because 81 out of 89 men and youths given work on a State road job at Draut are from Boston and its environs, notwithstanding that residents of Natick, Framingham and Wellesley have complained that men from Boston constitute the majority of those given employment recently on State projects in those towns, many unemployed men throughout Massachusetts still have faith that they will be included among the fortunate recipients of the "work and wages" program.

Sweeter Sugar

Levulose, in which the Jerusalem artichoke is especially rich, is a sugar that is about half again as sweet as cane sugar. But it is hard to prepare industrially, which is the reason it can not be bought in every grocery.

Slogan "54-40 or Fight"

Old Boundary Argument

The slogan "54-40 or fight," adopted by the war party in the election of Polk in 1844, was first used in a speech in the senate by Senator William Allen in that year. Under the Webster-Ashburton treaty of 1842, notes a writer in the Detroit News, the northern boundary of the United States ended at the Rocky mountains on the 49th parallel and excluded Oregon. Polk and the Democrats declared for the whole of the territory on the line of 54 degrees 40 minutes. Though hostilities with Great Britain threatened, negotiations resulted in a pact, whereby the 49th parallel was made the boundary line west from the Rockies to the Pacific ocean.

The old Fort Boise is mentioned in the history of the Oregon country and the life of Dr. Marcus Whitman, missionary and pioneer. In 1836 Whitman's party with their wagons crossed the continent, stopping at Fort Boise. Before reaching that post, at Fort Hall, the baggage had been reduced as much as possible and repacked, and the wagon converted into a cart. Fort Boise, two miles below the old Boise City, is mentioned as being "so rude an inclosure that it would hardly pass for a cattle pen or mule corral." It was decided to leave the cart there, until some one could come back and take it on to the established mission in Oregon; this was done later. In 1842 Whitman traveled overland to the East and returned the following year with a large party of emigrants, again stopping at Fort Boise on the way. Whitman's efforts had much to do with the acquisition of the Oregon territory and the settlement of this boundary dispute.

George Washington Among Earliest Mule Breeders

The bureau of animal industry says that the earliest mule breeders in the United States were George Washington of Virginia, Henry Clay of Fayette county, Kentucky, and Young & Everett of Montgomery county, Kentucky. Prior to the importations made by General Washington, a few diminutive jacks had been imported from the West Indies, but these were found undesirable for breeding purposes. In the year 1787 the king of Spain presented General Washington with a jack and a jennet from the royal stud at Madrid. The jack was named the Marquis de Lafayette presented General Washington with a Maltese jack, Knight of Malta. The Spanish jack was of a gray color, 16 hands high, heavily made and of a sluggish disposition. The Maltese jack had "the form of a stag and the ferocity of a tiger." The latter was bred to the Catalonian jennet and the offspring known as Compound became a famous breeding jack, uniting the Catalonian and Maltese breeds. Both of these importations mentioned reached Mount Vernon in the year 1788.

Impeachment

Impeachment has been as sparingly used in England as in this country. The last great impeachment trial in England was that of Warren Hastings in 1787. It is still theoretically possible for the house of lords to impose any penalty on a convicted person, of official or otherwise. But under the American Constitution impeachment is reserved for civil officers of the government and the punishment is confined to removal and permanent disqualification. By a two-thirds vote the house or senate may expel a member without approval by the other body and the President may at any time remove one of his appointees in the executive branch. Impeachment provides the only means of forcibly removing a federal judge, and the senate's verdict is final.

"Squaring the Circle"

Squaring the circle is a famous mathematical problem which scientists of today believe to be impossible. The problem is to find a square equal in area to a given circle; the area of the circle equal to that of the rectilinear triangle whose base has the same length and whose altitude equals the radius. The squaring of the circle thus becomes the problem of finding the ratio of the circumference to the diameter. In 1882 Lindemann proved that this ratio, known as pi, is a transcendental number and hence, since it is not the root of any algebraic equation, cannot be constructed to an assumed unit by the extraction of the square root, that is by using straight edge and compasses.—Washington Star.

Noisy Celebration

A corroboree is a ceremonial dance, of a more or less public character, in vogue among the Australian aborigines. It is generally held at night, the men doing the dancing and the women furnishing the music. This dance is the nearest approach to a national institution among these primitive people. It serves also as a peace ratification and as a means of intercommunication. Hence, the term is applied to any noisy or disorderly celebration.

Formation of Natural Glass

Natural glass is a phenomenon well known to science. As a rule it is caused by the fusion of lightning and sand. Examples found in the Arabian and other deserts are invariably tubular and friable. Another variety, known as tektites, occurs in meteoric craters, and has long been familiar as "obsidian," "water chrysolite," and "Moldavite," the various names given to gem stones cut from it.

CITY OF NEWTON CITY CLERK'S OFFICE

WHEREAS, Petitions have been filed with the Board of Aldermen of the City of Newton as defined in list attached hereto for the modification of District Boundary Lines as established by "Zoning Ordinance, Chapter XXXII, as amended," and

WHEREAS, Said Board of Aldermen intend to grant said petitions, it is therefore

ORDERED, That a hearing be had thereon and that Wednesday, the 28th day of August, 1935, at 7:45 o'clock in the afternoon, at the City Hall in said City of Newton, before the Committee on Claims and Rules of the Board of Aldermen, be and the same is hereby assigned as the time and place for hearing all parties interested therein. It is further

ORDERED, That three weeks previous to said date of hearing, due notice of said intention and of said hearing be given to the owners of real estate directly affected by the change, real estate opposite to and abutting on such property and all the real estate which in its opinion may be injuriously affected thereby, and that notice of the same be posted in the vicinity of the proposed change, and that further notice be given by publication in the Newton Graphic on August 3rd, 1935, under the provisions of Chapter 269 of the Acts of the General Court of 1933.

List of Petitions accompanying Order of Hearing for Modification of District Boundary Lines shown below:

72619 Steven R. Berke et al, changing real estate from Manufacturing to Single Residence District, Section 64, Block 10, Lot 1, on southerly side of Norwood Avenue, Ward 6, between Centre Street and Crystal Lake.

72620 Robert Curran et al, changing real estate from Single Residence to Private Residence District, Lots 3E, 3F, 3G and 3H in Section 32, Block 3H, on Lindbergh Avenue, Henshaw Terrace, and Henshaw Place, Ward 3.

Attest:

FRANK M. GRANT,
City Clerk.

Notice is hereby given by the Planning Board that it will hold a public hearing on the proposed amendments to the Zoning Ordinance of the City of Newton described in the foregoing notice and at the same time and place, under the provisions of Chapter 269 of the Acts of the General Court of 1933.

Attest:

ERNEST H. HARVEY,
Clerk, Planning Board.

Mediterranean Cork-Oak Provides Stopper Supply

Cork stoppers are cut out of the cork layer of the bark of the cork tree or cork oak of the Mediterranean. Spain and Portugal chiefly supply the world with cork.

The cork tree is not of great size, generally 20 to 60 feet high, the trunk often three feet in diameter, much branched, with ovate-oblong, evergreen leaves. The tree is usually twenty-five years old before it yields a gathering of cork, and attains an age of one hundred and fifty years. About every eight to ten years a crop is taken from the tree.

Besides being used for stoppers, cork is much used for floats of nets, life belts, etc., and because of its impermeability to water, and being a slow conductor of heat, inner soles of shoes are made of it. The cork tree, occasionally planted in England, has been found to do well in certain parts of the United States.—Philadelphia Inquirer.

Vanilla From an Orchid

Vanilla comes from an orchid, the vanilla planifolia, which grows in tropical America and Asia.

Fishing in Mexican Waters

Fishing in Mexican waters is prohibited except by government permit according to law.

CHRISTIAN SCIENCE

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 4.

The Golden Text is: "The Lord hath appeared of old unto me, saying, Yea, I have loved thee with an everlasting love; therefore with loving-kindness have I drawn thee" (Jeremiah 31:3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I will mention the lovingkindnesses of the Lord, and the praises of the Lord, according to all that the Lord hath bestowed on us, and the great goodness toward the house of Israel, which he hath bestowed on them according to the multitude of his lovingkindnesses. For he said, Surely they are my people, children that will not lie: so he was their Saviour" (Isaiah 63: 7, 8).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Mortals believe in a finite personal God; while God is infinite Love, which must be unlimited. . . . Not materially but spiritually we know Him as divine Mind, as Life, Truth, and Love. We shall obey and adore in proportion as we apprehend the divine nature and love Him understandingly, warping no more over the corporeality, but rejoicing in the affluence of our God" (pp. 312, 140).

Nerves Are tiny

A nerve often looks like a translucent whitish piece of twine, and varies greatly in size from a thread so delicate that we can hardly see it, to the sciatic nerve in our leg about half an inch across.

Amsterdam on 90 Islands;

Has Hundreds of Bridges
It is difficult to imagine why any one should have selected the present site of Amsterdam for a metropolis. In the beginning the dam on which Gysbrecht II, Lord of Amstel, built his castle, was a dike almost entirely surrounded by gray ooze slashed with tidal rivulets.

Now Amsterdam stands on 90 islands, connected by about 300 bridges and separated by innumerable canals which are landscaped and regulated with all the exquisite perfection of the water ways of exhibition grounds.

Along these canals, except the most strictly commercial thoroughfares, are rows of linden trees with branches bending down so far as to sometimes swish the still surface of the water.

The buildings of Amsterdam are of two distinct sorts: the old—none of which seems to have been troubled by carpenter or mason in at least 300 years—and the new.

Next to ancient houses with "step-gables" topped by a stork's nest of tangled twigs stand extremely modernistic structures in the building of which Holland has been a pioneer.

Historic Desk Found

The study at Villa Sans Souci, the room in which Frederick the Great wrote and read, was completely transformed after the death of the great Prussian king. His successor, Frederick Wilhelm II, had the original rococo style of decoration removed and the room redecorated in classical style. In consequence of this transformation the furniture of Frederick the Great was dispersed and his favorite writing table was given to the castle caretaker. After that the table disappeared and was only recently discovered in a dealer's auction room. On hearing of it the German government secured this interesting relic for the nation. Thus the writing table at which the maker of modern Prussia worked for over 40 years has been restored to its original position. Carved from cedar wood and embellished with gilded bronze ornamentation in the rococo style, it was made to specifications in 1749.

Clever Reynard

The name Reynard came from a German book of animal stories published hundreds of years ago. In that book the fox was called Regn-hart, meaning "strong in counsel," because of the clever way in which he mastered the other animals. Ever since the book came to this country we have spoken of Reynard the fox—Reynard being our form of the German Regn-hart.—Pearson's Weekly.

Bulldog Fine Breeder

The bulldog, long considered a symbol of pluck and tenacity, originally was one of the most sporting of animals because of his feats of baiting bulls and even lions and tigers. Canine authorities say that the influence of the bulldog on his race has been very marked. Even in its most diluted form the blood of the bulldog is said to be capable of transmitting its best qualities to every descendant.

The Sabbatical Year

In the Old Testament the sabbatical year is described as a year of rest, either for the priests or for the soil. In modern times it refers to a year's leave given to clergymen and teachers, for travel, study or rest. The term implies that such a year comes at the end of six years of service, but it is now used in a broader sense for a leave of absence after any number of years of service.

—Mrs. A. B. Murray and her daughter, Miss Fay Tyler Murray of Baton Rouge, Louisiana, are visiting Mrs. Murray's brother, Frank E. Tyler, of 124 Langley rd. Mrs. Murray is to remain here for two weeks.

Custom of Tattooing Is From South Sea Islands

That barbaric custom of tattooing, borrowed by sailors of all countries from the natives of the South Sea Islands, is named from the Polynesian word *Tatu*, or *Tatu*, states a writer in the St. Louis Globe-Democrat.

Tattooing was originally a part of some primitive religious ceremony. The painful process by which the skin is pricked and dyed into pictures and symbols probably started with the custom of slashing one's body in grief and rubbing ashes into the wounds. The ashes caused a permanent discoloration in the skin, but this was viewed with a religious pride.

These distinctive colored marks in the flesh probably came to be regarded with some admiration, and so there developed the art of tattooing.

There are two kinds of tattooing—color and scar. In the color tattooing, the skin is punctured and the holes are filled with various dyes. In the scar tattooing, the skin is scarred and recut in the old scars until the tissue is puffy even after the wound is healed.

In general, the South Sea Islanders used only blue and black coloring for their tattooing, but the Formosans and the Japanese developed a technique which employed many colors.

Color tattooing is usually supposed to be ornamental, and scar tattooing is used as a mark of tribal recognition, but a certain tribe of the middle Congo scars the whole body by way of beautifying it.

In the Admiralty Islands, in Fiji, and in certain parts of India, only the women are decorated by color tattooing.

The Delicious Apple

The delicious apple first came to notice in the orchard of the late Jesse Hiatt of Peru, Madison county, Iowa, about 1881. It was then a sprout, supposed to be about six years old, from the stock of a Yellow Bellflower tree, the top of which had been destroyed. The beauty and fine quality of the fruit attracted Mr. Hiatt's attention and he at once began its propagation in a small way for his own planting. The name Hawkeye was applied to the apple by the Hiatt family.

The right to propagate and sell the variety for a period of years was sold with the right to rename the variety Delicious. It was commonly introduced in 1895 under that name, which word was registered in the United States patent office as a trade mark July 4, 1905.

Many Caves

A survey of the Modoc lava beds national monument in northern California disclosed more than 224 caves measuring from 10 to 100 feet in diameter.

—Dr. W. T. White of Edinborough st. is suffering from three broken ribs and other minor injuries as a result of an auto collision on a blind corner in Sudbury Monday morning.

—Robert Timble, son of Prof. and Mrs. W. H. Timble of Highland st. is home from a vacation at Ellabehn, Tenn., where he is a designing engineer for the North American Radio Corp.

—Mrs. Josephine Chamberlain, formerly of Harvard st., is visiting her son and daughter-in-law, Mr. and Mrs. Cheddo Chamberlain. She has recently been visiting her daughter and son-in-law, Rev. and Mrs. W. Henry Shillington of Plainville and is leaving this week-end to visit another daughter and son-in-law, Rev. and Mrs. Wendell J. Clark of Bethel, Conn.

"Shepherd of the Home,"

Name Earned by Collie

"The little shepherd of the home," is the name frequently given the attractive and gentle collie. It has well earned it, asserts Albert Stoll, Jr., in the Detroit News, for it is among the most affectionate and considerate of all canine friends, jealously guarding the lives and property of those it has learned to love.

The blood lines of the collie are ancient, dating back to man's first association with the breed. But during the past century two distinct types have been developed, the smooth-coated and the rough-coated. The latter undoubtedly is the more popular while the former is a distinct show breed.

While no standards have been set for coloring the most fancied are black and tan, pure white and sable and white. It is essentially a working dog and in no sense can be placed in any other class. In weight it approximates 60 pounds and stands about 23 inches high at the shoulder.

The collie, like other dogs of more than medium size and abundant energy, must have plenty of exercise and confinement is quite likely to bring on illness. It should be given frequent runs and left to frolic with the children as it will. The well-bred collie should cause no concern among parents as to its dependability with children. It is a natural guardian and trustworthy.

Women's Rights in China

Women in China never wore the queue. When the Manchus ordered the Chinese to wear this badge of subjugation the women refused to comply.

Waban

—Miss Helen Walker is at Squirrel Island for a few weeks.

—Mrs. Harry Caine is visiting her father in Bennington, N. Y.

—Mrs. A. P. Newman of Upland rd. is visiting in South Dartmouth.

—Mrs. Robert Buchard is spending the summer at Watch Hill, R. I.

—Union church services of the First Methodist Episcopal Church and Second Baptist Church will be held at the Baptist Church during the month of August. Rev. James F. Whitman, pastor of the church, will be the speaker.

Hypnotism, Once Ignored,

Later Officially O. K'd

It is interesting to speculate on what might have happened if the invention of chloroform had been delayed by another twenty years or so, observes Aldous Huxley in *Forum and Century Magazine*. There can be little doubt that doctors would have carried out intensive research into the possibilities of hypnosis; and a rapid and infallible technique of psychological anesthesia would probably have been developed.

In the process of perfecting this technique much valuable information about the nature of the mind and its relation to the body would certainly have been made available—information which, for lack of sufficient practical motive for research, either was not unearthed till much later or still remains to be discovered.

After 1848 hypnotism sank into disrepute, and it was not till 1892, just fifty-one years after Braid had done his classical work on the subject, that the British Medical association at last officially admitted its existence and permitted its use.

Declares Moths Dance

"Moths often dance," declared an entomologist in Scotland.

Soap Box Derby Won By Newton Highlands Boy

Maurice Reidy, Jr., 16, of 45 Chester st., Newton Highlands, won first prize in the "Soap Box Derby" conducted under the auspices of the Boston Traveler at Columbus Circle, South Boston, last Saturday. Young Reidy, who is a student at Newton High School will get a trip to Akron, Ohio, to compete in the national "soap box derby" which has as the first prize a \$2000 scholarship in some college to be selected by the winner. Reidy also won a travelling bag presented by the V. F. W. and a suit of clothes presented by a Boston firm. Other Newton boys who won trial heats in the contest last Saturday were—Earl Carmel, Falmouth rd., West Newton; Ralph Caruso, Alden Place, West Newton; Charles Dean, Page rd., Newtonville; Edward Haigh, Roland st., Newton Highlands; Howard Stiles, Maple park, Newton Centre.

Newton Highlands

—The Floyd family of Oakdale rd. are at Laconia, N. H.

Tisdell, an informal gathering of the University of Missouri Alumni Association of New England will be held at 8 o'clock Monday evening, August 5, at the home of their nephew and his wife, Mr. and Mrs. William L. Tisdell, 6 Rowe st., Auburndale. Mrs. Florence Whittier Tisdell is secretary of the group.

Teeth Tell Home State

Human teeth are a pretty good geographical index. If a person has large, broad teeth, hard as flint, he is almost certain to be a Texan. Pennsylvanians also have tough teeth, while persons reared in the Puget Sound region and in the Michigan goiter district are likely to have soft ones. These are conclusions of relief clinic dentists, according to the *Forecast*. Limestone is responsible for the good dental condition of Texans and Pennsylvanians.

Lord Byron's Epitaph to Dog

Lord Byron's Newfoundland dog, which contracted rabies, is buried in the ruins of the old church at Newstead abbey, the pedestal marking the grave bearing the following inscription: "Near this spot are deposited the remains of one who possessed beauty without vanity, strength without insolence, courage without ferocity, and all the virtues of man without his vices."

—Mrs. Harold D. Corey of Farlow rd. has spent a portion of the summer on Long Island and will visit Nantucket for a few weeks.

—The Misses Margaret and Mildred King of George st. are spending their vacation at Evangeline Beach, Grand Pre, Nova Scotia.

—Miss Vyriling Rawson, of Marlboro st. while at Camp Wind in the Pines, Plymouth, passed the Senior Life Saving test of the American Red Cross.

—Stanley, son of Mr. and Mrs. Marcus W. Meyers of Hibbard rd. is away for the summer at The Windsor Mountain Camp, Hillsboro, New Hampshire.

—Miss Marion Craig of The Hollis is visiting relatives in Scotland. She is accompanied by her parents, Mr. and Mrs. William Craig of Exeter, New Hampshire.

Box 248, California street at Alliston st., Nonantum, was pulled at 9.45 last night. Several pieces of apparatus were a needless run in response to this false alarm.

—Miss Loraine Cotting of Newton served as one of the bridesmaids at the Greeley-Kimball wedding, which was solemnized in Lexington on Saturday afternoon, July 27th.

—Mr. and Mrs. John T. Burns of Cook st. and Mr. and Mrs. Andrew C. Dunne of Pearl st. have returned from a delightful auto trip through Vermont and New York State.

—Gordon Kee, and Allan Kee of 73 Arlington st., Robert Wilson of 99 Arlington st., and Harry Ramsey of Nantum st. have gone to Camp Belknap, Wolfeboro, N. H., for the summer.

—Mr. and Mrs. William R. Ferry of 287A Washington st. have been spending the last half of July visiting relatives in Monroe and Winterport, Me., they will return to Newton August 1st.

—Miss Virginia Weston of Blackstone rd. came up from Martha's Vineyard last week to join the Girl Scouts' cruise on the "Yankee," which left Gloucester, Saturday, and is cruising for a week off the coast of Maine.

—The Union service at Eliot Church last Thursday evening was led by Edward Arch of 111 Playstead rd., Newton. There was special music arranged for by Edward and Charles Bacon. These services from week to week are fairly well attended, helpful and interesting. All are invited to attend next Thursday at 7:45 p. m.

Newton Girls at Sargent Camp

Among the 120 campers, from 12 states in the east and south, who are attending Boston University's Sargent Summer Camps on Half Moon Lake, are several girls from Newton, according to an announcement made recently by Ernst Hermann, dean of Boston University's Sargent College of Physical Education for girls, and director of the summer camps. Other campers are present from Arkansas, Connecticut, District of Columbia, Maine, New Jersey, New Hampshire, New York, North Carolina, Pennsylvania, Rhode Island, Virginia, and Massachusetts. The Newton girls are Clare Reid, 36 Hyde avenue, Virginia Rowland, 166 Oakleigh road, Newton, and Barbara Wilcox of 72 Bonad road, West Newton.

The camp, which lasts for an eight-week period during July and August, is in three divisions: Junior, intermediate, and senior, and occupies approximately 300 acres in the heart of the New Hampshire hills.

Egyptians Foresaw Life on Earth to Hereafter

How the ancient Egyptians visualized the projection of the normal activities of life on earth to the hereafter is illustrated in a collection of wooden model groups of people and equipment, buried in graves of the old kingdom (2500 B. C.) and the middle kingdom (2000 B. C.), on exhibition in the hall of Egyptian archeology at Field Museum of Natural History.

Starting in the old kingdom time with single figures of the dead themselves, their children, and their household servants, which it was believed would serve in another world as substitute bodies if the original mummies should perish, there developed during the middle kingdom a custom of placing in the tombs elaborate groups representing in part people at their household duties and partly the ceremonies conducted for the benefit of the dead. As food was fundamental, figures representing the making of bread and beer, and showing ovens and baskets of food, were prominent.

Miles of Mounds

That the Mound Builders showed considerable partiality to Ohio as a residential region is evidenced by the more than 12,000 places within the limits of the state where these early inhabitants left testimonials. It has been estimated that their early productions, if placed side by side in a continuous line, would exceed more than 300 miles. Moreover, it is estimated that the productions of the Mound Builders contain at least 30,000,000 cubic yards of earth or stone and that it would require 1,000 laborers, each one working 300 days in the year, a century to complete these earthen edifices, or it would take 300,000 laborers one year to accomplish the same result.—Cleveland Plain Dealer.

No Individualism

Education in ancient Sparta was the lifelong education of the individual to be merely an obedient cog in the machine; similar to the Nazi, Communist and Fascist movements.

Cave Man First to Use "Door" to Entrance Way

The hairy, low-browed cave man rolled a stone to the mouth of his cave to protect himself and his family from prowling animals. That was his door, and probably the first door, writes Marie George in the Indianapolis News. When his mate with a few "ugh-ughs" expressed a feeling of discontent, a feeling that could not be allayed by re-arranging the furniture every week or so, he rubbed his re-treating forehead in thought and shoved a brighter stone up to the entrance.

Later, when man built his home in the trees, the better to survive in a land overrun with dinosaurs or whatever overrun the land in those days, he very likely got cold and tired of acting as a windbreak for his family. In a rebellious mood, he climbed down, slew a beast and hung its skin up over his rat-hole of a doorway.

Undoubtedly skins were in use for a long time, being far more serviceable than woven stuffs introduced at a much later period. Even in feudal times, when the door had grown formidable in size and strength, the inner doorways were closed by means of heavy hangings.

The antique door revolved, being pivoted in the center. The doors of the Middle Ages usually were of solid oak planking, set edge to edge and held together by wrought iron bands and sturdy, ornamental strap hinges. The doors of older castles were narrow, so as to permit the passage of only one person at a time. The occupants thus had a decided advantage in times of attacks.

Paint Brings Color to Lives of the Choctaws

The Choctaw of northern Manitoba never laughs and rarely talks. To the casual observer he is an insensitive, unobservant human. Yet, observes a writer in the Washington Post, there is no sound in his vast wilderness he doesn't hear. The drumming of the partridge or songs of the lark by day; the howl of the wolf or the scream of the big cat by night—all carry their message to the Choctaw who is bearing provisions to his family. It's a three or four-day pack overland and he is not to be diverted.

"Strange," says a Royal Canadian policeman, "but in the packs of most of those fellows you will find a quart or half-gallon of paint, usually of a vivid hue. Heavy stuff, but they will pack it, leaving out the more essential articles."

Understandable. It means color in the otherwise colorless lives of our more northern housewives. They know nothing of the value of paint as a preservative of materials, lodge poles, sleds or whatever the Northland offers. They demand paint because of the color, smell of cleanliness and the tang of healthfulness it carries.

International Date Line

The international date line is for most of its length identical with the 180th meridian, and it crosses the equator at right angles. For convenience, however, and to divide communities as little as possible, it has been arbitrarily fixed some distance either side of the 180th meridian in several places, just as we have adjusted the boundaries of our standard time belts. Thus the date line passes through the Bering strait so that the eastern extremity of Siberia will keep the same day as the rest of the country. In Bering sea it swings ten degrees west of the true line so that the Aleutian islands may have the same time as the Alaskan mainland. In the South Pacific the date line deviates to the east to avoid a division of Fiji and some of the island dependencies of New Zealand.—Cleveland Plain Dealer.

Trombone Important Instrument

The trombone is a most important instrument in picturing heroic emotions, as its tones in orchestral work may be made grand and noble. It may portray almost every broad emotion, from sacred calm to the wildest strains of martial glory. It also has a threatening quality, and its sombre tones are excellent for tragic effects. Mendelssohn admired the trombone very much, reserving it for the most solemn occasions. Schubert obtained good effects by using soft trombone tones against the strings. With the use of the slide the trombone can get down to the lowest E on pianos; and this tonal growth is found in Wagner's opera "Siegfried."

Round Towers of Ireland

The Round Towers in Ireland are of stone, usually from 13 to 20 feet in external diameter at base and ranging from 60 to 100 feet in height. One may be described as follows: The top is conical, the interior is divided into six or seven stories reached by ladders from one to the other. Each story is lighted by one window, the top story usually has four. The door is placed ten or more feet from the ground and is reached by a ladder. The doors and windows have sloping jambs.

Weight of Grizzlies

For wild grizzlies 1,000 pounds is about the maximum weight. The Okanagan cattle killer weighed over 1,100 pounds, the greatest weight ever recorded for a wild grizzly. At Union park, Chicago, Ill., a grizzly lived for 18 years which grew so fat he could hardly stand towards the end of his life. His actual weight was 1,153 pounds, although before he was weighed he was credited with twice that weight.

Spreading Safe Driving Message

Recognizing that traffic safety is directly dependent upon the man behind the wheel, the automotive industry this summer is devoting special attention to spreading the message of safe driving. How one large motor car manufacturer, the Hudson Motor Car Company, is co-operating for greater safety, was explained today when Myrton F. Evans of the Newton Hudson-Terraplane Company announced that throughout August free safety inspection would be given to all cars brought into his service station at 210 Washington street, Newton, and a free safety ride demonstration given by especially trained drivers.

"With traffic becoming increasingly heavy, it is now generally recognized that safety on the highways is largely the responsibility of those who are driving the cars," said Mr. Evans. "The automotive industry can protect the American motorist from the effects of faulty driving and has done so, and it is now up to the driver himself, to do his part."

"All-steel bodies, safety glass, brakes that grip evenly and firmly at all times and powerful motors that permit flexibility and ease in handling, save the motorist in case of accident. Now, we want to emphasize to the driving public the really vital element in safety—the co-ordination of brain and machine."

"There are many features about a car that might be better understood by the driving public. They are well-known to engineers, and they can be explained in such simple terms to the layman that he can quickly grasp them. That is the reason for the safety ride demonstration that is part of our August safety campaign."

"For example, brake study is an angle upon which certain engineers devote their entire attention. Yet how many drivers know the best manner of applying these brakes, how to get the best advantage. This and many other angles of safe driving will be explained by specially-trained drivers through the safety ride demonstration."

Charged With Beating Son

Edward DeLorenzo of 24 Pearl st., Newton, was arraigned in the Newton court on Saturday charged with assaulting his 14 year old son, Albert. The boy testified that he had run away from home the preceding week and that when he returned for clothes last Friday his father beat him. DeLorenzo told the judge that his housekeeper had caused trouble between his children and himself. Judge Bacon continued the case until August 3 to give DeLorenzo an opportunity to straighten out his family troubles.

Newton Highlands Man Shoots Self

Herman J. Marks, 46, of 1342 Walnut street, Newton Highlands committed suicide by shooting himself in the head at his home on Monday. He had been engaged in the advertising business and had resided in this city for three years. He was a native of Lykens, Pennsylvania. He was unmarried and is survived by his mother, Mrs. Amanda Marks.

REGINALD GUILLE

Reginald Guille of 325 Highland avenue, West Newton died suddenly of a heart attack while motoring through Carlisle on Sunday. He was born in New Jersey 47 years ago and had been engaged in the fire insurance business in Boston since 1922 as State agent for Eastern Massachusetts for the National Liberty and Baltimore American companies. He was a member of the Boston Board of Fire Underwriters, New England Insurance Exchange, a director of the Mass. Plate Glass Insurance Company. During the World War he served overseas. He is survived by his widow, Mrs. Charlotte (Brinton) Guille; two daughters, Gloria and Gwendolyn Guille; and a brother, Hubert Guille of New York. His funeral service was held on Wednesday at Newton Cemetery chapel.

MARY M. DAVIS

Mrs. Mary M. (Carrigan) Davis of 125 Bridge street, Nonantum died on July 31. She was born in Cavan, Ireland 49 years ago and had resided in this city for 25 years. She was a member of Middlesex Court, M. C. O. F. Mrs. Davis is survived by her husband, James Davis. Her funeral service will be held Saturday morning at Our Lady's Church. Burial will be in Calvary Cemetery, Waltham.

WHITMAN; on July 31 at Brookline; Mrs. Emma (Stevens) Whitman formerly of Newton; age 83 years.
DAVIS; on July 31 at 125 Bridge st., Nonantum; Mrs. Mary M. Davis; age 49 years.

Are YOU a Safe Driver?

Ask yourself these questions:

- 1 Which requires greater caution, a curve to the right or a curve to the left—and why?
- 2 How should you steer your car in turning a corner for greatest safety to yourself and others?
- 3 In going up a steep, slippery hill, when should you shift gears?
- 4 When is it safe to pass another car on a hill?
- 5 How quickly should you be able to STOP in an emergency?

Recent Deaths

JOSEPH J. BEATTY

Joseph J. Beatty of 46 Washington park, Newtonville, died on July 28 at Exeter, New Hampshire, following an emergency operation for appendicitis. He was stricken while at his summer home in West Epping, New Hampshire. Mr. Beatty was born in Philadelphia 45 years ago and had resided in Newtonville for 37 years. He attended Amherst College with the class of 1914 and for many years he had been office manager of the law firm of Tyler, Eames, Wright & Reynolds, Court street, Boston. He was a member of Dalhousie Lodge of Masons and Gethsemane Commandery Knights Templar.

His funeral service was held on Wednesday afternoon at Mount Auburn Crematory chapel; Rev. L. W. Emig officiated. Interment was in Newton Cemetery. He is survived by his widow, Mrs. Eleanor (Fountain) Beatty; and three sons, Joseph R. Beatty L., and David C. Beatty.

WILLARD B. CURRIER

Willard B. Currier of 169 Washington street, Newton, died on July 31. He was born at Upper Gagetown, New Brunswick 70 years ago and had resided in Newton for nearly 50 years. He was a descendant of Richard Currier, an early settler of Amesbury, Massachusetts. The family remained loyal to Great Britain and in 1789 migrated to New Brunswick with other loyalists. He is survived by two sisters, Mrs. Cecelia Morse of Los Angeles and Mrs. T. W. Wyman of Medford; two brothers, Oscar Currier of Minneapolis and Eugene Currier of Pittsburgh; and a cousin, Wesley Currier of Newton. He was a carpenter by occupation. His wife, the late Cora (Lane) Currier died two years ago. His funeral service was held yesterday at his late home; Rev. L. W. Emig officiated. The burial will be at Upper Gagetown.

He was a member of Local Carpenter's Union No. 275.

EMMA L. WHITMAN

Mrs. Emma L. Whitman, widow of Joseph E. Whitman, died on July 31 at Brookline. She was born in Newton 83 years ago, the daughter of Mr. and Mrs. Merrick W. Stevens who resided on Church street near where Maple avenue is now located. In late years she had made her home at the Hotel Bellevue, Boston. She was for many years a member of Eliot Church. She is survived by a nephew, George S. Webster of Sharon. Her funeral service will be held this afternoon at Newton Cemetery chapel; Rev. Laurens MacLure will officiate.

PARKER SCHOFIELD

Parker F. Schofield, 41, of Pittsburgh, Pennsylvania, died on July 31 at Erie, Pennsylvania following an attack of spinal meningitis. He was born in Newtonville, the son of Lane B. and Jennie (McNair) Schofield. As a boy he resided near the Albemarle Golf Club links and he became an outstanding golfer. He was runner up to Fred Wright, Jr. in the State championship in 1920. He is survived by his widow, Mrs. Vera (McKeen) Schofield; three brothers, Albert of Malden, William and Lane of Akron, Ohio; and a sister, Mrs. Myra Magnussen of New York. His funeral service will be held this afternoon at 3 at Newton Cemetery chapel.

MRS. AGNES T. KNOX

Mrs. Agnes T. Knox of 29 Agawam rd., Waban, died on July 27 at the Holy Ghost Hospital, Cambridge, after a long illness. She had been a resident of Waban for many years and was formerly in charge of the millinery department of R. H. Stearns Company. Her funeral service was held on Monday morning at the Holy Ghost Hospital chapel and interment was in Mount Auburn Cemetery. Mrs. Knox is survived by her husband, Joseph S. Knox; three sisters, Mrs. William L. Wood, Mrs. William A. May and Mrs. Arthur Monahan of Wellesley; and two brothers, Edward A. and Joseph P. Tulis.

WILLIAM J. RONEY

William J. Roney of 160 Washington st., Newton, died at St. Elizabeth's Hospital on July 26 following a long illness. He was born at North Salem, New York 50 years ago and had resided in this city for 8 years. He had been New England representative for P. Lorillard Company, tobacco manufacturers. He was a member of Newton Lodge of Elks. He is survived by his widow, Mrs. Marie (Pinnegan) Roney; a son, John W. Roney; his mother, Mrs. Mary Roney of Purdie, New York; and a brother, Daniel Roney of Port Chester, New York. His funeral service was held on Monday at Our Lady's Church; burial was at Philadelphia.

THE NEWTON GRAPHIC

Vol. LXIII—No. 49

THE NEWTON GRAPHIC (Newton, Mass.) FRIDAY, AUG. 9, 1935

Eight Pages

Single Copy 5c; \$2.50 per Year

Newton Eighth City In Traffic Survey Report

The report of the traffic survey, made several months ago in Newton under ERA auspices, shows that of eighteen cities in the State with populations ranging between 45,000 and 115,000, Newton had the 8th most favorable record as regarded automobile accidents during 1934. Pittsfield had the best record with accident units of 15 per thousand population; Lowell came next with 25 accident units per 1000 of population; Fall River, 26; New Bedford, 27; Lawrence, 28; Holyoke, 29; Haverhill, 30; Newton, 31; Lynn, 34; Brockton, 36; Quincy, 37; Medford, 40; Somerville, 40; Everett, 46; Chelsea, 48; Malden, 48; Brookline, 49; Cambridge, 58.

The eight most dangerous street intersections in the city in order are: Commonwealth and Washington st.; Commonwealth and Walnut st.; Beacon and Hammond sts.; Beacon and Walnut sts.; Washington and Centre sts.; Washington, Watertown and Waltham sts.; Commonwealth and Centre st. The claim that these intersections are the most dangerous is based on a study made in connection with the survey which showed the average number of accidents at these locations during the years 1930-1934, inclusive. The intersections of Commonwealth and Washington and Walnut sts. have unobstructed views and a large percentage of the accidents at these places have been caused by motorists speeding to beat the red light when the signal turned from green to yellow, ignoring the red light, or making left turns. The intersection at Beacon and Walnut sts. also has unobstructed views; there is no traffic light there, and accidents are caused by one or both drivers involved trying to beat the other across the intersection. The report states that:

"Signals are not the cure for accidents at every congested location or every crossing where accidents occur. Unless careful study of a location is made and the results of this study justify the installation of signals, more, rather than fewer, accidents may result. One large city installed 190 traffic signals and at 34% of the installations accident totals actually increased. At 12% of the intersections accident frequency remained the same, and at 54% accident occurrence was reduced. Similar (Continued on page 4)

Lasell Jr. College Makes Appeal For Tax Exemption

Lasell Junior College of Auburndale has taken an appeal to the State Board of Tax Appeals from the action of the Newton Board of Assessors in taxing properties valued at \$133,550 and owned by the college. These properties include the former Woodland Park Hotel on Washington street, assessed for \$75,500; three houses and adjoining land on Woodland road and Berkeley place assessed for \$17,500, \$8500 and \$7400; and various parcels of land. Two of the houses taxed are occupied as dwellings by Guy M. Winslow, principal of Lasell and Walter A. Amesbury, treasurer. The former hotel building had been used as a dormitory and school for younger girls, but was vacant for a couple of years.

The appeal is taken on the ground that the income of Lasell is used for educational purposes and that the houses occupied by the officials of the college are not owned by the individuals residing in them, but are the property of Lasell, and that the use of these buildings is part of the compensation received by the principal and treasurer. In past years other properties owned by Lasell and exempted from taxation, had a total assessed valuation of \$1,389,500.

Fire In Truck Burns Garage

A fire which started in a truck in a wood and concrete garage at 979 Chestnut st., Newton Upper Falls, last Friday night caused about \$600 damage to the truck and garage. The blaze threatened an adjoining house occupied by Mrs. Margaret Mazzone. The garage is owned by Antonio Benetti of East Boston.

Cars Crash At Newton Hlds.

Cars driven by Avanti Rossi of Highland avenue, Needham and Guy Seaborn of West Roxbury collided at Walnut and Centre streets, Newton Highlands on Sunday. Lillian Seaborn claimed to have received an injured arm, and Carlos Navarro of Lynn, who was riding with Rossi, received a cut on his nose.

End Local Control Of WPA Projects

The supplanting of the ERA by the Federal government has brought about the end of local administration in cities and towns. States have been divided into districts. Massachusetts has been divided into six districts and Newton is included in a district which is composed of Middlesex and Norfolk counties together with Chelsea, Revere and Winthrop of Suffolk County. The director of this district is Byrle J. Osborn of Brookline. Harold Young who has served as local administrator of ERA in Newton since November, 1933 will officiate as the city's representative in WPA projects in Newton. He will serve in a liaison capacity between this city and the WPA district officials. Alterations were being made at the old Adams School building on Watertown street, Newtonville to permit its use as WPA headquarters for Newton when the information was received concerning the termination of local WPA administration and the substitution of State districts.

WPA allotments of money will be assigned to State districts, but allocations will be made to the various projects which are approved for cities and towns. It is expected that projects will be planned which will provide employment until July 1st of next year. Workers on WPA projects will be employed 22 six hour days each month instead of 8 eight hour days each week as they were under ERA. The compensation to be paid on WPA projects is based on the following schedule—unskilled labor, \$55 per month; intermediate or semi-skilled workers (including clerks, timekeepers, mechanics' helpers, etc.) \$65 per month; skilled workers, \$85 per month; "white collar" workers, \$94 per month; supervisors of projects, \$110, \$130 and \$150 per month.

Six hundred persons have been engaged on ERA projects in Newton and this number is now on the WPA lists—534 men and 66 women. No new registrations are being received from applicants for relief, and only those whose applications were received and whose names were on the lists prior to May 30th will receive consideration when any vacancies occur due to present WPA workers obtaining employment through private sources. Other persons applying for relief must depend on the Newton Welfare Department. The average monthly allocation for Newton has been \$36,000. Miss Ethel Miller of Cambridge, who has been the ERA agent at Newton since January 1st will probably terminate her duties in this city on September 1.

8 Injured When Autos Collide at Beacon-Walnut Sts.

Two automobiles collided with terrific force Sunday morning at 11:15 at the wide-open intersection of Beacon and Walnut streets, Newton Centre. Despite the fact that unobstructed views are afforded to motorists approaching this intersection from all directions, many collisions have occurred there. The cars were driven by Nathan Gelman, 23, of Peabody street, Weston. Fourteen persons were in the two cars and eight of these received injuries; two serious injuries. Mrs. Josephine Miele of 58 Francis street, Waltham received a possible fracture of the pelvis; Mrs. Anna Gelman of Peabody street, Weston received a severe head injury. The injured were taken to the Newton Hospital in the police ambulance and police cruising cars. Gelman's automobile caught fire and was badly burned when someone threw a match into a pool of gasoline which had leaked from the tank on the car when it tipped over. When the gasoline blazed up Mrs. May Lockett of Saugus, who was standing nearby, fainted and fell, injuring her left arm.

Both drivers endeavored to place the blame on each other. Gelman claimed his car had been brought to a stop on Beacon street, before entering the intersection and was only traveling about 7 miles an hour when hit by Miele's car which was proceeding southerly along Walnut street. Miele reported to the police that his car was going slowly and that Gelman's car, traveling at a 40 mile speed, crashed into it. The police are going to summon both drivers into the Newton court on charges of reckless driving. Witnesses who saw the collision will be summoned to testify.

Newton Business Men Hold Outing

The annual outing of the Newton Business Men was held at Lake Pearl, Wrentham, on Wednesday afternoon. About 100 attended. Attorney James P. Atkins was in charge of the affair, assisted by Fred Moore as treasurer of the committee, and John Lawler, secretary. Upon arrival at the park a baseball game was enjoyed by two teams informally selected. The game concluded after half a dozen baseballs had been knocked into a nearby woods and lost. A program of athletic games was conducted under the supervision of Jack Janse. The results were: 100-yard dash—Geegan, 1st; DeLoft, 2nd; 3-legged race—Flynn and McLean, 1st; Fisher and Morelli, 2nd; fat men's race—Pahey, 1st; Weldon, 2nd; backwards race—Valente, 1st; Leon, 2nd; shoe race—Leon 1st; Fisher, 2nd; human wheelbarrow race—Mazzola and DeLoft, 1st; Valente and Coletti, 2nd; tug-of-war—won by Hugh Boyd's team with Weldon starting at anchor. The horseshoe throwing contest was won by John Finelli.

Following the dinner, which was served at 6:30, Chairman Atkins presented James P. Gallagher as toastmaster. Short speeches were made by Hon. Edwin O. Childs, Thomas White, Aldermen Barwise, Atkins and Guzzi, Harold Moore, Phillip W. Carter, Edward H. Powers and Rupert Thompson. The choral singing was led by Attorney Thomas Ryan.

Smillie Heads Board of Health

Dr. Wilson G. Smillie of Wamesett road, Waban has been appointed Chairman of the Newton Board of Health by Mayor Weeks. He has been a member of the Board of Health for several years and succeeded as Chairman Dr. Francis G. Curtis who recently was retired after about 40 years service. Most of the duties performed by Dr. Curtis as head of the Health Department have been assumed by Dr. Harold Choje who fills the newly created position of Health Officer. J. Earle Parker of Metacommet road, Waban, has been appointed the third member of the Board of Health.

Letter Regarding Sites For Oak Hill School Being Sent to Residents

Secretary H. S. C. Cummings of the Oak Hill Improvement Association Discusses Subject

At the meeting of the Newton Board of Aldermen next Monday evening further consideration will be given to the proposals for the city to take land for school purposes in the Oak Hill section. Mr. Henry S. C. Cummings, who is secretary of the Oak Hill Improvement Association, has taken an active interest in the question. Mr. Cummings has prepared the following letter regarding the various sites under consideration which is being sent to members of the Board of Aldermen and to residents of the Oak Hill district.

"The meeting of the Board of Aldermen on Monday evening, Aug. 12th, concerns itself with the proposal that the City take land on property located on Dedham street adjoining the Charles River Country Club known as 'Hyaere Farm' and owned at one time by Timothy W. Murphy now of Jamaica Plain. The property consists of 30 acres of land on which is a home and barn and the assessed value is supposed to be around \$30,000.

"At the hearing several weeks ago the Oak Hill District appeared before the Aldermen and made a very spontaneous and genuine appeal that the City recognize the need of providing adequate school and playground facilities for the children residing in this section of the city and I believe most of you fully appreciate the problem of safety, transportation and urgent immediate need for a Grade School for the three hundred or more children in the District who might use such a school.

"There has been difference of opinion however concerning the most desirable placing of this school so as to most fully develop the community from the point of view of the city's interest as well as the residents of the district. Were it not for the far-seeing vision of Arnold Hartmann in developing the Oak Hill Village it is doubtful if we would be here tonight arguing on this subject. The district has developed attractively, wisely and progressively. No lovelier home site has been found than exists within the Oak Hill District, which is a tribute we gladly make to the developers of these several properties.

"A 'Planned Community' has been the dream of its founders for years—a dream of lovely substantial homes—surrounded by trees and gardens, by brooks and winding roads. An area inviting to all for its natural appeal, its wholesome provisions for recreational activities, golf, riding, archery, swimming, and walking, etc. Its freedom from congestion and a feeling of relaxation and beauty within the reach of all the residents and their respective families.

"In the last dozen years the growth has been persistent and emphatic. The community has attracted the type of residents who have built lovely homes and have helped this dream to become a reality. There still remains a lot of beautiful property for a continuation of this pleasing sort of development and yet it will not always be possible to acquire suitable land for distinctly recreational and school purposes as exists in the district now and which therefore should be fully weighed, argued and studied with a pioneering thought-producing vision so that our actions today will lead to pride and satisfaction in retrospect in the years to come.

"The Oak Hill District Improvement Association believes that it has an obligation to you to place before you the facts at their disposal relating to the several sites under consideration. It recognizes that the selection of a site is naturally a controversial one, as benefits accrue to one or another—favorably or otherwise—by the way the matter is finally settled. It has steadfastly argued that the imperative need is a SCHOOL and has attempted to avoid being involved in the problem of its exact location providing the school site is centrally and conveniently located and that adequate facilities be provided for playground purposes for the children. We are therefore going to try to bring out the outstanding advantages and arguments that may help you in determining which of the three sites should be considered and you will appreciate that this neutral attitude is in fairness to our membership which includes partial interests for these different sites.

The Original Site is properly located in the area back of Country Club rd. extending toward Greenwood street and Dudley rd. northwest toward the Turnpike running parallel to Parker st. It is supposed to contain about forty acres, which includes ample flat land for recreational development—a woody section and a knoll on which is projected a school site. The property is in a generally low area which would require drainage operations but experts believe the problem is no more impossible nor expensive than a half dozen other playground drainage operations in the Newton already successfully completed. The tract of land will need road development as well as drainage attention but the belief is definite that the cost would not be unreasonable and because of Governmental assistance as to labor costs the opportunity is ripe for initiating land improvement, designed to eliminate to a considerable extent the mosquito nuisance, which harasses the community, as well as preparing the (Continued on Page 4)

THE WEEK IN NEWTON SPORTS

By JACK MORRIS

ELENA CICCONE STARS IN NO. SHORE TOURNAMENTS

Elena Ciccone of Newton Center has been the final round of two north shore tennis tournaments, and so has Ruth Aseltine of Winchester. In the Eastern Yacht Club invitation tournament at Marblehead Neck, Elena got to the finals with the loss of only four games in twenty-eight, defeating Mrs. Foye 6-0, 6-2 in the second round and Mrs. Porter 6-1, 6-1 in the third.

In the North Shore junior tournament at the Tedesco Country Club courts in Swampscott, Elena defeated Marie Carey 6-2, 6-3 in the first round, and yesterday conquered Emily Wallace 6-2, 6-2 to enter the final. The Winchester girl whom Elena faces in the final this morning holds no terrors for the Newton veteran, who has had little trouble with her in practice matches. But win or lose, Ruth Aseltine and Elena are playing together in the girls' doubles at Tedesco, and have entered the semi-final by a 6-1, 6-2 defeat of Ruth Carter and Nancy Richards. At Marblehead, Elena's partner in doubles will be Polly Winslow, while Willard Babcock, a fellow townsman, will be her other half in the mixed doubles at Tedesco. The Marblehead tournament sponsors no mixed doubles.

Babcock Winning at Tedesco
Gordon G. Kitchin of Newtonville, another Newtonian in the Eastern Yacht Club's invitation tournament, defeated Dave Niles by 7-5, 6-2 in the second round of the men's singles, then lost in the quarter-final to Norman Dalrymple in a hot three-set match, 6-4, 4-6, 6-4. Paired with L. Chase Kepner of Newtonville Gordon got to the quarter-finals in the men's doubles, after defeating the team of Jones and Jones by 6-2, 6-1 on the way up.

Willard Babcock of Newton Center, who won last year at Tedesco, is well on his way to the finals again. He took George Wilson 6-1, 6-3 in the first round, Minot Chandler of Newton Center by 9-7, 6-0 in the second, and Richard Eckman of Roxbury in the quarter-finals 6-2, 6-0, also in straight sets. He is paired with Paul Cole in the doubles, and these two yesterday defeated Eckman and Paul Paden 6-2, 6-0 to gain the finals.

Donald Manchester had the luck to meet a seeded player, Richard Johnston, in the first round of the boys' singles at Tedesco, but succumbed only after running his opponent into a third set. With Minot Chandler in the doubles, Manchester lost by 6-3, 6-1 to Schöninger and Kulik in a quarter-final played yesterday.

Tennis Notes

The Burr playground tennis juniors defeated the High School playground second team at the high school courts yesterday morning by 4-1. Ralph Wales won the No. 1 match for the high school playground, defeating Herbert Jackson 6-2, 2-6, 6-3. The four Burr points were scored as Ed Saunier defeated Robert Gaswell 6-2, 6-2, Joseph Daley defeated John Harber 7-5, 6-1, Wm. "Young Bullet" Byrne defeated Arthur Hall 6-3, 6-2, and Daley paired with Byrne to defeat Gaskell and Channing Hall in doubles.

The High School playground girls

FERGUSONS PROMINENT IN OUTBOARD REGATTA

Clinton Ferguson of Waban, who at seventeen is one of the country's leading outboard motorboat pilots, will drive his lightning-fast racing craft on the Charles River Basin course tomorrow and Sunday in the meet sponsored by the Central New England Regatta Association.

Ferguson won the national inter-scholastic outboard title at Lake Quinsigamond June 29 and 30, establishing three records, one of which was disallowed because the timer accidentally stopped his watch early. In Class A, Clinton set a new mark of 40.85 MPH over the five-mile course, then broke the Class C record with a timing of 46.49 MPH. The record which was disallowed was a new world record for the mile straightaway in Class A, which Ferguson covered at an average of 46.2 MPH in two heats.

At Lake Maranacook, Maine, last Saturday, Clinton took permanent possession of the \$500 Woolworth trophy cup by winning the Class C title for the third year. The trophy race was another easy victory for the Waban driver, who covered the two-mile course in 12 minutes, 41½ seconds, leading the field all the way. He also led both heats of the five-mile Class A competition with the total elapsed time of 8 minutes 27½ seconds.

Saturday's meet on the Charles will be run on a course one and two-thirds miles long, between the Harvard and Longfellow bridges, making three cuts necessary in each five-mile heat. Nautical experts from M. I. T. have supervised the laying out of the course, which is expected to prove much less choppy than in other years, due to the grading of the Boston shores of the basin. Stanley W. Ferguson of Waban, commodore of the Central New England Regatta Association, has announced that cash awards to professionals will total more than \$1000, while amateurs will receive prizes varying from radios to easy chairs.

MEL HEATH BREAKS BRAE BURN RECORD

Melville F. Heath, Jr., of West Newton, a former Harvard golf team captain, broke the course record at Brae Burn last Monday with a brilliant 69, four strokes under par. Emory Stratton held the old record for the difficult West Newton course with a 70.

Par, out: 4 4 4 5 5 3 4 3 4
Heath, out: 3 4 5 4 5 2 4 3 4
Par, in: 5 4 3 5 5 4 4 3 4-73
Heath, in: 5 4 2 5 5 3 4 3 4-69

Another Newton golfer, George O. Linberg of Lowell avenue, Newtonville, used only 69 strokes last Saturday at Weston Country Club, where par is 71. Linberg had a 36 on the outgoing nine holes and a 33, including four birdies, coming home. Newton Hyslop, Frank Ball and B. G. Plimpton were in the foursome with Linberg.

team won from Burr 3-6 on the Burr courts at the same time the boys were losing to Burr. Peggy Joyce and Marjorie Becker each won her singles match 6-2, and paired to win the doubles, also at 6-2.

City Tournament Progresses

Edward Strum had a three-set battle to subdue Hank Simon in a third round match played Sunday, winning 7-5, 2-6, 6-3 to enter the round of eight in the city singles championships. Bill Porter defeated Leo Geary 6-3, 6-3, but lost to the seeded Henry Jones in the third round by 6-0, 6-1 last night.

Second round, completed: M. S. Porter, Jr. d. Leo Geary 6-3, 6-3; Porter, Jr. d. R. McMullin 6-1, 6-1; Willard Babcock d. Kersam Chobanian 6-1, 6-2; Gordon Kitchin won by default from Wm. Watson; Mal Clarke d. Jack Higgins 6-0, 6-2; Gordon Naylor d. Robert Frye 6-1, 6-0; Robert deBourke d. Franklin Rich; 3-6, 7-5, 6-2; Harry Sylvester d. Johnson Quick (default.)

Third round: Edward Strum d. Hank Simon 7-5, 2-6, 6-3; Harry Sylvester d. Lincoln Merrill 7-5, 6-1; Don Martin d. Frank Wetherbee 6-1, 6-4; Henry Jones d. M. S. Porter, Jr. 6-0, 6-1.

FIRST ENCLOSED DOCKS AT LIVERPOOL

The first enclosed dock in the world was built at Liverpool to protect the valuable cargoes being loaded or discharged.

William Ewart Gladstone was born on Rodney st., Liverpool. The docks named for the great statesman constitute the largest system of the kind in the world.

MEASURING BRAKE EFFICIENCY OF TERRAPLANE ON SALT BEDS

At the conclusion of the Terraplane economy run in which better than 24-miles to the gallon were secured under A. A. observation at a speed of 28 miles an hour, and over 20-miles to the gallon at 50 miles an hour, a brake test was made at various speeds. A. A. officials found the Terraplane brakes to be

TWI-LEAGUE SEASON NEAR END—PLAY-OFF TEAMS NOT DECIDED

With but one more week of the regular Twilight season remaining, all three play-off positions are still unsettled. Catholic Club with a two game lead and only five games remaining to be played is the only team sure to be in the play-offs. City Club has seven games yet to play, three of these being with first division teams. The Aces have four more games and Scholastics and West Newton A. C. have five games remaining.

In order to make sure that the final championship series will start the week of August 25th, the following postponed and replay games between contending teams have been scheduled:

Monday, August 19th
City Club vs West Newton A. C. at Highlands.

Tuesday, August 20th
Newton Cubs vs Newton A. C. at Cabot.

Wednesday, August 21st
Catholic Club vs City Club at John W. Weeks (W. N.)

In case of rain these games are scheduled at the same grounds the following night.

The game between the Directors and the Twilight League All Stars was a success every way but financially a crowd of well over a thousand spectators contributing less than ten dollars toward the championship prizes.

The Directors with Bridge pitching held the All Stars to a single hit and one run for three innings. Pitcher Crowley took up the burden in the 4th and held the All Stars to four hits and a single run for the remainder of the game. In the meantime the Directors inspired by the daring base running of "Flash" Proctor and "Werber" Lawless scored seven runs and coasted to victory. Each of the above players had perfect batting averages and Lawless had two clean steals off second off catcher Lansed.

Schedule for Week Of August 12, 1935

Monday
Y. M. C. A. vs Newton Cubs at Cabot. Garden City Club vs Auburndale B. B. C. at Victory.

Tuesday
Catholic Club vs Y. M. C. A. at John W. Weeks (West Newton). Sacred Heart A. C. vs West Newton A. C. at Thompsonville.

Wednesday
Centre A. C. vs Garden City Club at Highlands. Newton Town Team vs Catholic Club at Victory.

Thursday
Auburndale B. B. C. vs Sacred Heart A. C. at Auburndale. West Newton A. C. vs Scholastics at John W. Weeks (West Newton). Newton City Club vs Newton Town Team at Highlands.

Friday
Newton A. C. vs City Club at Victory. Scholastics vs Auburndale B. B. C. at High School.

Standing Including August 7th

	W.	L.	P.C.

FRANCONIA TO PASS THE BIMINIS

Returning from her August 31 cruise to the West Indies and South America the Franconia will sail past the Biminis, well off the coast of Florida. It was here that an old woman told Ponce de Leon of the Fountain of Youth, which was then reputed to exist in Florida. The tradition probably originated from the story of a fresh water spring in the ocean near the Florida coast. A Spaniard who drank from this spring is said to have regained his youth.

CITY OF MEXICO, PRETTIEST SPOT IN THE WORLD

The traveler who knows the world is generally the one to regret that too few tourists visit the City of Mexico, declared by many to be the prettiest spot in the whole world. The casual reader thinks of this city as a place made uncomfortable by tropical heat; but the fact is that it lies so high in the mountains that blankets are required for comfortable sleeping throughout the nights of the entire summer.

In Court For Disturbing Peace At Upper Falls

Several young men were arraigned in the Newton court on Thursday morning charged with disturbing the peace in the vicinity of Echo Bridge, Newton Upper Falls and with having damaged property nearby. Serg. Chisholm and Patrolman Walsh of the Metropolitan police were the complainants. They testified that people residing near the bridge had made complaints regarding shouting and yelling until near midnight on various nights at the bridge, which is a viaduct carrying the Metropolitan aqueduct over the Charles River at Upper Falls village. The police also testified that several windows had been broken in the home of Walter Burns, 38 Eliot st., during his absence, and that life-saving equipment and benches had been thrown into the river. Those arraigned included: Michael Palumbo, 8 Eliot place; Robert Burke, 4 Meredith ave.; Thomas Lombardo, 8 Eliot st.; Eino Salimä, 330 Eliot st.; John Marulli, 678 Boylston st.; Michael Riselli, 136 Arlington st.; Watertown; Harold Daniels, 12 Parker st., Watertown. All were found guilty of disturbing the peace and their cases placed on file. Daniels was fined \$5 for driving an automobile without having a registration certificate in his possession.

REAL ESTATE

One of the most important sales in Newton this year is the recent transfer of the beautiful Georgian brick Colonial residence on 119 Farlow rd., Farlow Hill, Newton, which was sold by the Estate of Helen R. Thayer, represented by Lucius E. Thayer, execu-

tor, to the Misses C. G. B. N. and L. N. Soule of Newton, who have purchased for occupancy. The residence contains eleven rooms and four baths, with every modern appointment. There is a two-car heated garage. The grounds contain over 21,165 square feet, are beautifully laid out and the property is one of the most pretentious estates in the Farlow Hill section. The property is valued at \$55,000.

Burns and Sons also report the sale of the unusual duplex solid brick house at 9-11 Academy rd., Newton, with 11,500 square feet of land, which was sold by A. I. Dinner to Mr. D. Howe who purchases for home and investment. The property's total assessment is \$13,500.

NEWTON RENTALS

John T. Burns & Sons, Inc., report that they have rented the stucco single residence located at 599 Commonwealth ave., Newton Centre, to L. C. Pells of Providence, R. I. At Newton, they have rented to John McGuirk the lower apartment at 37 George st.

They have rented to Thomas Tredin the upper apartment in the two-family house at 83 Charlesbank rd., Newton. The upper apartment at 29 Lewis st. has been rented to K. M. Beal.

In Newton Centre, they have rented the upper apartment at 103 Ripley st. to Alfred A. Perault.

At Newtonville, 453 Albemarle rd., upper apartment, has been rented to W. F. Bancroft of Hartford, Conn.; and to George Goodell of New Jersey, they have rented the lower apartment at 84 Grove st. in the Lasell Seminary section of Auburndale.

What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are *milder*—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have *plenty of taste*?

Chesterfields taste *better*—not strong but just right.

In other words, They Satisfy—
that's my yardstick for a cigarette.

Chesterfield... the cigarette that's *MILDER*
Chesterfield... the cigarette that *TASTES BETTER*

Recent Weddings

PAGE—DALLEY

Miss Teresita Bartol Dalley, daughter of Mrs. Florence Bartol Dalley of Haverford, Pa., became the bride of Edward Page, Jr., son of Mr. and Mrs. Edward Page of Bigelow rd., West Newton, on Saturday afternoon at five o'clock in St. Anne's Church in Kennebunkport, Maine. The Rt. Rev. Frank Juhan, bishop of Florida, officiated at the ceremony. Mr. John Alden Register Dalley gave his sister in marriage.

The bride wore a white satin gown with a tulle veil and carried a bouquet of white orchids, gardenias, and lilies-of-the-valley. The maid of honor, Miss Leila Whitney Fosburgh of New York City and Berlin, N. Y., was gowned in yellow chiffon with white pleating starting at the neck and forming a train in the back, wore a white horsehair halo hat and carried gardenias, baby's breath and pale yellow gladioli. The bridesmaids, Mrs. John Morris of New York, a sister of the bridegroom; Miss Mary-law Starr of Haverford, Pa.; Miss Mignon Forderer of Bryn Mawr, Pa.; Miss Marie Brooke Heck of Brookville, L. I.; Miss Ann Jenks of Chestnut Hill, Pa.; Miss Mary Browne of Haverford, Pa.; Mrs. Gerhard Cox, Jr., of Beekman place, New York, and Miss Deborah Bradley of Philadelphia were similarly gowned in white chiffon with pale yellow pleating in the back.

The bride's mother, Mrs. Dalley, wore a pale blue flowered chiffon gown and a dark blue hat. Mr. J. Lawrence Pool of New York was the best man. The ushers were Daniel Simonds, 2d, of Boston; Bingham Morris of New York; Hugh Fenwick of Bernardsville, N. J.; Charles E. Bollen of Aiken, S. C., and Moscow, U. S. S. R.; Michael Malicheff of Dublin, N. H.; London C. Page of West Newton; Clarence Whitman of Kalonah, N. Y.; and Robert Pabst of Milwaukee, Wis.

Following the ceremony a reception was held at the Kennebunk River Club.

Mr. and Mrs. Page will make their home in Riga, Latvia, after a wedding trip through Europe.

Mrs. Page attended the Shipley School in Bryn Mawr, Pa., and the Ethel Walker School in Simsbury, Ct. She also studied in Italy and France and received her diploma at The Sorbonne in Paris. Mr. Page was graduated from Harvard in 1928, the University of Grenoble and the Ecole Nationale des Langues Vivantes. His is now Third Secretary of the Legation at Riga, Latvia. He is a member of the Delphic Club, Hasty Iudding, Institute of 1770 and the Harvard Club of Boston.

BUTLER—KELLEY

Miss Helen E. Kelley, daughter of Mr. and Mrs. Edward F. Kelley of Rustic st., Newton, became the bride of Henry A. Butler, son of Mr. and Mrs. George Butler of Myrtle st., Watertown, on Sunday afternoon, August 4, at four o'clock in the Church of Our Lady, Newton. Rev. Russell Haley performed the ceremony.

The bride, who was given in marriage by her father, wore a white satin gown in Queen Anne style with a

Old Barn Burned At Newton U. Falls

An old barn on the Proctor estate at 55 Hale street, near Eliot street, Newton Upper Falls was badly damaged by fire at 7:45 Wednesday evening. The barn is used as a stable by Hagop Bogashian, and a horse which was in the barn was rescued in the nick of time. The fire started from spontaneous ignition of green hay. The building is in close proximity to dwelling houses and these were threatened. It is understood that the Health Department will object to further use of the building as a stable.

Marriages

BATTISTA—FIORITA; on Aug. 4 at Framingham; Silvio Battista of 56 Faxon st., Nonantum and Mary Fiorita of Framingham.

J. W. Blaisdell, President

334 Boylston St. - BOSTON, Mass.

Entertains Officers Of County Temperance Union

Mrs. John A. Groves of Parker street, entertained officers of Middlesex County W. C. T. U. at her home on Wednesday. Among those present were Mrs. Grace M. Hamilton of Winchester, president, who motored down from her summer home in New Hampshire, Mrs. M. A. Burnes, vice-president from Woburn and Mrs. Walter Stevens of Boylston street, county director of the Social Morality Dept. Plans were made for attending the national convention in Atlantic City September 6 to 12 and also for the annual county convention to be held in Melrose September 24.

A report was given of the reception held last week at 302 Marlboro street in honor of Madame Ochimi Kubushire, noted author and a national officer of the W. C. T. U. in Japan, telling of the effective work she is doing in the social morality department of the W. C. T. U. in fighting prostitution in her country. She gave a timely warning to this country as many cities are now considering the opening of Red Light Districts again for revenue and repeal of state laws against prostitution is being openly advocated in more than one state.

Notice was also given of the recently printed advertisements of some of America's most prominent newspapers where much space was bought to address the women of America by "Open Letters" inviting the mothers and daughters of America to drink whiskey. The saloon in the United States it was remarked, has always had its back door but in this present publicity feminine drinkers and non-drinkers are not being invited to drink the beer mugs, but the power of example is employed by picturing lovely young women in country gardens drinking tall glasses of somebody's famous beer. The unscrupulous commercial greed back of this demoraliz-

ing advertising was frankly deplored and it was decided that "Open Letters" should also come from the women of America asking their senators and representatives to vote against the numerous liquor bills for looser control of liquor and, here in Massachusetts to arouse sentiment against the bill which would allow hotels to sell liquor in dry towns.

A. W. Vachon, S. J.

Visiting Here

Andrew W. Vachon, S. J., son of Mr. and Mrs. Robert A. Vachon of Cypress street, Newton Centre has been meeting many friends since his arrival in the East several weeks ago from Spokane, Washington where he has been a student for the past two years in the Jesuit House of Philosophy there. Previously, Mr. Vachon, who is a member of the Northwest Province of the Jesuit Order which includes States along the Pacific Ocean, Alaska and other areas in the Northwest, spent several years at the Jesuit novitiate in Los Gatos, California. He came East to receive surgical treatment for an injured foot and he has been a patient at Cardinal O'Connell House, Brighton.

July Building In Newton

The report of the Newton Public Buildings Department for July shows that 54 permits were issued with an estimated cost of work to be done placed at \$202,694. Twenty of the permits were for single dwellings to cost \$147,800, and 24 for alterations on buildings to cost \$50,444. For the first seven months of this year 350 permits were granted with an estimated cost of \$1,253,436. Last year during the same period 314 permits were issued with an estimated cost of \$1,079,020.

THE NEW DEAL SETBACK

The results of the elections in the neighboring state of Rhode Island are not surprising. For the past several years we have been experimenting with new ideas, new methods, and new bureaus of governmental administration. In the northeastern states particularly these experiments have proved far from beneficial as a whole and in many quarters extreme dissatisfaction has been expressed by leaders in both the Republican and Democratic parties. The congressional election in Rhode Island was based largely upon the question of the New Deal. The Republican candidate waged a campaign in which he pledged himself to oppose the New Deal in every detail of its present form. His election cannot be regarded as anything but a refutation of the New Deal by the voters of that district. It is true that the Republican candidate liberalized his platform to some extent to include payment of the veterans' bonus and other matters affecting local conditions which doubtless had a partial bearing upon his success. In various parts of the state, however, the vote on other matters proved conclusively that there is a decided trend away from the theories being expounded by the Federal administration.

A Republican mayor was elected in a Rhode Island city where for the past seventeen years the city has been in Democratic control. In the industrial sections of the state where many of the voters are millworkers and small wage earners a clear disapproval of the processing tax feature of the New Deal was expressed. As to state matters the voters indicated their dislike of the appropriations of huge sums of moneys for bond issues for various kinds of constructions. Yet at the same time they showed a sincere desire to provide for the necessary relief which is paramount in all quarters.

The question which many are asking is whether or not the election results in Rhode Island are indicative of a trend back to the normal functions of government. Time alone will answer that question. There are many signs that such a trend has begun. With the Rhode Island election to give the Republican party additional faith in the fundamental principles of American government the coming presidential campaign gets away to a fine start. With renewed vigor and renewed hope the task is far from impossible.

THE ELEVATED STRUCTURE

The removal of the much discussed Boston elevated structure is a question which is of considerable interest. There are doubtless but very few who would not like to see the greater part of this unsightly structure removed and replaced by a rapid transit subway. The removal would also make it possible to improve traffic conditions on some heavily traveled Boston streets. There are many angles which enter into the solution of this problem chief among them being the effect of such an undertaking upon the financial condition of the city of Boston. On the verge of going broke an additional burden of anywhere from 37 to 58 cents upon the Boston tax rate would be almost too much to bear. While it is a desirable improvement for various reasons it is a dangerous project to begin from economic and financial reasons. Public clamor favors the removal of the elevated but if the public at large realized the effect it will have upon the taxpayer there would be far less sentiment for it.

California Scouts Enjoy Newton Visit

Fourteen boy scouts from Santa Barbara, California, with their Scout Master Mr. Harold A. Foster, former teacher of Manual training in the Newton schools were the recent guests of Mr. Foster's sister-in-law and husband Mr. and Mrs. A. W. Kellaway of Wyman st., Waban. The boys left Santa Barbara, California, on June 14 and had travelled 1200 miles before reaching Newton. A great deal of interest was aroused among the local boys over the gayly decorated truck and equipment of the boys on their long journey. The boys camped out nights using sleeping bags. They spent two days in Waban and expect to return to Santa Barbara by September. Mr. Foster is the husband of former Alice Ireland, daughter of the late Mr. and Mrs. C. H. Ireland of Ward st., Newton Centre.

Mr. and Mrs. Foster were both former residents of Newton Centre and have resided in Santa Barbara for the past 20 years. Mr. Foster was assisted in caring for the group of boys by two Eagle scouts, age 21 and 23 years old. Special swimming permits were issued to the boys by the Playground department and many local points of interest were enjoyed by the group.

ABOUT TOWN

By Edward H. Powers

A pedestrian in a neighboring town is knocked down and injured while crossing a street by a truck. The police learn that the driver of the truck is operating after his license to drive had been revoked. The offending driver is arraigned in court. He received the severe penalty of a sentence of 5 days in jail. And then—the sentence is suspended. It is this sort of thing that is responsible for murder and maiming by motor vehicles, a type of slaughter which has grown to appalling figures in this highly civilized country of ours.

Two of the three members of the revamped Newton Board of Health are new neighbors in Waban. Dr. W. G. Smillie resides on Wamesit rd. and J. Earle Parker lives on Metacomet rd.

When some of the drivers of automobiles involved in collisions at Walnut and Beacon sts., Newton Highlands, are properly fined or given jail sentences for reckless driving, there will be fewer accidents at this intersection. Unobstructed views are afforded to motorists approaching from any direction, yet collisions frequently occur there. They are invariably caused by one or both drivers involved disobeying traffic laws.

The comment of former Governor Ely regarding the result of the Congressional election in Rhode Island would get more attention from many citizens of Massachusetts if Mr. Ely's record as Governor had not been open to so much criticism because of the parole and pardon activity which sullied his administration. And the criticism which Mr. Ely cast at the prevalence of gambling in connection with horse and dog races is funny in view of the fact that such gambling became legal in this State before he retired from office.

The Republican victory in Rhode Island does not mean a return to power of this party at the next Presidential election. The district where the Democrat candidate was defeated is a textile center and the campaign arguments against the processing tax were effective. Also the Democrats were divided in that district and powerful leaders had not supported the Democratic candidate. President Roosevelt's administration is still popular in those sections of the country where hundreds of millions have been bestowed to agriculturists, and where unemployed have been the recipient of much more liberal relief than has come to New England and Massachusetts.

Senator Arthur W. Hollis deserves praise for his determined fight against Governor Curley's efforts to put across the bill to take practically all control of billboards from cities and towns.

The Newton Welfare Department must care for hundreds of additional cases during the next few weeks because of the curtailment of relief by the Federal Government. Of course, there is no connection between the result of the Rhode Island election and the failure of the WPA officials at Washington to approve projects and send funds for those who are on the ERA or WPA lists.

Waban Girl Thrown From Horse

Jane Callahan, 10, daughter of Mr. and Mrs. William F. Callahan, 792 Chestnut street, Waban, received a slight concussion of the brain Sunday afternoon when the horse she was riding balked at a jump at a riding ring in Cohasset. The girl was rendered unconscious and was taken to a private hospital at Cohasset by her father. She was found not to have received a serious injury. The Callahan girl has won scores of prizes at horse shows since her first appearance in competition at the age of 6. Her father is State Commissioner of Public Works and the family summer home is at Scituate.

Large Hat Causes Auto Accident

Large hats on women, now in vogue, are a welcome relief to many from the diminutive top pieces which look ridiculous on so many of the female sex. But, large hats are not practical for wear when one is driving an automobile. This was proved to Mrs. Gertrude Wiseman of Moraine street, Jamaica Plain when the large hat she was wearing flapped across her face Monday afternoon as she was operating a car opposite 263 Hammond street, Chestnut Hill. She lost control of the car and it hit a tree. Mrs. Wiseman and her 5 year old son received slight injuries and went taken home in a taxi. The automobile was considerably damaged.

Market Owner Had Bad Food —Is Fined

Abraham Ginsberg, proprietor of a market at Newton Lower Falls, was fined \$50 by Judge Lynch in the Newton court on Tuesday for keeping meat and vegetables in his store which were not fit for sale. Irving House, inspector of the Health Department, was the complainant. He testified that he had warned Ginsberg a number of times in recent years. Four other complaints against Ginsberg were placed on file. The judge also imposed a suspended prison sentence of three months.

Kiwanian Tells Rotarians of Responsibilities

The speaker at the Monday luncheon was James P. Gallagher who is Governor of the New England District of Kiwanis as well as an attorney and Clerk of the Newton District Court. Taking as his theme the great responsibility of Rotarians and Kiwanians in the matter of standards and patterns for a community in the little things as well as in the larger and more spectacular affairs, he pointed out the potency of example, especially upon children and young people and emphasized how often the man himself was utterly unaware that he was directly influencing other people. To illustrate how unconscious the adult may be that he is a pattern for some youngster, Mr. Gallagher spoke of the great influence that two men had upon his early life neither of whom ever knew that Mr. Gallagher had admired their actions and would have been greatly shocked to learn of their ever doing anything the least out of the way.

Turning then to the Rotarian or Kiwanian who in consciously endeavoring to help some youngster feels that he isn't accomplishing very much after all, Mr. Gallagher spoke a word of cheer. In the first place, that one life influenced for the better will in turn spread the good on to others and the effort will be much expanded in directions that the originator will know nothing of. In the second place, if the results are not what were planned and if the whole thing seems to have been rather futile there have been undoubtedly very worthwhile products that were not expected. Such a talk of this type necessarily loses much in reporting, but it does leave a story of two travelers who came upon a hunter with a fine lot of coon pelts. As they admired the pelts and congratulated the hunter they were surprised at his indifference and found that he was greatly disappointed because he had set out for other and in his own mind his expedition had proved barren indeed.

A talk of this type necessarily loses much in reporting, but it does leave a story of two travelers who came upon a hunter with a fine lot of coon pelts. As they admired the pelts and congratulated the hunter they were surprised at his indifference and found that he was greatly disappointed because he had set out for other and in his own mind his expedition had proved barren indeed.

Newton Eighth In Traffic Survey

(Continued from Page 1)

ilar results may be expected where ever signal installations are not based on careful engineering studies and a specific problem at each location.

A signal is recommended at the intersection of Washington, Waltham, Watertown and Chestnut sts. because of the confusion and lack of order in the movement of traffic. The report states that accidents which signals cannot prevent are — rear-end collisions, accidents involving pedestrians struck by vehicles turning right or left, pedestrians crossing against the lights, many of the left turn accidents, accidents due to excessive speed, recklessness, drunkenness, inattention.

The report recommends that all non-flashing beacons at street intersections be replaced with the flashing type and that a number of beacons which have not been in operation for a long time be placed in working order again.

Traffic Officer Hit By Auto

Motorcycle Officer Cornelius Dwyer of the Newton police was hit Sunday evening at 6:35 by an automobile driven by Mrs. Mary Alexander of 332 Eliot street, Newton Upper Falls. The accident happened on the Worcester turnpike opposite 232 Boylston street, Newton Centre. Dwyer had stopped a car driven by John Troianstasi of Hefflin street, Brighton and was standing alongside the car when the automobile driven by the Alexander woman came along and hit Dwyer's motorcycle which was parked on the turnpike behind Troianstasi's car. The policeman tried to avoid getting hit by leaping onto the running board of the stopped automobile, but he was caught by the motorcycle as it was pushed along by Mrs. Alexander's car. Dwyer received injuries to his left shoulder and right hand, and cuts on his face. He was treated by Dr. Francis Mulligan of Newton.

Young Men's Republican Club Outing

An outing will be held at the Stow Country Club, on Route 117 from Waltham, on Saturday, Aug. 17th, under the auspices of the Council of Young Men's Republican Clubs of Massachusetts.

Albert Bent, President of the Waltham club and chairman of the outing committee, has arranged a program of sports for the afternoon. Dinner will be served at 6:30. Many Young Republican leaders in the state are expected to attend. In the evening, dancing will conclude the program. Roger A. Lutz, of Newton Centre, President of the Boston club, will receive requests for detailed information and reservations for the dinner.

School Sites At Oak Hill

(Continued from Page 1)

property for its dream of completeness in providing of such recreational facilities.

The Original Site includes property generously offered to the City by a number of citizens and the Association takes this opportunity publicly to express the gratitude and profound appreciation for the generous spirit and community interest shown by these donors of land. It is the hope that if this plan is deemed preferable to others under consideration that the Barry's will join in making the grant possible without the taking of land in the spirit and interest of a better and more beautiful Community. The property would eventually offer facilities for a "model business district" and parking areas and it would be expected that a road would connect Parker to Greenwood streets. Perhaps later a road would surround the proposed Park, offering a safety zone for the children.

In fairness to this proposition it should be stated that the improvement of this area for Park, Recreational and Playground purposes is a distinct and separate undertaking with relation to the proposed school and although naturally considered together is justifiably a capital improvement to the Community of equal value to the School in the District which it would serve.

The Greenwood Street property now owned by the Barry's is a tract of land located near Meadowbrook road and comprises a land acreage of approximately 25½ acres. It has the advantage of being on higher land, thus avoiding immediate drainage operations and the back land could easily be adapted for a modest sized playground, suitable for children using the grade school. The approach to the Site would require little additional road construction—with the possible exception of a continuation of Meadowbrook road to Greenwood street and some right of way path from Parker street to the Site, for children desiring to walk from that point. The chief virtue of this property is that highway traffic would be almost exclusively confined to school transportation movements which is an important safety consideration. However, the land is considerably distant from the Charlemont and Walnut street districts which would naturally attend the school and would seem therefore to make serious consideration of this property impractical.

The Hyacre Farm property is located off Dedham st. opposite the head of Parker st. and bounded on one side by the entrance to the Charles River Country Club. It was at one time the property of John T. and Timothy W. Murphy and has many desirable qualities. The land is within a quarter mile from the theoretical center of school population for the District but that much nearer the present center if the Charlemont and Walnut street sections are considered. The extension of Parker street through to Winchester street would be a natural development—opening land for homesites in that back area. There would be ample opportunity for playground facilities on high level slightly land at the crest of the knoll if the City should acquire it. It offers a very magnificent location for a school—easily reached from all directions and with practically no drainage problem at all. What it lacks is the opportunity for a Community Park and a modern business development—which is admittedly more perfectly located on the original proposed site. There is also the possibility that Dedham and Parker streets will be increasingly used as thoroughfares for automobile traffic over which a majority of children might be required to cross.

"The City has been generously offered a gift of several acres of this property by the owner for either school or playground purposes and at the opinion of many offers the most suitable property for strictly school purposes. The school structure might be placed where the present dwelling now stands or midway between this house and the Golf Club. It is understood that the owner of the Hyacre property would consider any reasonable offer if this land should be used for such a public purpose and the Association is grateful for this generous and timely offer.

"Now, Gentlemen, we rest this evidence before you. Our primary need is a 'School'. We would naturally like to see you help us realize our dream of providing a Park, Recreational and Playground facilities; modifying of the mosquito nuisance; and of improving land for the attracting of further desirable residential development in addition to the school project. If you must determine for us? We look forward to a quiet orderly expansion of Oak Hill backed by these worthy and reasonable improvements. We feel the City will be well rewarded for the investment in such projects and in years to come perhaps we can thank God for our foresight, vision and action in wisely determining the better of these several plans."

Thursday to Saturday the most dramatic, and the greatest in heart interest of all stories, "Stranded" with Kay Francis and George Brent in the leading roles is the feature. "Stranded" is stark drama, although there is comedy relief here and there, just as there is humor in every walk of life. It centers about the life of a worker of the Travelers Aid, who thinks only in the terms of humanity. She is in love with a hard boiled engineer who is building the largest bridge in the world, and who considers human beings only as cogs in an industrial machine. The supporting cast includes Patricia Ellis and Donald Woods. Miss Ellis plays the part of the rich girl and Mr. Woods has the part of a social worker hopelessly in love with Kay Francis. The co-feature is Warner Baxter and Ketti Gallian in "Under the Pampas Moon." On Saturday Matinee the theatre presents to the children Tom Mix in "The Miracle Rider" and the Bob Mills Kiddie Radio-Stage Revue on the stage.

Newtonville Townsends Club to Install Officers
On Friday, August 9th the newly elected officers of the Newtonville Townsends Club will be installed at the club headquarters, Room No. 5, 283 Walnut street, Newtonville. The officers to be installed are: President, Mr. John McHugh; Vice-President, Mrs. Jas. MacDonald; Treasurer, Mr. Duncan MacLennan; Secretary, Miss Ruth M. McLeod.

In addition to the installation of officers, there will be an address by the recently appointed Organizer for the Ninth Congressional District of Massachusetts, Mr. Elmer Davis, President of Newton Lower Falls Townsends Club.

Members of the Newtonville Townsends Club are requested to attend, and any friends interested in the Townsends Movement are cordially invited.

Arrested After Family Row

Manuel Diaz, colored, of 17 Prospect st., West Newton, was arraigned in the Newton court on Saturday charged with disturbing the peace. His case was continued until August 17. Diaz was arrested the previous night following a row in a house on Hicks st., West Newton. He had received a cut on his head and was taken to the Newton Hospital for treatment. According to Mr. Diaz, he was wallowed on the head with a frying pan by Ogden Carr of Hicks st. while attempting to act as a pacifier in a family quarrel between Mr. Carr and his wife. It is alleged that during the controversy Mr. Diaz severely bit one of Mr. Ogden's ears. Mr. Ogden also required medical treatment, and he also appeared in the Newton court on August 17th, on a charge of disturbing the peace. Both gentlemen may also be charged with mutual assault.

Technicolor Film Heads Paramount Theatre Bill

Inaugurating what many believe is to be a new era in screen entertainment, Paramount Theatre in Newton presents the first full color feature, "Becky Sharp." Based upon William Makepeace Thackeray's famous fiction classic, "Vanity Fair," and the Langdon Mitchell stage play, "Becky Sharp," stars Miriam Hopkins. Produced entirely in the new three-component technicolor, it promises a revelation in beauty, fidelity to life, and clarity.

Above and beyond this technical triumph, "Becky Sharp" offers an absorbing, perfectly executed drama, rich in striking characterizations and entertainment values, one which, even without color, claims a place among the year's most noteworthy cinematic achievements.

Coming as a Rouben Mamoulian production, "Becky Sharp" offers the finest of Miss Hopkins' artistry. As sorbing, perfectly executed drama, rich in striking characterizations and entertainment values, one which, even without color, claims a place among the year's most noteworthy cinematic achievements.

PRESIDENT POLK CONSIDERED A MILLION FULL VALUE FOR CUBA

In 1848, during the term of President Polk, the United States offered to purchase Cuba from Spain for the sum of one million dollars, considered at the time full value for the huge island. Now there are blocks in Havana worth more than one million dollars each.

CHRISTIAN SCIENCE

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 11.

The Golden Text is: "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "This I say then, Walk in the Spirit, and ye shall not fulfil the lust of the flesh. For the flesh lusteth against the Spirit, and the Spirit against the flesh; and these are contrary the one to the other; so that ye cannot do the things that ye would. But if ye be led of the Spirit, ye are not under the law" (Galatians 5:16-18).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man walks in the direction towards which he looks, and where his treasure is, there will his heart be also. If our hopes and affections are spiritual, they come from above, not from beneath, and they bear as of old the fruits of the Spirit" (p. 451).

IRELAND NAMES FOR WARRIOR GREEN

Ireland long bore the name of Granuaile, which is Gaelic for Grace O'Malley, a Chieftainess whose headquarters were on Clare Island, off the West coast of Ireland. There stood the Tower of Carriaghooley, which she called "the rock of her fleet." She was a wild and successful warrior. Queen Elizabeth admired her and entertained her in the royal palace.

Do you float or swim?

ARE you a good swimmer? When in deep water, what do you do to get to shore—turn over and float—or do you swim? Of course, you swim.

Likewise in life. Drifting along, spending as much as you earn, will get you nowhere financially and give you no security in old age.

Are you a good saver, too?

Small deposits always welcomed.

—Dr. and Mrs. E. D. Leonard are at their home in Spruce Point, Maine for two weeks.

—Mrs. Everett W. Varney of Tyler, is entertaining Mrs. Frank French of New York City.

—Mr. and Mrs. H. P. Forte and family of Allerton rd. leave Saturday for their summer home in Camden, Me.

—Don't neglect to read John T. Burns & Sons, Inc., adv. on page 7 if you want to buy or rent a home.

—Dr. Thomas H. Peterson of Commonwealth ave. has recently purchased the beautiful estate at 47 Hancock ave.

—Mr. Michael Lyons of 929 Commonwealth ave. has been a recent guest at the Terrace Gables in Falmouth Heights.

—Mrs. Edward Sands and daughter, Mrs. Hazel Sands Welch of Channing road, are spending a ten days' vacation in Enfield, New Hampshire.

—Miss Aileen Davis was one of the counselors at the B. U. Campers' annual party which was held under the auspices of the Sargent School at Peterboro, N. H., on July 31.

—Mr. Frank T. Eskridge of Paul st. will act as one of the judges at the annual dog show of the North Shore Kennel Club which will be held at the grounds of the Myo in Hunt Club on the 24th.

—Miss Elizabeth Rausch of Oxford rd. is attending Camp Wannosuck in Vermont for a month as the guest of her aunt, Mrs. Robert Drake of Boston. After her vacation in Vermont Miss Rausch will attend the Baptist Church Camp at Old Orchard, Maine, as the guest of Dr. Arbuckle.

"Highs" and "Lows" Mean Much to the Weather Man

Locations of regions of high and low pressure are vitally important to the weather man. When he reads his own barometer, which is an instrument for weighing air, he can see at a glance whether its mercury column or indicator is rising or falling. A falling barometer indicates that the air about it is becoming less dense—lighter—and that an atmospheric disturbance, quite likely a storm, is on its way. The old mariner's barometer was his best friend, writes John A. Menaugh, in the Chicago Tribune, as it is the weather man's constant adviser. Areas of high and low pressure are ever on the move over the surface of the earth. These movements are the cause of winds, and the winds, coupled with other factors, such as temperatures and humidity, bring about the atmospheric disturbances. Winds affect temperature. Temperature creates winds. Variations of air pressures cause air currents. Air currents shift areas of high and low pressure. All factors are combined in one way or another to create changes. And back of the whole natural business of the weather are the rays of the sun, only one two-billionth fraction of which reach the earth.

Troy Sixth City on Site

Digging into the desert sands of Asia Minor an expedition from the University of Cincinnati discovered some interesting facts about ancient Troy and its site, says Pathfinder Magazine. This city, immortalized by Homer, was built on a spot which has seen the rise and the fall of eight other cities. The first to grow on this historic ground ceased to exist about 5,000 years ago and the last to flourish there had its untimely end about 500 years after the death of Christ. Digging through successive layers of debris and unearthing tons of pottery of different dates the archeologists established Troy as being sixth of the nine cities to occupy the ill-fated spot.

Newtonville

—Mr. and Mrs. Don Leonard of Albemarle rd. are at Lake Champlain.

—Mrs. Cecil Clark of Walnut st. is taking a vacation at Moosehead Lake, Maine.

—Mrs. Ellison Day and family of Hull st. are spending the month at Wianno.

—Miss Shirley Greenwood of Walnut st. is spending a few weeks in Bangor, Me.

—Mr. Robert MacGinnis and daughter Isabel of Newtonville ave. are in Nova Scotia.

—Mrs. John Duff of Albemarle rd. is spending the summer at Prince Edward Island.

—Mrs. Margaret Younker of Central ave. is spending the week in Nova Scotia.

—Miss Polly Keppler of 270 Mill st. is spending August with friends in Pocasset, Mass.

—Dr. and Mrs. Millard and children of Mill st. are spending the month in New Hampshire.

—Mr. and Mrs. Irving B. Parkhurst of 26 Frederick st. are spending their vacation at Duxbury.

—Mr. and Mrs. Spencer Dodd and children of Walnut st. are at Manomet for the month of August.

—Mr. Henry Farnham of Walker st. is taking his vacation on a yacht fishing along the Atlantic coast.

—Mrs. Frederick I. Drew and son Robert of Elliot ave. are spending their vacation in Portsmouth, N. H.

—Mr. and Mrs. Charles Scipione of Walnut st. are on a two weeks' vacation at Hampton Beach, N. H.

—Mr. Wallace Boyden who has been very ill at his home on Oakwood rd. is reported as improving.

—Mr. and Mrs. Maurice Robbins of Lowell ave. are spending the season at their summer residence at Onset.

—Miss Martha Olcott, daughter of Mrs. John Olcott formerly of Austin st. is touring Europe this summer.

—Mrs. George Whitfield Taylor of Foster st. is entertaining her sister, Mrs. Wm. Dean Story of Arlington.

—Dr. Brewer Eddy will be the preacher on Sunday morning at the union service in the Central Church.

—Mrs. Blair, wife of Prof. Herbert Blair of Birch Hill rd. and son Bert are at Juniper Point, W. Boothbay Harbor, Me.

—Mrs. Henrietta C. Lockwood, wife of Brice M. Lockwood formerly of Newtonville and now of Brantree, died on July 28.

—Mr. and Mrs. Frank Morris of Chesley ave. recently entertained Mr. and Mrs. John Marchand and daughter Esther of Baltimore.

—John T. Burns & Sons Co., have been in the Real Estate Business in the Newtons for nearly 50 years. Their adv. on page 7 will interest you.

—Miss Hope Wheeler, daughter of Mr. and Mrs. Thos. H. Wheeler of Walker st. is at Camp Mary Day and her sister Joyce is in Bridgewater, Maine.

—Mrs. Ralph Conant and family of Kirkstall rd. are leaving this week for Wolfeboro, New Hampshire, where they will spend the month of August.

—Carl, "Buddy," Smith who visited his grandfather, H. Loring Hayden of Walker st. over the week-end, has gone to Baltimore to spend the rest of his summer vacation with his mother, Mrs. Jack Thomas.

—Doctor Laurence W. C. Emig, pastor of the Methodist Episcopal Church, and his family are spending the month of August in New Hampshire. Dr. Emig is being reached through the church office for emergency calls.

—Mr. and Mrs. H. L. Stright of St. Paul, Minnesota announce the birth of a daughter, Jean Louise, on August 1. Both Mr. and Mrs. Stright are former residents of Newtonville. Mr. Stright served for five years as the Director of Religious Education of the Newtonville Methodist Episcopal Church.

—On August 12 Mr. William J. Hanor of Kensington st. will have been an employee of the Water Department for fifty-six years. He began as a boy at twelve years of age and his employer, Mr. Hanor, has been continuous ever since. Mr. Hanor has a carriage and personality of a man ten years younger, which he attributes to a life of continuous and varied activity. Every week-end finds him at his summer home on the Merrimack where he busies himself with the pursuits of a rural life and also mingles in the social life of the summer colony. He says he still enjoys dancing immensely.

—Mr. and Mrs. Heine and their two sons of Dunkirk, N. Y., are visiting Mrs. Heine's mother, Mrs. Lamont on Alban rd.

—Hollis and Edmund Whitten, Jr., of Owaisa rd. are at Camp Frank A. Day, East Brookfield, Mass., until the last of August.

—Mr. Robert McClellan of Collins rd., who has been traveling this summer through Europe, is expected home this week-end.

—Mr. and Mrs. Wallace Edgerton have returned to their home on Neshebe rd. after a three weeks' stay in Thomaston, Me.

—Mr. and Mrs. Dana Dutch of Waban ave. left Wednesday night by boat for Searsport, Me. They will be gone several weeks.

—Mrs. Walter Ross and daughter, Betsy, of Escudido, Cal., and formerly of Waban, are visiting relatives in Newton Highlands.

—Miss Alice Burton of Collins rd. is spending the week at the Appalachian Club on Three Mile Island, Lake Winnepesaukee, N. H.

—Mr. and Mrs. Frank Swenson of Wamesit rd. spent last week-end with their daughter, Barbara, who is in Camp Aloha, Fair Lee, Vt.

—Mr. David McLellan of Collins rd., who is a Junior at the Massachusetts Institute of Technology, is taking a special course there this summer.

—Mrs. John Bierer and her daughter, Miss Betty, of Collins rd. are in Binghamton, N. Y., where they went to attend the wedding of Mr. Bierer's niece.

—Miss Doris Linscott of Nehoiden rd. is in Jefferson, Me., visiting her grandmother, Mrs. Charles Linscott. She will be away the remainder of the summer.

—Miss Virginia Hamilton, who has been the guest of Miss Peggy McCutcheon at her summer home at Devereaux Beach, Marblehead, has returned to her home on Wamesit rd.

—The widening and resurfacing of Beacon st. in Waban square has been completed, as suggested by the Waban Improvement Society, adding greatly to the safety and convenience in parking and driving.

—Mr. and Mrs. J. Earle Parker of Metacomet rd. have gone to Middlebury, Vt., to get their daughter, Miss Elizabeth Parker, who has been taking a course in English at the summer school of Middlebury College.

Dr. Eddy To Preach At Union Service

Newtonville folks are looking forward with a great deal of interest to the annual appearance next Sunday morning of one of their own prominent citizens, Dr. D. Brewer Eddy, who will be the preacher at the Central Congregational Church on Walnut st. Dr. Eddy always draws large audiences wherever he speaks and the congregation which will greet him on Sunday will undoubtedly be the largest of the summer series. He will speak on the subject "Can God Guide the Nations."

REV. D. BREWER EDDY

Dr. Eddy, who is one of the field secretaries of the American Board of Commissioners for Foreign Missions, has only recently returned from a seven months' trip abroad where for three of these months he made a very intensive study of conditions in China and was in constant touch with the highest officials. He will bring to his hearers first-hand information of the tense situation which exists in the Far East between China and Japan. Because of his long experience in the field of Christian statesmanship, the speaker will give the Christian interpretation of world problems and a critical analysis of the present confusion which is manifest throughout the world.

The soloist of the morning will be Mrs. Florence Reed, contralto, and Miss Lillian West will preside at the organ. This is the second service in the August series which is conducted by the members of the Congregational and Methodist churches of the village.

Affection

It is the nature of affection to be ever ready to render service to everyone, to supply the evident needs of those about us, to divine their hidden needs; in a word, to remove or alleviate the sufferings of others, even at the expense of our comfort and repose. Affection is composed of little attentions, delicate kindness, considerate forethought; it may be translated by the simple words "giving pleasure."

West Newton

—Mr. Kenneth Prior of Cherry st. is on a cruise to Bermuda.

—Miss Paul Thomas of Fuller st. is in camp at West Ossipee, N. H.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the Power of Sale contained in a certain mortgage deed given by Walter A. Rollins and Etta L. Rollins to the Newton Trust Company, dated March 12, 1923 and recorded with Middlesex South District Registry of Deeds in Book 4595, Page 358, for breach of the condition contained therein, and for the purpose of foreclosing the same, will be sold at public auction upon the premises described in said mortgage deed, on Monday the twenty-sixth day of August, 1935, at ten-thirty (10:30) o'clock in the forenoon, all and singular the premises described in said mortgage deed, namely:

"The land, with the buildings thereon, situate in said Newton, and being shown as lot numbered seven (7) and part of lot numbered eight (8) on 'Plan of Lots in Newtonville, Mass., owned by Etta L. Rollins', April 1922, R. W. Wales, Engineer, duly recorded, said parcel being bounded NORTHWESTERLY by a proposed street known as Brookdale road, ninety (90) feet; SOUTHWESTERLY by lot numbered six (6) on said plan, ninety-five (95) feet; SOUTHEASTERLY by land now or late of Fegan, ninety and one (90.01) feet; and NORTHEASTERLY by the remaining portion of lot numbered eight (8) on said plan, about ninety-three and 50/100 (93.50) feet."

The premises will be sold subject to any and all outstanding taxes, tax titles, municipal liens and assessments, if any there be at the time of sale.
TERMS OF SALE: Five Hundred (\$500.00) Dollars, is to be paid by the purchaser in cash or certified check, at the time and place of sale, and the balance in or within ten (10) days. Other terms to be announced at the sale.

Autoists Show Interest In Safety Drive

Since the announcement by Myrton F. Evans of the Newton-Hudson-Terraplane Company that his automobile service shop at 210 Washington street, Newton, would give a free safety inspection to all cars during "Safety month" as August has been designated in Newton, a host of owners have brought their cars in to be tested.

"Undoubtedly the fact that nearly every driver spends every possible moment in his car during August," explained Mr. Evans, "causes them to be more considerate than normally about the conditions of their cars. They are beset with such thoughts as 'Are my brakes ample for any situation?' and, 'Is my car tuned up to get me out of a traffic tangle, if necessary?' Those are questions that are answered in the safety inspection that we are offering all motorists without obligation."

"The extremes to which the Hudson Motor Car Company goes in the designing of Hudsons and Terraplanes for safety makes all dealers handling these cars unusually conscious of safety as a value in automobiles," Mr. Evans feels. Hudson rotary equalized brakes are designed to provide a surplus of equalized braking power for even the speeds possible with the 113-horsepower Hudsons and the 88-horsepower Terraplanes. The Electric Hand, also an exclusive Hudson and Terraplane feature, makes driving simpler and less fatiguing, and is therefore an important safety factor. The body of all steel, pioneered by Hudson this year, is possibly the greatest feature of all.

"Insofar as they could do so, the Hudson engineers have made every month 'safety month'." "However, it's necessary for every owner and driver, and even pedestrian, to do his part in promoting safety. If we get more in the habit of exercising care by observing 'safety month' in August, the good effects will last for a long time."

Newton

—Mr. and Mrs. Geo. White of Walnut pk. are spending a vacation at New Silver Beach, No. Falmouth.

—Mr. and Mrs. Thomas R. Camp and family left last week for a season at Center Conway, New Hampshire.

Well Known Newton Man Observes 80th Birthday

Daniel Fletcher Barber of 131 Newtonville ave., Newton, is observing his 80th birthday today by an informal reception. He was born Aug. 9, 1855, at Antrim, N. H., the son of Rev. Daniel W. and Adeline (Haven) Barber. He is a descendant of Robert Barber who emigrated from Yorkshire, England, and settled in Exeter, N. H., in 1690. He was educated in the public schools of New Hampshire and in 1869 entered the employ of A. M. Gardner & Company of Boston, hardware merchants. From 1872 to 1888 he was associated with the hardware firm of Gardner & Chandler, and in 1888 he became a partner in the firm of Chandler & Barber in the wholesale hardware business in Boston. In

D. FLETCHER BARBER

1914 this firm was incorporated and Mr. Barber has been its president for many years. This firm was for many years located on Summer st. In 1929 it gave up the retail hardware business and moved to 113 Huntington ave. to specialize in builders' hardware.

Mr. Barber moved to Newton in 1871. On October 10, 1888, he married Arlene O. Mansfield of East Saugus. There are three children: Ralph F. Barber of Newton, Mrs. Florence M. Robinson of Foxboro and Mrs. Ruth M. Morrison of Newton Highlands, and six grandchildren. He served on the Newton Board of Aldermen in 1902-03-04. He was president of the Newton Y. M. C. A. in 1888, 1889 and 1890. He is a member of the Boston Chamber of Commerce, 1st Vice President of the National Retail Hardware Association, he was an organizer of the New England Hardware Dealers' Association and was president of this association in 1896, 1897 and 1910. He is also a life member of Dalhousie Lodge of Masons of Newtonville, and a member of Newton Royal Arch Chapter, Gethsemane Commandery, Knights Templar; Boston Consistory, Scottish Rites Bodies of Boston and Aleppo Temple, Mystic Shrine. His recreations are fishing and boating.

Auto Plunges Into River

Sunday night at 11:45 a beach wagon driven by James McDonald of 19 California street, Watertown plunged into the Charles River at Faneuil to the junction of Charles River parkway and Brookline street. Several Newton boys were riding in the wagon, and all scrambled out when their conveyance landed in the river with no more serious results than a wetting. These passengers included Joseph Campbell, Jr. of 3 Pond avenue; Edward Cook, 16 Rockland street; Edward Robert and Joseph Nolan, Jr. of 60 Gardner street, and Robert Patrick of Cambridge street. McDonald reported that the accident occurred when he was turning the wagon around and put the car into forward speed instead of reverse.

Inhabitants of Sweden Celebrate Longest Day

The longest day of the year is just another day in most countries, but in Sweden it is celebrated with festivities dating from pagan times. Hundreds of travelers gather in Dalecarlia and many of the other provinces, for the people turn out in fine costumes and spend the night in dancing their old folk dances, singing songs that have been handed down for generations, notes a writer in the Washington Star.

In the homes of these regions, in the red log cabins that dot the countryside, the people, proud of their past, are even more proud of the great national arts and crafts revival.

Stockholm has been described as a composite of Scottish lake scenery, of the Bay of Naples, and of the islands of the Aegean. It is built on peninsulas and islands, and there are small harbors and quays everywhere. Hundreds of boats and small steamers ply among the islands.

A point of interest of the Swedish people, and the region in which they take the greatest interest, is the Island of Gotland, with the ruins of Visby. During the Twelfth century, Visby was the chief trading city of the North; it built a splendid wall with 37 towers, and within constructed 15 great churches. Then the city burned; later it was looted, and a few years after pirates laid it waste. To cap its troubles, trade routes changed, and Visby had a swift decline.

Find Rattlesnake Farthest North
The swamp rattlesnake, or massasauga, ranges the farthest northward of any of the venomous snakes in North America, investigations made by Michigan naturalists indicate.

Injuries Fatal To Newton Man Hurt In Car Crash

Michael J. Cavanaugh, 65, of 20 Lewis terrace, Newton, died at St. Elizabeth's Hospital, Brighton on Thursday night, August 1st of injuries received in an automobile accident which occurred at Cambridge and Wilton streets, Allston on the night of July 27. He was a passenger in a car which collided with a Boston Elevated bus. He was born in Galway, Ireland, the son of Mr. and Mrs. Daniel Cavanaugh and had been a resident of Newton for nearly 50 years. For the past 16 years he had been employed at the Newton Y. M. C. A. He was a member of Middlesex Court, M. C. O. F.

Mr. Cavanaugh is survived by his widow, Mrs. Bridget (McQuillan) Cavanaugh; four daughters, Eileen, Mildred, Mary and Myrtle Cavanaugh; two sons, Walter and Paul Cavanaugh; and three sisters, Maria Cavanaugh of Weymouth, Mrs. Margaret Mahan of Cambridge, and Agnes who resides in Ireland. His funeral service was held on Monday at Our Lady's Church and burial was in Calvary Cemetery, Waltham.

KATHRYN F. SCOTT

Mrs. Kathryn F. (Harding) Scott of 21 Lewis street, Newton, wife of Morley B. Scott, died on August 2. She was born in Chatham 61 years ago and had resided in Newton for 11 years. Her funeral service was held on Monday afternoon at her late home; Rev. Lawrence W. Emig officiated. Burial was in Forest Hills Cemetery.

EXCLUSIVE STEAM-GENERATING PLANT FOR QUEEN MARY'S HOTEL SERVICES

The Queen Mary, the new Cunard White Star superliner, now proceeding rapidly toward completion at Clydebank, Scotland, will be the first ship to have an exclusive steam generating plant for its hotel services, three of the ship's 27 boilers being reserved for this purpose. These boilers will operate independently from the Queen Mary's propelling machinery, supplying all electricity necessary to run the ship's kitchens, bakeries, dumbwaiters, refrigerating plant, and allied services. The same electric system will operate the ship's 30,000 lamps, 1,000 fans, 21 elevators, and supply hot and cold water to its passenger accommodations and two swimming pools.

Amphibian "Family Tree" Traces Ancient Fossils

A "family tree" of amphibians and reptiles, tracing their development from the oldest fossil records to the present time, and a selection of mounted skeletons of typical reptilians, are shown in an exhibit at Field Museum of Natural History, Chicago.

The reptilian family tree shows that existing amphibians and reptiles represent but a small remnant of the great numbers which flourished in the past. The first amphibians flourished hundreds of millions of years ago. Like the reptiles they declined greatly. A single group has survived in the form of salamanders and highly specialized frogs.

Reptiles are traced from the Mesozoic era, or "age of reptiles." Several extinct groups, together with ancestors of those living today, dominated the animal world at that time, some ninety-five million years ago. During that period the first birds and mammals were evolved from the reptiles and their origins are traced on this family tree.

Paint and Ceiling Height

In modernizing an older type of house the question of what to do with too high a ceiling is frequently encountered. An old rule that the ceiling should be lighter than the wall is often disregarded. The reason for this is simple. Employ a cream ceiling, for instance, in a high room and the cream of the overhead spaces can actually seem to fade farther into the distance and increase the appearance of height. Give the ceiling a dark shade than the walls and this treatment has the effect of drawing it down closer to the rest of the room.

Recent Deaths

MRS. MARY A. MULLIGAN

Mrs. Mary A. Mulligan of 595 Washington st., Newton, widow of John F. Mulligan, died on August 6. She was born in Brighton 60 years ago, the daughter of Mrs. Ann (Healey) Curley and the late John Curley. Mrs. Mulligan had been a resident of Newton for 40 years and had been a zealous worker in the parish activities of Our Lady's Church and in various charitable organizations. She was a Past Prefect of Our Lady's Sodality, a member of Middlesex Court, M. C. O. F.; The Emblem Club and Catholic Daughters of America. She was a member of the Mayor's Relief Committee.

She is survived by two sons, John C. and Dr. Francis J. Mulligan; four daughters, Mary M., Isabel A., Anna L. and Genevieve G. Mulligan, all of Newton; her mother; a sister, Mrs. Anna Richards of Wellesley; and two brothers, John and Joseph Curley of Brighton. Her funeral service was held this morning at Our Lady's Church and burial was in Calvary Cemetery, Waltham.

HENRY H. LOWELL

Henry H. Lowell of 53 Glenwood ave., Newton Centre, died on August 3rd, in his 86th year. He was born in Portland, Me., and was treasurer of the John A. Lowell Bank Note Company. He had been a resident of this city for 45 years. Mr. Lowell's funeral service was held on August 6th at Mount Auburn crematory chapel, Rev. Edward T. Sullivan officiated. He is survived by his widow, Mrs. Eva E. Lowell.

LENA PHILLIPS

Mrs. Lena Phillips of 372 Waltham street, wife of Albert W. Phillips, died on August 6. She was born in North Adams 51 years ago and had resided in this city for 16 years. She is survived by her husband; a son, Parker N. Phillips; her mother, Mrs. Edie Rich, all of West Newton; and a sister, Mrs. Ethel Rich of Boston. Her funeral will be held today. A Christian Science service will be held at her late home at 1 p. m. and the committal service will be at Cedar Grove Cemetery, Marshfield at 3:30.

HENRY R. VIETS

Henry R. Viets, for many years a resident of Hunnewell ave., Newton, died on August 4th at his home in Hingham. He was born in East Granby, Connecticut, 79 years ago and he had been a member of the firm of Viets Brothers, wool merchants of Boston. His funeral was held on Tuesday and burial was at Lynn. He is survived by his widow, Mrs. Annie (Tufts) Viets; a daughter, Marion Viets; and two sons, Gardner T. Viets and Dr. Henry R. Viets.

DR. T. M. DOWSLEY

Dr. Thomas M. Dowsley of 176 Warren st., Newton Centre, died on Aug. 6. He was born in St. John's, N. F., 70 years ago, and had resided in this city for 18 years. He formerly resided in Chestnut Hill. He had practiced dentistry in Boston for over 30 years. His funeral service was held at Sacred Heart Church on Thursday and burial was in Newton Cemetery. He is survived by his widow, Mrs. Lillian (Thayer) Dowsley and two daughters, Norma and Helen Dowsley.

HANNAH E. BURKE

Hannah E. Burke of 37 Channing st., Newton, died on August 7. She was born in Watertown 74 years ago, the daughter of Michael and Julia (Leary) Burke. She had been a resident of Newton for 70 years. She is survived by two sisters, Mary A. and Gertrude A. Burke of Newton; and two brothers, Edward J. Burke of Newton and Bernard F. Burke, former chief of police, of West Newton. Her funeral service was held this morning at Our Lady's Church.

Would Improve Rumford Ave. at Public Expense

At the meeting of the Board of Aldermen on Monday night a hearing was held on the matter of improving and accepting Rumford ave. at the expense of the taxpayers of Newton and without cost to owners of abutting land. Rumford ave. is a short street that runs from the junction of River and Lexington sts., West Newton, across a swamp adjoining the Charles River to the Waltham line. It is a narrow roadway used for years by the Middlesex & Boston Street Railway as a part of the routes for its electric car line from Newton to Auburndale. There are no residences on it on the Newton side, and little tax revenue is derived from the few small business properties located on it.

Recently a petition was circulated to get signatures asking the City of Newton to improve and accept the street as it has become dangerous for the M & B buses which travel over it. One of those prominent in circulating this petition is an employee of the M & B company. At the hearing on Monday night the only person to speak in favor of the proposal was a woman who stated that she is treasurer of the Waltham Paint & Varnish Company, located on Rumford ave. She stated that trucks coming to that factory use the road and it is in a dangerous condition at present.

Alderman Temperley objected to the street being improved at the expense of taxpayers. He said there are no residences on the street and he asked where the petitioners for this free street improvement were?

President Gordon of the Aldermen explained that the recommendation for the improvement came from Mayor Weeks.

Phillips Byfield Made Constable

Phillips Byfield, of 198 Lowell avenue, Newtonville, a well known real estate and insurance broker was appointed a constable on Monday by Mayor Weeks. Mr. Byfield succeeds to the vacancy caused by the death recently of William Sweet.

Newton Knights To Hold Annual Outing

Newton Council and Brookline Council, Knights of Columbus will hold a joint outing on Sunday, August 18, 1935, at Assabet Country Club, Stow, Mass. Dinner will be served at one o'clock. A beautiful silver cup will be awarded to the winning baseball team. There will be contests between the two councils in golf, tennis, horseshoes, swimming, and in racing for the younger members.

The members and their friends will assemble, and leave in a group, from the parking space near the Newton Fire Station, at 10:00 a. m.

John Mahan, Chairman, is assisted by a large committee, which includes Austin Morgan, John Monahan, Thomas Waters, Joseph Valente, Martin Conroy, Thomas Foley, Kerrins Conroy, Raymond Keegan, Placid Sampson, James Messer, Thomas Quinn, Thomas Noone, and Andrew Schwer.

Auburndale Girl In Auto Accident

Helen Derron, 21, of 138 Central street, Auburndale, was injured early last Friday morning when the automobile in which she was riding hit a tree near Alton Bay, New Hampshires. She received a bad cut on her head and cuts and bruises on her body and limbs. Martin Adams, 24, of Brookline, driver of the car in which Miss Derron was riding, was killed. He graduated from Dartmouth in 1934. Miss Derron had been stopping with friends near Alton and was returning from a dance when the fatal accident occurred.

Newton Receives WPA Funds

Last Saturday a belated allotment of funds was authorized for WPA projects in Newton during August. This permitted some work and pay to be given to the 600 Newton men and women who have been dependent on ERA relief. The funds allocated to Newton for the month of August total \$40,000, an increase of \$4000 over July.

"Human Icicle" Is Grandson of Late Newton City Clerk

Stephen Simkhovitch who has gained much publicity the past week as the volunteer in an experiment to freeze a human being by Dr. Ralph Willard, a research chemist of Hollywood, California, is a grandson of Colonel Isaac F. Kingsbury who was city clerk of Newton for 28 years. According to the ballyhoo of Willard, Simkhovitch would be given an anesthetic, frozen, kept for some time in a temperature 30 degrees below zero, and then, if the experiment were successful, revived. The purpose of the experiment is to devise a way to overcome tuberculosis and cancer. Willard states he has been experimenting on monkeys, dogs and guinea pigs for several years.

Simkhovitch, aged 34, is the son of Mary (Kingsbury) Simkhovitch who was born in Chestnut Hill in 1867. She was the daughter of Colonel Kingsbury and Laura (Holmes) Kingsbury. She married Professor Vladimir Simkhovitch of Columbia University in 1899. She is a graduate of Boston University and did social service work in New York before her marriage.

Slight Fire In Newtonville Store

An overheated belt on a motor operating the refrigerating apparatus in the Paramount Fruit Company, 319 Walnut street, Newtonville caused an alarm at 12:58 Sunday noon. The firemen found it necessary to force a door at the store to gain entrance. The damage was small.

About 10 a.m. Sunday Engine 1 responded to a still alarm to extinguish a slight fire in the cellar of the house at 6 Jamieson road, Newton. The new incinerator at Newton Highlands had not ended fires at the North street dump, Newtonville. Firemen were sent to the dump Saturday afternoon when smoke from it became a nuisance. They also spent several hours at this dump on Sunday.

Waban Woman Leaves \$50,000

The will of the late Mrs. Abbie S. Conant of Waban was filed on Tuesday at Middlesex Probate court. The value of the estate was estimated at about \$50,000. The legatees include Virginia A. Conant and Mrs. Dalia Stanley of this city, daughters; Herbert W. Conant of Wellesley, a son; and grandchildren.

Four Local Residents Given B. U. Degrees

Nearly 200 students received their degrees at the annual Commencement program held as a climax to the 21st annual Boston University Summer Session last Saturday. The graduation took place at 1 o'clock in Jacob Sleeper Hall at the University, with Dr. Daniel L. Marsh, president, delivering the address.

Four Newton residents received degrees.

Eileen Frances Sheehan, 715 Commonwealth ave., Newton Center, was awarded the degree of Bachelor of Science in Education in the school of education.

Ruth Stebbins Swanson, 179 Crafts st., Newtonville, was awarded the degree of Bachelor of Science in Education in the school of education.

Nevart Najarian, B.S. in Ed. 362 Wolcott st., Auburndale, received the degree of Master of Arts in the Graduate School.

John C. Rosenfeld, 26 Dorset rd., Waban, was given the degree of Bachelor of Laws in the school of law.

Survey of Traffic At Newton Hlds.

At the request of certain residents of Newton Highlands Mayor Weeks has had the police department make an investigation of traffic conditions at the intersection of Walnut and Centre streets. Demands have been made that a traffic signal be located at this place because of accidents and near accidents there. Traffic signals cannot be installed unless the State Department of Public Works approves, and this department will not give its approval unless the traffic is sufficiently heavy to warrant the State officials, in their judgment, to authorize the installation. As Walnut street does not cross the turnpike, the contention is made that there is not enough traffic crossing Centre street to warrant the signal.

Fell on Sidewalk City Pays \$750

At the special meeting of the Board of Aldermen on Monday night it was voted to appropriate \$750 to the Law Department to pay a claim brought by Catherine M. Rattigan of Atkins st., Brighton. On November 28, 1934, the Rattigan woman fell on a defective sidewalk on Pembroke st., near Tremont st. In her claim against the city she stated that she received a concussion and other injuries.

Hartmann Speech On Oak Hill School Site

Strong Argument Against The Choice of Murphy Site

Arnold Hartmann of Rosalie rd., Oak Hill, read a detailed argument giving reasons why the selection of the Murphy property for a school and playground will be unwise and of far less advantage to the future of the district than the area discussed at the hearing on July 15th.

Mr. Hartmann said: It is quite evident from the interest shown here tonight that the residents of the Oak Hill District want a school NOW. In their anxiety to get it they seem willing to have the school located ANYWHERE in the district—just so long as they get it NOW.

I think there is more involved here than just getting a school. A most important consideration is that the school shall be located centrally in the district so that it will serve the community efficiently for 15 or 20 years. In deciding upon a site this must be the main consideration—that it is so situated that it will serve the community efficiently for 15 to 20 years.

I am here to protest against the taking of the Murphy site as it does not meet the needs of the community at the present time and it will not meet its needs in the future.

The site indicated for the school and playground comprises about 6 acres set back about 500 feet from Dedham street, at the top of a knoll. The location for the school would be fine, giving it a commanding view of the country, but behind the school, where it is proposed to have the playground, the land slopes down hill toward a pond and swamp and there is a difference in grade from the front to the back of the playground of from 6 to 8 feet and it could not be used for play purposes without considerable expense for grading and filling. The area for playground is much too small for present day needs and there is no recreation area for the community.

Location—The Murphy land is on the wrong side of Dedham street for a suitable location for a school. It is on the south side of the street. The census of children of school age, 4-11 years who live in the district today shows 22 living on the south side of Dedham street and 146 living on the north side.

To enable the 40 children from the Charlestown district and Winchester street to walk to this school it will be necessary to extend Parker st. through to Winchester st., a distance of 2200 feet. This will cut through the Volante farm back of the Murphy site and across the Charles River Country Club fairway near the 2nd green or through the neighboring Jacobs property. The plan shows a street near the entrance of the Charles River Country Club, beginning at Dedham street, running south 500 feet and then west in front of the school lot 400 feet, making a total of 900 feet of street to be built, or a grand total of 3,100 feet at say \$15 per foot, will have to be built at a cost of about \$46,500 before the site can be used fully.

Dedham street will soon become a main traffic artery and probably will carry as much traffic as many of the major highways in Newton. Baker street is now being widened as an

(Continued on Page 4)

Majority of Oak Hill People Favor School On Adjoining Hurley-Badger Land

Proposal To Place School On Murphy Property Less Popular At Hearing On This Plan

For the second time in five weeks a large delegation of Oak Hill residents came to City Hall last Monday night to attend a public hearing on the matter of a site for the proposed new school at Oak Hill. On July 15 about 75 persons residing in that section attended a hearing held before the Board of Aldermen and heard arguments offered in favor of the acceptance of donations of 40 acres of land and the taking by the city by right of eminent domain of 7 additional acres of land for a school site, playground, parking space and streets which would create a large civic centre at Oak Hill. The sentiment of the Oak Hill folks at that hearing was preponderantly in favor of the plan; 60 voting for it and 2 opposing. One of the latter is not a resident of Oak Hill but owns property adjacent.

Last Monday night at least 75 Oak Hill residents again came to City Hall to attend a hearing before the Board of Aldermen on another proposition which had suddenly been advanced: a site for a school and playground on land which had been owned for years by Timothy Murphy and known as Hyacre Farm, but, which for the past two years or so has been assessed in the name of James Murley of Newton Centre. This property contains about 30 acres of land in addition to a house and large barn.

When President Gordon of the Aldermen announced the hearing on the Oak Hill school site, Arnold Hartmann of Rosalie road, Oak Hill, asked for details regarding the proposal to shift the school site to the Murphy property. Gordon replied that Chairman of the Public Works Committee of the Aldermen, (Hutchinson) was not present, but the acting chairman, Alderman Temperley might be able to give Mr. Hartmann the information. Alderman Temperley said: "We don't know who the petitioners for this plan are. I know nothing about it."

George A. Benway of 529 Parker st., favored the selection of the Murphy site for the new school. He said that he had opposed a new school at Oak Hill at the July 15th hearing, but realizing he was quite in the minority, he had changed his mind. He said the Murphy land is high and slightly, and the site proposed at the July 15th hearing is low land and damp. Mrs. Mona Lacy of 261 Nahanton st., said she prefers the Murphy site because it is more healthy and higher. John Finelli of Newtonville said he appeared as attorney for Peter Volante of 391 Dedham st. who owns 30 acres of land adjoining the Murphy property. Finelli said Volante favors the Murphy site because it has all the advantages for a school site, being centrally located and on a high elevation.

Henry S. C. Cummings, Secretary of the Oak Hill Village Improvement Association, speaking as an individual, favored the choice of the Murphy site. He said that a school is needed at once in Oak Hill and that because of the controversy over the selection of a site, the association had not taken sides.

Arnold Hartmann read a lengthy argument against the Murphy site which is printed in full in an adjoining column. James P. Esty of 961 Dedham street, Oak Hill, opposed the Murphy site. He said that while most Oak Hill residents want a school to be built at once, they are sorry to see another proposal brought in to complicate matters. He said the Hurley-Badger-Hartmann site provides a large level playground area, and that there will be much traffic along Dedham street in the coming years. Frank H.

Shaw of 472 Dedham street said he was sorry to see the Murphy proposition come in. He said there is much more than a school site to be considered in the Oak Hill project.

Anna Barry of Brookline asked where it is proposed to locate the school house on the area which includes the 40 acres donated by Hurley, Badger, Hartmann and others? Hartmann replied—"On your land." Miss Barry answered—"This is news to me. I have not contributed any land." Thomas Fallon of Olde Felde Road, Oak Hill, said that he favored the use of the Hurley-Badger-Hartmann site at the July 15th hearing and still strongly favors it. He stated it would be good business for the city to accept this site and he could not understand when persons are willing to donate 40 acres of land, why a movement is on foot to reject this offer and serious consideration given to the purchase of a much smaller area for \$30,000. He could not see the reason for selecting a site out of the centre of the district.

Alderman Guzzi called attention to the fact that the donations of the 40 acres of land will involve the expenditure by the city of a large amount of money in drainage, street building and other matters. Fallon asked—"Will it exceed \$100,000?" Guzzi replied that he did not know. Fallon said that 70% of the cost could be obtained from the WPA. Timothy Murphy asked Fallon where he got the information that the cost to the city if they selected his site would be \$30,000? Murphy said the cost would be nearer \$10,000 and that he would give the city a couple of acres of land. Murphy said the Hurley-Hartmann site is cold, boggy and malarial. Mrs. J. J. Gorman of Hagen road answered Murphy by saying that if the meadow land he referred to is so boggy and a menace, as he alleged, it should be improved if a school is to be erected anywhere in the vicinity. She said the Murphy site will not provide the needed playground for the Oak Hill district.

Miss Gabinet Hurley of Hagen road said she could quote figures as to the alleged costs of the various projects, but she would do the unusual thing and quote poetry. She said—"A dreamer lives forever, but a teller dies in a day." She asked the aldermen not only to be practical men, guarding the interests of citizens, but also to be men of vision and build for the future as did the cathedral builders of past centuries. She argued that by accepting the gift of the 40 acres proposed at the July 15th hearing, a school site will be provided, a large, centrally located playground, and the mosquito nuisance at Oak Hill will be largely abolished. Miss Hurley said if she were selfish, it would be to the financial advantage of her family to favor the Murphy site because their land could then be developed for home sites with a school nearby. She said that inasmuch as she had worked on the big project for so many years, and had advocated it so much, she did not want to abandon it now.

A showing of hands was taken to ascertain the number of Oak Hill residents or property owners present who favored the Hurley-Badger-Hartmann site, and the number who favored the Murphy site. Thirty-eight favored the former and 20 the latter.

Miss Anna Barry asked President Gordon how the city could take her land. Gordon answered by right of eminent domain. Miss Barry again

THE WEEK IN NEWTON SPORTS

By JACK MORRIS

NEWTON TWI-LEAGUE SEASON NEARS END

A few important games remain to be played to determine the final standing of the teams in the Newton Twi League. Catholic Club eked out two more victories in the past week, beating Y. M. C. A. 2-1 in a well played game in which "Ace" Bagley pitching for the defeated "Y" held the edge over "Red" Joyce and defeating the Town Team 4-3 in another well played contest.

Indications point to the largest attendance in recent years at the replay of the Catholic Club City Club game Wednesday night at West Newton common. Under League rules this being the replay of a previously played game the rival managers will split the purse 50-50. This is to be played August 21st, Wednesday, at 6:00 p. m.

The "Aces" won a questionable decision over the Scholastics Wednesday at High School field and although this game is recorded in this week's standing as a victory for Newton A. C. Umpire Crowley's report will have considerable bearing on whether or not the game will have to be replayed.

West Newton A. C. are now in fourth place with a chance to tie for third if they win their remaining games and Newton A. C. loses a couple.

Sunday, August 18

Auburndale B. B. C. vs. City Club at Auburndale.

Monday, August 19

City Club vs West Newton A. C. at Highlands.

Tuesday, August 20

Benefit Game For Local Twi Ball Player

On Sunday afternoon, Aug. 18, 1935, at Cabot Park, Newton, a benefit game will be played between the Newton A. C. and a combination of Newton Twi League stars.

Receipts of this game will be given to Fred Bianchi, former Silver Lake A. C. player who unfortunately received a broken hand while playing in a Newton Twi League game, about a month ago.

FERGUSON UNBEATABLE IN BOSTON REGATTA

Driving his blue Bombshell over the Charles River lower basin course at near-record speeds, Clinton Ferguson of Waban virtually and actually monopolized the amateur program of Boston's premier outboard motorboat regatta last Saturday and Sunday. The 18-year old Wabanite won three firsts and one second out of four classes, and took away the expensive high point prize for amateurs, donated to the meet by his father, Commodore Stanley W. Ferguson of the Central New England Regatta Association.

Ferguson had a perfect record in Saturday's races, winning two heats in Class A and two in Class C. In Class A, the Bombshell led thirteen boats over the line in the first heat in 7m, 32 2-5s, making a speed of 39.53 MPH, somewhat faster than the professionals were able to do. He then led both Class C heats, going at an average speed of 47.80 in the first and faster of the two.

After the first day of racing, Ferguson led the field with 1600 points by virtue of his four straight victories, and might have stayed at home on Sunday and still won the high point trophy. As a matter of fact, Clint was barely nosed out of victory in Class B on that day, and won the Class F trophy on time. He took 600 points with a pair of seconds in Class B, while Lew Franco of New York had 625 points after winning once and placing third.

The Waban driver showed rare judgment when the Class F heats were run, as he retained his light motor instead of changing to the heavier and more powerful F type, knowing that he could control the light outfit easier over the choppy course. In the first heat Clinton won with a speed of 50.05 MPH, a new record for the type of motor he used, but disallowed because the race was for F type motors. He tied for the trophy in Class F with Joel Thorne of New Rochelle, N. Y., but won the prize with the best elapsed time. This last victory brought his total for the two-day amateur meet to 2900 points, while Thorne had 1561 in second and Lew Cardie of East Islip, L. I., last year's winner of the Chicago gold cup regatta, was humbled to third place, with 992 points.

On the Paygrounds

Read Fund Picnic

The Read Fund picnic, at which children from parts of Ward 1 and 7 will get a day of festivity at the behest of their late benefactor, will be held this year on Saturday, August 24 from 2 to 5 P. M. Games and races, folk dancing and tap dancing by playground children, a handwork exhibition, professional entertainment and picnicking are all on the day's schedule for these children who happen to live in the right neighborhood.

Dr. Wm. Truitt Foster, chairman of the board of trustees of the Read Fund, will very likely be on hand to award the prizes for various competitions. Tickets will be distributed to all children over five and under sixteen who live in the prescribed area, between 10 and 12 A. M. and between 2 and 4:30 P. M. on Monday, August 19, or any day following excepting Saturday, the day of the picnic. Ticket distribution will also take place from 6:30 to 7:30 Wednesday and Thursday evenings, and until 5 P. M. on Friday. About 750 children will be able to share in the fun.

Crystal Lake Yacht Races

The playground department got the model yacht builders of the city playgrounds together last Wednesday, and more than seventy boys were on hand. In the 18-inch class, in which the boats were built entirely on the playgrounds of the city, the entry of Arvin Teschner, Burr Playground, was awarded the silver cup for first place. John Segal of Burr got second prize, a baseball glove, and B. Angelone of Thompsonville got the silver pencil for the third best boat.

A "Free-for-all" class, included all boats not built by their owners, or not built at a city playground, and the three best skippers in this class were Junior Cummings, Weeks' Jr. High playground, Leo Thomas of Burr, and Leonard Ayres of Lower Falls. The same prizes were awarded as in the 18-inch class.

Four Field Days

Next week will be a week of Field Days for the playgrounds. There are four districts in the city, each of which will hold its own celebration to wind up the playground activities for the year, and the first four days of the week will each see a big day for one of the four districts.

The district Field Day will be the occasion for a display of the handwork accomplished by playground children during the current season. Games and races will fill out the program. John Proctor of the playground department says that his handwork pupils use 250 square feet of plywood in the short summer season, and that the children accomplish some surprising results.

Russian Gems in London

While the tragic Russian jewels attracted much attention when displayed recently in London, they did not specially appeal to the British taste. The 2,000 gems, once the property of the czar and czarina, were declared to be magnificent and elaborate, but of a heavy nature which went out of style after the death of Queen Victoria.

A Universal Curse

Poison Ivy has been discovered in practically every part of the United States except on high mountains and deserts.

JONES TESTS MARTIN IN CITY TOURNAMENT

In the most important match yet played in the city tennis tournament, Don Martin defeated Henry Jones 6-2, 1-6, 6-1 Monday morning on the Hunnewell Club courts. Jones, seeded fourth, lost a precious opportunity to upset the defending champion and top-seeded player in the tournament when he developed a bad case of racket trouble at the beginning of the third set, giving Martin a chance to recover the confidence which had completely deserted him in the second set.

With the score at one-all in the deciding set, Jones had the bad luck to break a string, and was forced to use another racket. He vacillated between his two rackets for several games, twice lost his own service at love, and won only six points in the next five games.

Jones took the third and fourth games in the first set, but Martin out-steadied him and won the next four games and the set at 6-2. Martin opened the second set by serving a love game, then lost six straight games and the set, taking just three points in the following four games and five in the last two. Martin won the second game of the third set to break the spell, then went on to sweep the remaining games as Jones made frequent errors.

Babcock Upsets Paul Rich

The first upset of the city tournament came during the week as Willard Babcock eliminated Paul Rich, Newton High athlete, sixth seeded, by the comfortable margin of 6-4, 6-3. Harry Sylvester, second-seeded, put out the seventh seeded Ed Strum in a quarter-final by 7-5, 6-2, to join Martin in the semi-final.

Don Martin's next match will be in the semi-final round against the winner of the Babcock-Kitchin meeting. Mal Clarke's quarter-final will be against the winner between Ridgeway and Richard DeBourke, and the winner will play Sylvester.

Third Round: Mal Clarke d. Gordon Naylor 6-0, 6-2; W. Babcock d. Paul Rich 6-4, 6-3. Quarter-final round: Martin d. Jones 6-2, 1-6, 6-1; Sylvester d. Strum 7-5, 6-2.

DOUBLE FAULTS

The National doubles, starting tomorrow at Longwood, will hold the center of the sports spotlight next week. All but three or four of the 20 top-ranking players of the country will be on hand, including the United States Davis Cup team, as well as several good foreign players.

Wilmer Allison and John Van Ryn have been seeded first, followed by Budge and Mako, Parker and Shields, Culley and Hines, while the international flavor essential to any big tournament is provided by Menzel, Brugnon, Maier, Cheng, and others. Tennis enthusiasts will pay only forty cents on any of the first three days of the tournament, which is a great reduction from the good old days, and bound to make the event pay for itself.

The match between Donald Martin and Henry Jones in the fifth round of the city tournament, in which Martin came near losing his city championship, was played very secretly, and the only witness, until the GRA-PHIC sportswriter happened on the Newton High tennis player who was taking a vacation from New York.

Martin actually seemed due to lose the match, until the point at which Jones broke his racket and was disconcerted by the subsequent change of weapons. The city champion has never had so close a call in this tournament.

Henry Jones, who has been taking his tennis seriously only four years, carries a strange assortment of unorthodox strokes. The most characteristic is a troublesome reverse service which he was forced to develop after he threw his arm out playing baseball. He is steadier this year than before, and covers the court well.

Elena Ciccone of Newton Centre added three more tennis championships to her impressive collection last week. At the Tedesco Country Club in Swampscott, Elena defeated Ruth Aseltine of Winchester in the North Shore junior girls' championship by 6-0, 6-1. Ruth and Elena then paired in the girls' doubles, defeating Dorothy Sprague and Jean Carpenter 6-2, 6-3 in a semi-final, and winning the championship round 6-0, 6-4 from Dorothy Bruno and Frances Keyes. Paired with Willard Babcock in the mixed doubles, Elena lost out in the semi-final to Ames Schoaling and Emily Wallace by 6-4, 6-3.

Elena met defeat in the Eastern Yacht Club's invitation women's singles on Sunday, losing in straight sets to Sylvia Hatch of Winchester, but gained some compensation by joining forces with Polly Winslow of Marblehead to win the women's doubles crown from the Winchester pair, Ruth Aseltine and Sylvia Hatch, 6-2, 6-4.

House of "Thousand Fears"

A house is still standing at one corner of the marketplace at Rotterdam, Holland, which bears the inscription, "The House of a Thousand Fears." The story is told that in 1572, when the Spaniards sacked the city, having gained admission by treachery, an order was issued not to allow a single man, woman or child to escape the general massacre. In this house, it is said, 1,000 people took refuge, and to mislead the Spanish soldiers, the master took a kid, killed it, and smeared the floor with its blood. Then, throwing the furniture into confusion, the people hid themselves in the upper rooms, in the cellar, and in the garret. The soldiers entered, but concluding that their comrades had done the work before them, passed on, and the people, "shivering with a thousand fears," at last made their escape.

NEWTON HORSESHOE PITCHER'S LEAGUE

At a meeting of the Newton Horseshoe Pitcher's League held Wednesday night, August 14th, at the Cabot Playground Recreation Building arrangements for the annual City singles championship were completed. There will be an entry fee of 25 cents and any resident of the city is eligible to compete.

The first qualifying meet will be held at the Cabot courts, Sunday, August 18th, from 2 to 6 p. m. Each contestant will throw 50 shoes and the 16 having the highest scores will qualify. Only shoes within six inches of the stake or nearer will count. The second qualifying round will be held Wednesday evening at 7 o'clock at Cabot Courts. In event of further qualifying being necessary because of weather conditions, Friday night at the same courts will be reserved.

The qualifying committee Mr. Percy Wiles of Charlesbank, Mr. Burns of Wetherell and Mr. Hornsey of the Norwood A. C. will have charge of all qualifying matches.

Sunday, August 25th, has been selected for the final matches which will be held at Cabot Courts starting at 2 o'clock.

Victory, Lower Falls, Auburndale and Levi Warren have been eliminated from the team championships and eight teams are still in the running for the championship cup. Charlesbank is in the lead having scored 36 match points to opponents 14 and is closely followed by Rubber Mill 31-14 and Wetherell 30-15.

First Mosaic Ceilings

The ceilings in the Department of Justice building were made by placing particles of colored sand in plastic concrete. These are the first mosaic ceilings ever designed in architectural concrete. The seven floors of the building comprise about 25 acres. Within the building are about two miles of corridors, ten principal stairways and 29 elevators. On the seventh floor of the Justice building may be found the world's finest crime laboratory. Here, keeping tab on the criminal population of the United States, Uncle Sam maintains rooms for files of more than 4,000,000 fingerprints.

Sensitive Recording Instrument

An instrument so sensitive that it will record the light from an ordinary candle 100 miles away, is in use at the University of Wisconsin.

PLAYGROUND JUNIORS WIN NORWOOD MATCH

Two tennis teams selected from Newton playgrounds went to Norwood last Friday and won four matches out of five from Norwood boys and girls. The match was restricted to players eighteen and under. The return match is being played today on the Newton High courts.

Newton boys 4, Norwood 1—Singles: Paul Rich (Newton) d. P. Grokett (Norwood), 6-1, 6-2; Kersam Chobanian (Newton) d. A. Elwell (Norwood), 3-6, 6-0, 6-2; E. Miller (Norwood) d. Walter Michael (Newton), 6-3, 6-4, 6-1.

Doubles: Rich and Chobanian (Newton) d. Grokett and Elwell 6-3, 6-2; Leo Geary and Walter Michael (Newton) d. H. Baker and R. Rathbun 6-4, 6-1.

Newton girls—singles: Peggy Joyce (Newton) d. Sally Acton (Norwood) 6-0, 6-1; Valia Ciccone (Newton) d. Charlotte Kelly (Norwood) 6-2, 6-1; Betty Tobey (Newton) d. Jeanne Le-maire (Norwood) 6-3, 4-6, 6-3.

Doubles: Valia Ciccone and Peggy Joyce (Newton) d. Charlotte Kelly and Sally Acton 6-2, 6-0; Jane and Irene Pendergast d. Lydia and Gilda Ciccone (Newton) 6-3, 6-2.

Vegetation in Mountains

On ice-covered mountains it is impossible for plants to grow, except on the moraines of the glaciers or on slopes that are free of snow for a brief period in summer. In northern Siberia plants are known to survive temperatures as low as 76 below zero. Green plants must expose their chlorophyll or green coloring matter to the light, hence most water plants grow near the surface. In the case of the large marine kelps anchored in deep water, their working bodies are floated up toward the light by air bladders.

"Smokebush" Is Deceiving

In some desert canyons of our country is found what is commonly called the "smokebush." Travelers are often deceived by the bluish-green branches which, from a distance, are easily mistaken for the smoke of a camp fire. A somewhat similar bush is found in New Zealand but in this case the bush causes the distant barren mountain-side to appear dotted with grazing sheep. It is the hausta plant, better known to the natives as the "vegetable sheep."

Recent Weddings

SQUIRES—PARKER

Miss Marguerite Burnett Parker, daughter of Dr. and Mrs. Charles S. Parker was married Aug. 5th to Dr. Alden Wood Squires of Ann Arbor, Michigan. The Reverend Benjamin Roberts officiated at the ceremony which took place at the Newton Highlands Congregational Church. The bride was given in marriage by her father. A reception followed at the Walnut street home of the bride's parents.

Miss Helen R. Wilcox of New Bedford was the maid of honor and a younger sister, Miss Mary S. Parker, was the bridesmaid. The flower girl was little Miss Marjorie Everett of Providence, R. I. The best man was Dr. Frank Cutts of Providence. The ushers were Charles C. Parker, brother of the bride, who acted as head usher, Dr. Randolph Piper of Concord, Mass., Dr. Kenneth Burton and Dr. Arthur Hardy, both of Providence, R. I.
The bride was graduated from the Chamberlain School and later studied interior decorating with Mrs. Clifford Ross of Beacon street, Boston. Dr. Squires was graduated from the University of North Dakota and received his doctor's degree from the Harvard Medical School in 1932. He served his internship in Providence and is now a member of the faculty of the Medical School of the University of Michigan.

He is the son of Mrs. Vernon T. Squires of Grand Forks, N. D. and the late Mr. Squires. Dr. Squires and his bride will spend the month of August at Lake Julia in Minnesota and in September will reside at Ann Arbor, Michigan.

SMITH—MOYNIHAN

Mr. and Mrs. Joseph Cornelius Moynihan of West Newton announce the marriage of their daughter Cornelia Emily to Mr. Sidney Kendall Smith of Lynn on Tuesday the twenty-eighth of May at Whitefield, New Hampshire by Rev. Max A. Kapp of Fitchburg. Mrs. Smith had two attendants, a girlhood friend, Mrs. Dorothy Filene Kapp, wife of Rev. Kapp and Mrs. Richard Morse of Lancaster, New Hampshire.
The future address of the couple will be 31 Keldred road, Waban after September 1st.

Rotarians Hear Talk On Road To Recovery

Mr. Frank L. Richardson, of the Newton Trust Company and the local Rotary Club, was the speaker at Monday's luncheon at the Braeburn Club; and his subject was "On the Road to Recovery or to State Socialism?"

Appropriately enough his talk closely supplemented the remarks last week by James Gallagher, District Governor of Kiwanis. Mr. Gallagher had emphasized the necessity for a keen sense of personal responsibility on the part of every Rotarian and Kiwanian in his relations with other individuals in the community and Mr. Richardson no less strongly pleaded for an equally keen sense of responsibility on the part of each member of a service club in the matter of his relations with the communities of his city, state, and nation.

Mr. Richardson urged the necessity for every member to become well informed on local and national issues so that he could make his opinion known, as a matter of civic duty, to his representatives on Beacon Hill and Washington. In perfect accord with the speaker of last week, Mr. Richardson pointed out that this was not a matter of club action through formal resolutions or statements but was strictly something in which each member should feel a personal and individual responsibility and take individual action, the club serving, through its regular meetings, simply as a place where the member might obtain intelligent and reliable information.

In treating the economic aspects of his subject, Mr. Richardson conceived of State Socialism as that condition in which, when carried to its ultimate extent, the State provides for everyone from birth to death; and if the State is to have this vast responsibility it is a natural corollary that it must have the power to commandeer from each and every person his personal services, indicating to each what he should do and when and how he should do it. In other words, the price of State Socialism is the sacrifice of personal liberty.

It does not seem that we are headed towards anything of this kind in spite of what seems to many persons the very radical nature of much of the recent and proposed legislation. Rather it would seem that such of this legislation as has been passed or as seems likely to pass is, even in the face of the mistakes and blunders incident to every human undertaking, really working out for the protection of capital and of the individual. To illustrate this fact, Mr. Richardson discussed at some length the legislation proposed by Carter Glass for the strengthening of the Federal Reserve System.

Considering the present panic in the light of history, it seems to have passed through many of the phases which have been common to all panics in this country since 1840; causes have been similar in many respects; there have been similar disturbances in the matter of unemployment and strikes and similar unintelligent and extravagant and radical proposals for ending the depression; and today we are passing many of the landmarks on the road to recovery which history reveals as common to every economic upset.

In short, we seem now to be definitely on the Road to Recovery and that road is by no means leading us into State Socialism, but rather on to a greater security for capital and for the individual. In the past, a great aid to recovery has been the activities and hard work of competent legislators and in the present trouble it is the duty of every good citizen, and particularly of Rotarians, to aid these representatives with his best judgment and with his encouragement and thus to help offset the vicious power of minorities and radicals.

Recent Engagements

Mrs. Elena G. Bohn of Newtonville announces the engagement of her daughter, Miss Marcia Hallam Bohn, to Alexander Evans Cochran, son of Mr. and Mrs. Alexander W. Cochran of Indianapolis.

Miss Bohn attended Ohio Wesleyan University and was graduated from Tufts College in 1935. She is a member of Kappa Alpha Theta. Mr. Cochran was graduated from Hanover College in Madison, Indiana, with the class of 1929. He is a member of Beta Theta Pi.

Miss Bohn and Mr. Cochran will be married in Terre Haute, Indiana, Wednesday, August 28. They will make their home in Indianapolis where Mr. Cochran represents the New York Life Insurance Company.

Mr. and Mrs. D. S. MacFarlane of Aberdeen street, Newton Highlands, announce the engagement of their niece A. Veda Isabella Coltart to Mr. Edward Ryder of Boston.

Mr. and Mrs. Joel Martin Barnes of Newton Centre have announced the engagement of their daughter, Miss Betty Alden Barnes to Mr. William Harry Slade, Jr., son of Mrs. William Harry Slade and the late Mr. Slade also of Newton Centre. Miss Barnes graduated from New Jersey College while Mr. Slade attended Massachusetts Institute of Technology. He is a member of the Theta Xi Fraternity.

REAL ESTATE NEWS

Proudly rearing its head in a setting of sparkling white birch trees and murmuring pines on high ground overlooking the Old Quinobeguin Indian trail and the Charles River at 115 Devonshire rd., Waban, stands a stately modern home of authentic colonial design on 15,435 square feet of land valued at \$11,700 by the Newton assessors sold last week by James R. Warren to Edford A. Seelye through the office of Doris Carley.

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip — to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

FORD V-8

Newton Health Report For July

The report of the Newton Health Department for the month of July shows that 36 deaths occurred in the city during that period; 18 males and 18 females. Causes of deaths included: pulmonary tuberculosis, 2; cancer, 6; cerebral hemorrhage, 5; heart diseases, 8; arteriosclerosis, 4; pneumonia, 2; automobile accident, 1. Communicable diseases reported during the month included: scarlet fever, 6 cases; measles, 18; German measles, 5; mumps, 4; whooping cough, 19; chicken pox, 1; pulmonary tuberculosis, 3. Newton was fortunate during July in that no cases of infantile paralysis were reported in this city. No reports of this dreaded disease have been reported this month. Two suspicious cases were investigated but were found not to be poliomyelitis.

More Being Taught To Swim By Red Cross

The most recent report of the work being done by the Red Cross at Crystal Lake for the week ending August 10 evidences the continued interest in such work. During this period there were 47 non-swimmers given instruction; 21 given beginners' swimming tests; 14 swimmers' tests; 7 took junior life-saving tests; and 3 senior life-saving tests; in addition to over 100 interested in special instruction in diving and other water work.

Besides the results being accomplished at Crystal Lake, there have been five junior life savers passed at Camp F. A. Day, and a number of beginners and swimmers passing their tests at Camp Mary Day.

Facilities available at Crystal Lake are for the use of all residents of Newton, old and young, and Newton Chapter hopes that the community will continue to avail itself of these facilities.

Fined \$25 For Reckless Driving

Daniel W. Gadsden of 23 Gerard court, West Newton was fined \$25 in the Newton court on Wednesday morning for driving a car so as to endanger the lives and safety of the public. On the night of August 2nd a car driven by Gadsden hit a car driven by Harry Leonard of Oak square avenue, Brighton. The collision occurred on Nonantum road, between Newton and Faneuil. Sergeant Dominick O'Connor of the Metropolitan police was the complainant. Leonard testified that as he was turning his car around on Nonantum road the car driven by Gadsden came along at a high rate of speed and crashed into his car.

Liturgical Music Course at Sacred Heart Academy

An extension course in Liturgical Music will be given at the Sacred Heart Academy, Centre street, Newton from August 16 to August 31. The classes will be under the supervision of Mother G. Stevens, director of the school, assisted by members of the faculty. Courses will be given in liturgical music, Gregorian chant, and accompaniment according to the principles of Solesmes. The course is expected to benefit church organists, choir masters and teachers in charge of school music. It is under the auspices of the Flux School of Liturgical Music of the College of the Sacred Heart, Manhattanville, New York.

Local Piano Tuner Addresses Convention

During the 26th Annual Convention of the National Association of Piano Tuners, held three days this week at the Parker House, Boston, Mr. J. W. Tapper of Newton Hlds. gave a lecture to some 200 tuners from all parts of the country on "Accounting Methods for Their Business."

The opening was greeted by a representative of the Mayor, and further lectures by Prof. Floyd Dean of New England Conservatory of Music on "Physics of Sound," illustrated by laboratory apparatus and motion pictures, furnished in co-operation with Mass. Institute of Technology, also Ivers & Pond Piano Co. and others.

A banquet with musical program and short talks by prominent members of the piano industry and music world followed, together with a sail down Boston Harbor to Nantasket Beach with shore dinner.

Fined \$50 For Reckless Driving

William Digou, 34, of 22 Coney street, Watertown was fined \$50 in the Newton court on Wednesday morning for operating an automobile so as to endanger the lives and safety of the public. Digou was the driver of a car which on June 17 at 11:30 p.m. was involved in a triple collision at Needham and Oak streets, Newton Upper Falls. Digou's car sideswiped a car driven by Charles Norberg, Jr., of North Easton, and then a car driven by Arthur Lussler of Providence was struck. Norberg and Arthur Lundgren of North Easton, who was riding with him, was injured. Mary and Anne Digou of Watertown were also injured. The injured were taken to the Newton Hospital in the police ambulance. Digou took an appeal.

Paramount Theatre Offers Entertaining Programs

Stars, romance, music, gaiety, laughter and drama all mingle in a new and unique blend of screen entertainment in "Escapade," a new romance of Vienna that comes to the Paramount Theatre starting Sunday for four days. It captures Continental flavor and music, and puts them on the American screen in a story with unusual dramatic twists that keep the audience in a constant state of surprises. Through the deft handling of the story every entertainment value from laughs to tears, from drama to music, is packed into a single evening's entertainment.

The story deals with a debonair and lionized artist, played by Powell who falls in love, through complications over a painting of another man's wife, with the demure companion of a countess. With a jealous doctor, a former sweetheart and a flirtatious wife on his hands, he tries to balance the whole structure while progressing on a rocky road of true love. Through flirtation he paints an unconventional picture of the doctor's wife. Through mistake it goes to the publisher. He hunts a model to pass for the original as an alibi, falls in love with her, and a jealous former sweetheart interferes. An exciting story that every one should see. On the same program is "Ginger" with a big cast headed by a nine year old actress Jane Withers with O. P. Heggie and Jackie Searle. "Ginger" is a story of which she, Jane Withers, brings a high-hat Park avenue family down to earth.

Starting Thursday the bill is headed by "The Arizona" with Richard Dix and Margaret Grahame. Dix is seen in the new production as a hard-fighting, quick-thinking marshal, in a job thrust upon him in order that he protect his brother and sweetheart. It is not so much by the gun that he rules as by his superior courage and intellect. His job was similar to that of marshals of the '80's and '90's a job of suppressing rather than killing the wild men of his time. The companion picture will be "College Scandal" with Arline Judge, Kent Taylor, Wendie Barrie and William Frawley.

On Saturday matinee Bob Mills in his Kiddie Revue of local Newton talent, and Tom Mix in "The Miracle Rider" are features.

Auto Crashes Into Railroad Fence

An automobile owned by Ellery Peabody of 15 Sewell street, West Newton, and parked in the circle near the Second Congregational Church at West Newton, rolled down the incline about 9:45 Tuesday morning while unoccupied, crossed Margin street and crashed through the rail fence opposite the rear entrance of the Boston & Albany railroad station.

THE LEGISLATIVE SESSION ENDS

The longest session of the General Court of Massachusetts has come to an end. Looking back over the past eight months it is apparent that the so-called Republican majority was more a myth than an actuality. The turning point came in the middle of the session, when, despite clear evidence to the contrary, a Democratic member from Lynn retained his seat after a recount of the contest was sought by his defeated Republican opponent. Since that time support for the Republican party dwindled until in the final weeks of the session there remained some eighty-three Republican loyalists who fought valiantly to prevent further huge expenditures by the state. The Governor was successful in his attempt to secure a road-building program of some \$13,000,000 when 43 Republican members of the House and 7 Republican members of the Senate favored such a bond issue. A sufficient number of these members then rejoined the ranks of the minority to prevent a bond issue for a building program. It is undoubtedly true that some members of the Legislature favored the road-building program as an expression of their belief that the receipts from the gasoline tax should be used for road purposes and not diverted to the general expenses of the Commonwealth as has been done in recent years. However, it cannot be denied, that these same members refused to recognize the method of expenditure of these funds only upon the approval of one individual, the Commissioner of Public Works. They further refused to recognize the fact that the huge expenditures of moneys for the relief of unemployment has made little progress in this direction nationally and that England abandoned such a method of seeking recovery from the depression convinced that it was far from practical.

Within five months more the Legislature will be in session once again and the public will watch with keen interest the actions of these same members. The coming session marks the completion of the terms of the present members and the following fall many will undoubtedly be candidates for re-election. The question remains to be answered whether or not the voters will forget 1935?

A DEMOCRATIC COUNCIL

The appointment of Councillor Edmond Cote to the Fall River Finance Commission is not surprising to those who have even a slight knowledge of political affairs in this state. Neither is the probable replacement of Mr. Cote by a Democrat from the Bristol County district. Since the inauguration of Governor Curley in January various attempts to control the Council have been noticeably apparent. On many occasions two or three Republican members have voted with Governor Curley and yet on many other occasions the supposedly Republican majority have prevented the Governor from having his own way. Once the confirmation of Mr. Cote's successor has been accomplished, a step which will undoubtedly be taken at the next meeting of the Council, the remaining four Republican members will find their tasks lighter in some respects and more arduous in others. No longer will the Republican members be obliged to withstand the political pressure that until now has been brought to bear upon them from many quarters. The future may well bring them together as a solidified minority group fighting for a clean and honest government. The reaction of the citizens of Massachusetts will, in time, we believe, take care of the situation.

Hit Woman, Given 30 Days In Jail

Armas Rolha, 23, of 11 Carleton street, Newton, was sentenced to serve 30 days in jail when he was found guilty in the Newton court on Tuesday of hitting Esther Monaghan of 31 Prospect street, West Newton. The girl is a waitress in a Newton lunch-room and Rolha hit her in the eye on August 4th when she refused to serve him with a glass of beer because he was already under the influence of liquor. Rolha appealed.

Highlands Woman Accidentally Shot

Mrs. Estelle Linnehan of 130 Walnut Hill road, Newton Highlands was accidentally shot in her left forearm shortly after midnight on Saturday. According to the police report the woman's husband, Charles H. Linnehan, was handling a 22 calibre rifle when it discharged. A physician rendered first aid and Mrs. Linnehan was then taken to the Newton Hospital in the police ambulance. She was released from the hospital on Sunday morning.

ABOUT TOWN

By Edward H. Powers

According to newspaper reports the "million dollar baby" from the 5 and 10 cent store had agreed to pay her divorced, aristocratic husband \$350,000 annually. This is an example of the "rugged individualism" lauded so much in this country the past few years. And this royal pension for the amorous playboy whose career was tragically ended was supplied by the great American people.

Only 21 persons killed in automobile accidents in New England over the week-end. More speeding, more reckless and drunken driving, more scoffing at traffic laws, more ignoring of traffic signals (with State officials conspicuous in this lawlessness); and more fixing of cases to encourage the steady increase in automobile casualties.

"Long may our land be bright
With Freedom's Holy Light."

If the proposed increase in gas rates that you and I may have to pay goes into effect next November and we are mulcted 50 cents additional each month, it will be one consolation to realize that we may have contributed to the sartorial perfection of "Colonel" Patrick J. Hurley. This Beau Brummell of our conservative statesmen admitted that his firm had received \$100,000 from Associated Gas & Electric the past three years. Mr. Hurley is only one of a number of the country's outstanding legal lights and former political greats who received lavish fees from the utility octopus which dominates the gas and electric business of this land of opportunity where all are free and equal.

Is it intelligence, instinct or just plain cussedness that prompts a fly you are trying to swat to land on the hand that holds the swatter?

Congratulations to the postoffice employees on the 40-hour week which they are to enjoy starting Oct. 1. Times have changed considerably since we entered the postal service as a clerk in the early years of this century. Letter carriers then enjoyed a 48-hour week through effective organization, and they were among the pioneers in this respect. But postoffice clerks were treated as pariahs. They had no mandatory salaries as had the letter carriers, received lower salaries and there was no limit to the number of hours they had to work. The writer for several years averaged 11½ hours work on weekdays, worked every Sunday morning and every other Sunday afternoon. The postoffice clerks by concerted effort obtained a 48-hour week and the same salary schedule as the letter carriers.

If you desire to see a masterpiece of ship modelling look in the window of the NEWTON STEAMSHIP AGENCY, 11 Centre Ave., Newton, next to the postoffice, and see a model of the GEORGIC of the Cunard-White Star Line. This model, about six feet long, is accurate in all details. It is the work of Basset-Lowke, Ltd., model makers of Northampton, England.

The question regarding the selection of a site for the proposed new school at Oak Hill was evolved into one of the most interesting complications which this city has witnessed in many years. Until about 15 years ago Oak Hill was almost entirely an agricultural section. It had been settled soon after the founding of Newtown in the middle of the 17th century and for 250 years and more it had remained a farming district. Then Arnold Hartmann acquired a large area of land in Oak Hill and started to develop a high class residential district. A number of streets were built and attractive residences built on them. Children moved into Oak Hill with their parents, or were born there. The little school at Oak Hill, about three-quarters of a century old, and which had been unused for some years, was inadequate to serve the needs of the locality and the children from Oak Hill had to attend public schools at Newton Centre. For several years Oak Hill residents have been urging that a new school be built there.

Mr. Hartmann devised plans for a civic center at Oak Hill and over a year ago with a number of other property owners offered the city about 40 acres of land for a civic center which would include a large playground area, land for streets, and space for a parking place. A small business zone was proposed to be located adjoining the parking space. Nearly all of this 40 acres is low land. In conjunction with this plan it was proposed to use 7 acres of land owned by Anna Barry off Greenwood street. The proposal received favorable consideration from the Mayor and the Planning Board. During the past year constant agitation by Oak Hill residents for a new school brought this matter to a head. A public hearing was held before the Board of Aldermen on July 15th on the question of taking the 47 acres for the school site, playground, parking space and streets at Oak Hill. Of the large number of citizens present 60 voted in favor of the project, 2 voted against; one of the latter was a woman who is not a resident of the city but whose property would be seized. A special committee of three Aldermen was appointed to study the Oak Hill situation. This was a departure from the regular practice of the Board. Heretofore such questions have been referred to the Public Works Committee. About the same time deeds in escrow were given to the city by the persons who offered to donate the 40 acres. It appeared more than probable that the plan would be accepted. Then, a couple of weeks ago a new proposal was launched. According to this plan the city would locate the Oak Hill school on land which for many years had been known as the Timothy Murphy estate, but which for the past couple of years has been assessed in the name of James Murphy, Mr. Murphy, a Boston attorney, had re-

sided for about twenty years at 411 Dedham st. He was connected with the assessing department of the City of Boston and voted in that city.

According to this latest plan, the school would be built on the Murphy estate about 500 feet from Dedham st., and several hundred feet east of Parker st. The city would build two 50-foot streets from Dedham st. toward the school site and connect these two streets by a 60-foot street which would run in front of the school site. The site would include six acres of land, part of which would be used for a playground. This playground would be at the rear of the school on a slope which drops 18 feet from the top of a high ridge where the school building would be erected. House lots would be laid out between the school building and Dedham st. and the school would eventually be hemmed in from Dedham st. by residences. The estimated cost to the city for taking and improving the Murphy site would be about \$35,000.

A third plan which has been considered would locate the school on the Barry estate near Greenwood st., Oak Hill. About 11½ acres of the Barry estate would be taken by the city in conjunction with about three-fourths of an acre of land now owned by John Schworer. A new 50-foot street would be built adjoining this site from Greenwood st. to Meadowbrook rd., and a foot path constructed to Parker st. The cost of acquiring and developing this site was estimated at \$86,000.

The cost of developing the 47 acres which includes the proposed land gifts by Hurley, Hartmann, Badger and others has been estimated at very high figures, \$235,000. Included in these are \$40,725 for constructing a street 80 feet wide and 1900 feet long from Parker st. toward the school site and Greenwood st.; \$17,000 for a circumferential highway around the large playgrounds area and school site, and \$57,300 for extensive drainage projects. The balance is for properly surfacing the playground.

Proponents of the Hurley-Hartmann-Badger site state that these figures are far above what is necessary to be expended in the near future. The 80 foot approach street need not be built the entire length and the circumferential street need not be built for years to come. They contend that the resultant development of homes in the vicinity would in a comparatively short time bring enough tax revenue to the city to adequately compensate for any expense involved. It seems that the figures estimated certainly leave margin for lessening.

The writer a few weeks ago criticized the action of the Mayor and School committee in giving preference to Oak Hill in the matter of needed new schools. But since it has been decided to erect a new school at Oak Hill, we agree with the Newton Planning Board that it would be very short sighted if the city does not accept the 40 acres offered for the school site and playground on the land offered by the Hurleys, Hartmann, Badger and others. This proposed location could be developed into a beautiful area. The vista across the broad meadow with its fringed wooded ridges gives the vision of what would become one of the beauty spots of Greater Boston in years to come. The allegation that the area is mostly a sort of bottomless pit is not borne out when one realizes that Parker st., one of the oldest highways in that part of Newton, is constructed across this same boggy area, and that it has carried heavy traffic for many years with little repairing necessary on it. There is no comparison between the wide expanse of 47 acres which this plan would provide, and the site about one-eighth the size on the Murphy land which would be enclosed by a residential area. It is certain that Oak Hill residents in years to come, if not in the immediate future, would demand a larger and better playground than is planned in conjunction with the school on the Murphy site. Mayor Weeks and the Board of Aldermen will surely use vision and deserve the thanks of future generations of Newtonians if they select the site which includes the 40 acres to be donated.

It was interesting at the hearing on the Oak Hill school site before the Aldermen on Monday night to listen to Miss Anna Barry asking President Gordon as to how the city could take part of her property for a school site. Miss Barry was for years associated with one of Boston's largest and most prominent law firms.

Complaints have been made by residents along Centre st. regarding large gravel trucks operated by a Waltham town company which rattle at high speeds along that street from early morning hours and through the day. Mayor Weeks has taken the matter up with Police Chief Hughes.

Did you see the photographs in the newspapers of Howard C. Hopson, the executive of the gas and electric utilities octopus? After gazing on Mr. Hopson's classic features it is difficult to believe that he could be engaged in any activities other than those of the highest ethical type.

Senator Arthur W. Hollis characterized Senator Donald Nicholson as a "political gymnast" on Tuesday when the politician from Wareham voted for Gov. Curley's bond measure after having denounced it a couple of days before. Nicholson replied "Wise men change their minds." Nicholson is the person who had quite recently denounced Senator Moran of Mansfield for not supporting his fellow Republican Senators. Nicholson is also the person who a few years ago bitterly opposed the old age pension and made the assertion that any old married folks who had reached the age of 70, who had no children to support them, and were not able to support themselves, were "entitled to much sympathy." The "wise man" from Cape Cod is a man of broad mind and kind heart. He has been the floor leader of the Republican party in the State Senate. With such leaders as he the G. O. P. should soon regain its former supremacy.

Hartmann Talks on Oak Hill Site

(Continued from Page 1)

ERA project to 80 feet from Spring street to the Newton line where it changes its name to Dedham street. It crosses the Veterans Parkway and will get traffic from there as well as from Dedham via Spring street. Dedham street will have all this traffic as well as all the traffic from Newton street, Brookline, now widened to 80 feet to the Newton line at Brookline street.

And this proposal, if accepted, will make it necessary for 146 children, 88 per cent of the present school population—children, little tots between the ages of 4 and 11 years to cross Dedham street twice or four times each day in walking to and from school. A veritable No Man's land as he crossed twice or four times each day by little children 4 to 11 years old. Would you want your children to do this? Would you want any child to do it? Is this the way you plan to solve our problem of having a school in this district?

A grade school, properly located, should be near the centre of a circle with a radius of one-half mile, which gives it a diameter of one mile. No child would be more than one-half mile from its school. It should be so situated that when the area was built up, it would draw pupils from all directions toward its centre—its school. Let us apply this formula to the Murphy site.

On the south side of Dedham street from the West Roxbury line on the west to where Bound Brook road meets Dedham street on the west, and from Dedham street to the Charles river comprises an area of about 1,000 acres, which should furnish the large part of the school population for the Murphy site. But 782 acres or 82 per cent of this is out of the picture as a source of pupils for a school. This 782 acres is made up as follows:

Charles River Country	221 acres
Club	221 acres
City of Newton, Alma House and Water Works Reservation	172 acres
Working Boy's Home	53 acres
Robert Gould Shaw Estate	270 acres
Highland Sand & Gravel pit	66 acres
Total	782 acres

It is safe to say that very little of this land will be used for homesites in the next 15 years and the greater part will never be used for this purpose.

Taking the Murphy site as the centre of a circle with one-half mile radius, we have a circle which has about one-half of its area in a district that will not furnish pupils for its school and the remaining area, the circle does not cover the district adequately between the Worcester Turnpike and Dedham street, where most of the future homes will be located.

On the other hand, take the school site on the plan offered by Hurley, Badger, Hartmann, et al, as the centre of a circle with a one-half mile radius and we have a circle which includes about 90 per cent of land which is suited for homesites and will furnish pupils for its school.

The Murphy site can draw on population from the north and very little from the west. Most of it will have to cross a main highway. The Hurley, Badger, Hartmann site is accessible from all directions.

Another reason why the Murphy site should not be considered for a school site. This Murphy land is best suited for use as homesites and if used for this purpose, can produce, when built up, \$900,000 of taxable property, which will pay the city \$22,500 in taxes each year. On the other hand, the Hurley, Badger, Hartmann site for school, recreation and parking is not suited for homesites and will bring in very little tax revenue but should be accepted by the city, it would favorably affect the whole area between Dedham street and the Turnpike and furnish the city with a very large amount of taxable property.

Recreational Needs of the Community—No provision is possible in the Murphy site for adequate recreational needs for the community. There doubtless were many reasons that justified the city in the past in establishing the custom of furnishing 2-3 acres for playgrounds for grade schools. The MAIN reason probably was that school sites were not secured until the districts were well settled and land costs were so high that larger areas were out of the question. But this condition does not exist in Oak Hill.

In the old days, when the earlier grade schools were planned, the children could play safely in the streets so they did not need a large school playground. Now all this is changed. The automobile has taken the streets away from the children. They can't use them to play in as you older men did in your childhood. Also, with the change from a rural community with plenty of open land to play in, we are fast becoming a suburban community whose land is being used for homesites and there will soon be no land which children can use for play except what is provided by the city.

All far sighted people interested in social progress recognize the need and the value of recreational guidance among children and the necessity to provide some place where this training can be carried into effect. The tremendous increase in deaths of children by motor accidents and the insurmountable presence of juvenile delinquency in areas without recreational areas shows the importance of immediate action. In most communities where recreational areas have been provided there has been a marked reduction in juvenile delinquency.

Oak Hill is the only part of our city where it is still possible to secure adequate areas for the recreational needs of its future population. Are you going to follow blindly the

CHRISTIAN SCIENCE

"Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 18.

The Golden Text is: "I will set my tabernacle among you; and my soul shall not abhor you. And I will walk among you, and will be your God, and ye shall be my people" (Leviticus 26:11, 12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "O bless our God, ye people, and make the voice of his praise to be heard: Which holdeth our soul in life, and suffereth not our feet to be moved" (Psalms 66:8, 9).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If it is true that man lives, this fact can never change in Science to the opposite belief that man dies. Life is the law of Soul, even the law of the spirit of Truth, and Soul is never without its representative. Man's individual being can no more die nor disappear in unconsciousness than can Soul, for both are immortal" (p. 427).

—Mr. and Mrs. M. E. Jones of Ledges rd. are at Searsport, Me.

—Mr. and Mrs. Joseph Barry of Paul st. are spending a few weeks at Marblehead.

—Mrs. E. L. Caldwell of Pelham st. is spending her vacation at Presley Lake, Maine.

—Mr. D. J. Callaghan of 25 Ridge ave. is vacationing at the Terrace Gables, Falmouth.

—Miss E. R. Compton of Parker st. returned Monday from a visit to relatives in New York.

—Miss Lottie Swain of Vermont has been the guest of Misses Edith and Ethel Read of Paul st.

—The colonial house at 5 Hamlin rd. has been purchased by Mrs. J. E. Blacker of Brookline.

—Mr. and Mrs. F. Schumann of 100 Berkshire rd. are vacationing at the Terrace Gables, Falmouth.

—Mr. and Mrs. Leonard Time of Paul st. are moving to their new home in Wellesley Hills.

—Mr. and Mrs. T. B. Booth of Gibbs st. sailed Saturday for England where they will spend five weeks.

—Mrs. Gordon Rowe and children (Jean and Audrey) of Paul st. are spending a week at Oak Bluffs.

—Misses Julia and Blanche Henshaw of Institution ave. are spending their vacation at West Harpswell, Me.

—Mr. D. J. Callaghan and daughter, Miss Celeste Callaghan of Ridge ave. are spending two weeks at Falmouth Heights.

—Mrs. G. Squier of Parker st. attended the 50th wedding anniversary of her parents (Mr. and Mrs. Partridge of Holyoke) recently.

—Dr. and Mrs. Harold F. Brown of Nathan rd. and Mrs. R. W. Rutherford of Institution ave. are at the New Ocean House in Swampscott.

—Mr. and Mrs. Charles R. Hodges of Ripley ter. are receiving congratulations on the birth of a son (Ross Hodges) on Sunday, Aug. 11th.

—Mrs. Henry B. Hibbard of New Rochelle, N. Y., with her little son Arthur Thomas, has been spending several weeks with her parents, Mr. and Mrs. A. L. Brown of Bradford court.

—Miss Eileen Sheehan, daughter of Mr. and Mrs. Matthew F. Sheehan of 715 Commonwealth ave. received the degree of Bachelor of Science on last Saturday from Boston University.

—Miss Sheehan studied for ten years under the direction of the Religious of the Sacred Heart at Boston, Newton and Noroton, Conn., and attended the Wheelock School for three years graduating from there in 1934, after which she entered Boston University School of Education.

The Pillow for Sleeping

Very frequently headaches, neuritis, and pain in the neck may be traced to the Old world custom of sleeping on high pillows. If any of these symptoms exist, one should give a trial to a thin pillow or to none at all. A hard pillow is, perhaps, best of all. A leather one, covered with clean linen, would be most conducive to rest and would probably avoid some of the difficulties of headache, tiredness, and pain generally caused by high or soft pillows.—Los Angeles Times.

Peculiarities of Birth

Live premature births have taken place as early as 215 days, or more than nine weeks, before the normal duration of 280 days, and postmature births have occurred as late as 330 days, or a little over seven weeks after the full term, a total difference of 16 weeks, or nearly four months.—Collier's Weekly.

Newton Upper Falls

—Mr. and Mrs. Frank Jones of Cottage st. are camping at Plymouth, Mass.

—Miss Esther Martin of Champa ave. is spending her vacation at Onset, Mass.

—Elliot and Richard Hutchinson of Indiana ct. are spending a vacation at Plymouth, Mass.

—Mr. and Mrs. Charles Batey and family of High st. will spend next week at York Beach, Maine.

—Mrs. Agnes Atwell of Indiana ter. has returned from a vacation at River John near New Glasgow, N. S.

—Mrs. Almeda Brennan and two sons, Carl and Richard of Thurston rd., are spending the week at Beverly.

—Mr. and Mrs. L. H. Hilton and family of Canterbury rd. have returned from a two weeks vacation at Onset, Mass.

—Rev. and Mrs. G. Vaughn Shedd and family of High st. have been enjoying a vacation at Onset, Mass. this past two weeks.

—Mr. Elliot Carmichael of Chicago, Ill., is the guest of his uncle Mr. Thomas Carmichael and Mrs. Carmichael of Oliver rd.

—The Misses Elizabeth and Margaret Barrett of Chandler pl. are enjoying an ocean voyage to Washington, D. C., and Virginia.

—Mrs. Julia Sullivan and daughters the Misses Katherine and Marie of Elliot st. are spending the month of August at Falmouth, Mass.

—Dr. James Walker of Chicago, Ill., is the guest of Dr. and Mrs. McSweeney and Mr. and Mrs. Thomas Carmichael of Oliver rd.

—Mrs. Daniel Duvall and two daughters, the Misses Eva and Olive Duvall of Chamber ave., are enjoying a vacation at Onset, Mass.

—Miss Betty Jane Donnelly of Webster Groves, Missouri, has been the guest of her uncle and aunt Rev. and Mrs. G. Vaughn Shedd of High street.

—Miss Harriet Springham, daughter of Mr. and Mrs. Harry Springham of Oak st., is the guest of her aunt and uncle, Rev. and Mrs. D. G. Seaboyer of Maine.

—Mr. Harvey Carmichael of Oliver rd. who was operated on for appendicitis at the Rutland, Vermont, Hospital, is slowly improving but will be at the hospital for the next two weeks.

—Union Services of the Second Baptist Church and First M. E. Church are being held at the Second Baptist Church for the month of August. Rev. James Whitman, pastor of the Second Baptist Church will have charge of the services.

—Light Velocity Measured by Astronomer Roehmer

Light velocity was first measured by the astronomer Roehmer in the seventeenth century. It had been known for some time that a particular moon of the planet Jupiter underwent eclipse at intervals. Presumably it revolved in its orbit at a regular rate, and therefore its eclipses should occur regularly. But astronomers had observed that the time intervals between these interplanetary time signals increased for half the year and then decreased at the same rate back to their original value.

Roehmer explained this fact as follows: As a result of the earth's annual journey around the sun, half the year we are moving away from Jupiter and the other half we are approaching it. Consequently the light from successive eclipses must travel progressively increasing distances to reach us during half the year, and decreasing distances during the other half, and requires respectively increasing and decreasing times for the trip.

The music was in charge of Mr. Edgar Randolph and Miss Isabel Conway. The subject was on prayer services experienced at different conferences. Miss Legro spoke on Winnipegauke, Miss Betty George on Northfield and Miss Wright on the Buffalo Student conference. Mrs. Chas. Wood Bond of Newton Centre spoke on the Oxford Movement.

Oldest Court Records

At Eastville, Va., what are said to be the oldest continuous court records in the United States, dating from 1632, are found. It is claimed that those at Accomack, Va., are the second oldest.

Old English Sheep Dog**First Recorded in 1771**

The picturesque, affectionate Old English sheep dog's handsome shaggy coat completely hides his entire form, even his eyes that peer out from behind the loose hair, tossed freely as he ambles along with his bear-like shuffle, observes a writer in the Los Angeles Times. His hindquarters, most excessive in profusion of his coat, are rounded like those of the bear. The fore and hind legs of each side, moving forward simultaneously affects the curious rolling gait, peculiar to the breed.

However, when there is business elsewhere and he starts off in its performance, he develops almost incredible speed. Moving almost effortlessly, he covers ground at a pace quite unsuspected of a dog so compactly built. . . . the long hair about his face flying to the wind and parting, to reveal a pair of bright, intelligent and friendly eyes that bespeak his honest countenance. They vary according to the color of the dog. . . . very dark being preferred. Nevertheless, in the blue dogs, pearl, china or wall eyes are typical.

With all his beauty, affection and the acquisition of show-ring manners, he is just as sagacious, when pressed into the service of a working dog, as were his progenitors for centuries past. First recorded in a Gainsborough painting in 1771, he, and variants of the breed developed throughout European countries, are known to have been employed since time immemorial as herders and guardians of flocks and herds.

**Clean Spark Plugs Will
Insure Best Performance**

Motorists who get the best performance from their automobile are the ones who give proper attention to the cleaning and readjusting of the spark plugs among other important details.

This observation was made by a prominent engineer, who has given much study to economical operation of automobiles.

A spark plug, he says, fires more than 5,000,000 times during every 3,500 miles of car operation. The spark plug firing points, therefore, must be kept at proper adjustment.

If they are not the engine will miss. This means uneven engine performance although the driver may not be aware of it. On the other hand, a coating from the combustion gases forms on spark plug insulators usually after 3,500 miles of operation, which also causes missing and a waste of one out of every ten gallons of gasoline.

It is quite natural that the motorist who twice a year has his spark plugs cleaned and adjusted gets more miles per gallon of gasoline; gets better car performance; and reduces repair expense to a minimum.

Hiking 150 Years Old

Hiking is not modern, according to information revealed in London. It was called "pedestrianism" over a century ago, but the pastime was the same, according to a description in the Sporting Magazine, published in 1792. The opening paragraph of the article on pedestrianism declares that it is "an exercise which . . . has lately risen into much notice." It relates that Foster Powell, of Leeds, for a hundred-guinea wager, walked from London to York and back in five days, in the middle of November. He afterward accomplished several similar feats, and in his fifty-seventh year was still taking on bets. In 1765, according to the magazine, "a young woman went from Blenclogie in Scotland to within two miles of Newcastle in one day, which is about 72 miles."

Using Word "Stultify"

The word stultify is not a synonym of lie. It means "to cause to appear absurdly inconsistent; to give an appearance of foolishness to." Hence, it implies inconsistency rather than falsehood. One could say, "I do not wish to appear inconsistent," which would be somewhat similar to, "I do not wish to stultify myself." If you wish to imply falsehood, another word than stultify should be used.—Literary Digest.

The Letter "D"

Although the sound which "D" represents and its place in the alphabet remains unchanged from earliest times, the form of the letter has undergone much development. The rounded form, as we know it, passed into Latin from the Chaldean alphabet. This form has come down to us. In the early Phoenician and Greek, as the chart shows, the form was quite different.

Quivering Aspen Leaves

One of the oldest legends in the Christian world concerns the constant quivering of aspen leaves, even in apparently still air, writes T. B. Lawrie, Winnipeg, Canada. A large number of persons believe the aspen tree sprang from the wood for the Cross and has never ceased to tremble for the part that it played in the crucifixion.

Brittany

The English Brittany is now generally written with the French spelling Bretagne, and was the name of the former Celtic kingdom now incorporated in France. An inhabitant is called a Breton, and that is also the name of the language. The adjective has the same form—Breton.—Literary Digest.

*A good cigarette, too
needs Balance—*

And that's why the tobaccos in Chesterfield are carefully balanced one against the other . . . not too much of one—not too little of another.

We take the right amounts of the right kinds of four types of tobacco—Bright, Burley, Maryland and Turkish.

*It is this balancing of tobaccos
that makes Chesterfields milder
and makes them taste better.*

Chesterfield... the cigarette that's Milder
Chesterfield... the cigarette that TASTES BETTER

**HUDSON-TERRAPLANE SAFETY
DRIVE**

Newton motorists are showing a marked degree of interest in safe driving, according to Myrton Evans, Hudson-Terraplane dealer, today commenting on the large number of motorists who have availed themselves of the opportunity to take a "safety ride" demonstration as a feature of Hudson's safety month program which will continue throughout the entire month of August.

"Particular interest has been shown," said Mr. Evans, "in the matter of brake application. As a result, we have shown hundreds how they can get longer wear and greater efficiency by applying their brakes in the manner found best through tests by engineers."

"We have noted an earnest endeavor on the part of Newton motorists to co-operate in making our highways safe for everyone. Many have told us that they did not realize that they were endangering other motorists when they were driving with tires that were just barely holding or with a steering gear that shimmied."

**Nonantum Men Get Prison
Sentences for Fighting**

Gerardo Gentile, 45, of 33 Chandler street, Nonantum, and Donato Magagnelli, 52, of 125 Adams street, Nonantum, were each sentenced to serve 30 days in prison by Judge Bacon in the Newton court yesterday. Both appealed. Patrolman Bibbo testified that the pair were enemies and engaged in altercations when they met. He arrested them when he found them fighting on Monday night at Washington and Adams street.

Raccoon's Feet Are Like**Human Foot; Likes Fight**

The raccoon comes from a winter sleep when other wild life begins to stir. And he is as thin and "hungry as a bear," for he is a relative of the bear. His baby-foot tracks may be found in the mud along streams; there is his hunting ground.

Crayfish, frogs, fish, snakes, small turtles, and mussels make up his early season diet. Fruit, corn, wild berries, and the farmer's poultry follow in season. The 'coon lives along some stream where he may handily dip his food in water, as if to wash it clean before eating it.

Coonskin coats are popular, and so the raccoon is much hunted for his beautiful fur.

He is clever in his ways, and quite tame. Woe betide the dog that expects to master him without a fierce struggle! The two black eyes of Brother Coon are proof enough that he enjoys a free-for-all.

The raccoon's feet are humanlike. He can climb like a monkey, and he can grasp a roasting ear with the best of us.—Indianapolis News.

Earthquake Zones

The great earthquake zone includes the area of the Mediterranean sea, the Azores, Italy, West Indies, Central America, Japan, China, India, Persia, Asia Minor and various branches leading off the main faults in the earth's crust; also the great mountain ranges contain lines of weakness in the crust of the earth. Professor Montessus, in his great world map recording earthquakes, lists over 100,000 which have been known to have disastrous effects.

**Policeman Shoots
Dog That Goes Mad**

On Monday afternoon Patrolman Taffe shot a dog on Austin street, Newtonville after the dog had frightened the family of John McDonald at 104 Austin street. The dog, owned by McDonald, had been running about the yard in a wild manner and was frothing at the mouth. McDonald notified the police and then took refuge in an automobile. Patrolmen Taffe and Monroe went to the scene and after trying unsuccessfully to capture the dog, shot the canine.

**W. Newtonite Says
He Was Robbed**

Fred Erickson of 87 Charles street, Auburndale, was found lying on the street, opposite 1439 Washington street, West Newton about 4 a. m. Tuesday. He had cuts and abrasions on his face, head and hands, and was taken to the Newton Hospital in a police car. He told the police he had been assaulted by three men and robbed of money. The police said he was under the influence of liquor.

CORRECTION

In last week's GRAPHIC was an item which stated that Lasell Junior College of Auburndale had in past years received exemption from taxes on properties valued at \$1,389,500. This statement was in error. The amount of exemption was on properties valued at about \$200,000. This exemption was granted in accordance with the State law which specifies that educational institutions not conducted for profit are tax exempt.

Wood Wind Instruments**Build Up the Orchestra**

Wood wind instruments comprise one of the four groups of instruments in an orchestra. Usually they include the flutes, oboes, clarinets, and bassoons. Of all the natural wind instruments the flute is the oldest, says a writer in the Montreal Herald, for in prehistoric caves we find bones hollowed out, with little side holes. Modern flutes have some notes like the human voice. A little one, called a piccolo, makes very piercing notes. An oboe, not unlike the present one, was used at Edward the Third's court. It has a tender sound and is useful for making far-away sounding music. Lovely melodies are often given to a richer toned oboe called the English horn. Its tone is sadness itself.

Clarinets do not appear till 1700. There are high-sounding as well as low-sounding ones, and the sound they give is mellow and warm. Bassoons are the deepest sounding wind instruments. Often they are called fagotti, because with their reeds and mouthpiece they look like a faggot.

Bamboo Growth Rapid

The bamboo tree lives up to its well-established reputation for remarkably rapid growth, but not in the early stages of its development. In fact, according to Science Service, a grove of bamboos has to be ten years old or more and the underground growth well established before the bamboo shoots begin to spring up with the magic speed with which they are credited.

**Newton Ctr. Girl
In Car Crash**

Miss Anne Whalen of Ripley street, Newton Centre received slight injuries when the automobile in which she was a passenger collided with another car on Alford street, Charles-town on Saturday. She received treatment at the Haymarket Square Relief Hospital.

HARRIET S. HINDENLANG

Mrs. Harriet S. Hindenlang of 1589 Beacon street, Waban, wife of Herman Hindenlang, died on August 14 at the Newton Hospital. She was a native of Troy, New York, and had resided in this city for 15 years. Besides her husband she is survived by two brothers, Reid Simpson of Troy and Edward Simpson of Los Angeles, California. She was a member of the D. A. R., Waban Woman's Club, Brookline chapter of Eastern Star and the Republican Woman's Club. Her funeral will be held at her late home on Saturday, August 17 at 2 p. m. The Christian Science service will be conducted by Lieutenant Commander James Brown. Burial will be private.

Home Renovation Canvass Exceeds Million Dollars

Only Small Percentage Applying For FHA Loans

Total figures for the renovation of Newton homes under projects brought about by the Federal Housing Administration have passed the million dollar mark, according to an announcement late last week by Rupert C. Thompson, secretary of the Newton Chamber of Commerce. The staff of solicitors have covered the city twice and will make a third complete canvass in the fall for the purpose of urging home owners to carry out plumbing and heating projects.

The announcement states that when the solicitors carried on the second canvass, two months after the first was started, that over seventy per cent of the work outlined in the first canvass had been undertaken. The investigation further revealed that most of the home owners had used their own funds in financing the work and that only about ten per cent of the money had been borrowed. Only a part of this ten per cent was obtained from the Federal Housing Administration. About three thousand homes were affected by the repairs and renovations.

More Changes In School Personnel

Additional changes in the personnel of the administrative staff of the Newton schools have been made in preparation for the opening of the term next month. The vacancies left by the resignations of Herbert Landry as Director of Research and Guidance, and of Wesley J. Furbush, as attendance officer, at the close of school last June, have been filled. Superintendent Julius E. Warren announced this week.

Mr. Elwood Drake, formerly assistant principal of the Roosevelt High School, and director of adult education in Des Moines, Iowa, takes the place as director of research and guidance. In addition to the duties carried on by Mr. Landry, the new director will assume the direction of the division of attendance and child accounting.

The decision to establish the new division was made because of Newton's problem with regard to truancy which has been one of prevention rather than correction, according to Supt. Warren.

In the work of this division, Mr. Drake will be assisted by Miss Elizabeth Deans, formerly of the John Ward School, who has been appointed attendance officer and research assistant in the position formerly held by Mr. Furbush.

Miss Roy Resigns As Assistant School Supt.

To Teach Remedial Reading At Junior High

Announcement was made this week by Superintendent of Schools of Miss E. Warren of the resignation of Miss Callista Roy, assistant superintendent since 1930. Miss Roy, who came to the Newton Public Schools in 1930, succeeding Miss Mabel Wragg, from Waltham, has been transferred at her request to the position of special teacher of remedial reading in the junior high schools. Superintendent Warren also announced the appointment of Dr. Laura Hooper, former supervisor of elementary education in Meriden, Conn., as assistant elementary education, to take the place made vacant by the resignation of Miss Roy.

Miss Hooper received the degree of Doctor of Philosophy from Yale University in June, 1935. She received her Bachelor of Arts degree from the University of South Dakota and specialized in work in the elementary field at the National College of Education in Evanston, Ill. She did graduate work at Leland Stanford and at Yale Universities. While at Leland Stanford University, she took special work in Educational Tests and Measurement with Dr. Lewis Terman. Her major work at Yale was in the field of Elementary Supervision.

Miss Hooper received her practical experience first as a teacher in the elementary grades. After four years of teaching in public schools, she was called to the National College of Education where she served as a teacher of Educational Methods, of Educational Tests and as Supervisor of teachers in training. While completing the work for her Doctor's degree, at Yale, she served at various times as instructor in Elementary Education. She held the position of Supervisor of Elementary Education in the West Middle District of Hartford, Conn., from Sept. 1929, to June 1933. In 1934 she organized the emergency nursery schools for the State of Connecticut. Last year, while completing her work at Yale, she held the position of Supervisor of Elementary Education in Meriden, Conn.

Alderman Gordon Is Acting Mayor

President John H. Gordon of the Board of Aldermen will be acting Mayor of Newton for the next ten days during the absence of Mayor Sinclair Weeks. Mayor Weeks left yesterday for Lowell where he is one of the Newton delegates to the American Legion Convention for three days. The mayor will then go to Lancaster, N. H., to his summer home returning to Newton after Labor Day.

Want Zoning Changed At Icehouse Site

A petition for the change of site of the former icehouse at Crystal Lake from a manufacturing zone to a single residence zone will be the subject of a public hearing at City Hall on Wednesday evening, Aug. 28th. The hearing will be conducted by the claims and rules committee of the Board of Aldermen jointly with the Planning Board. The icehouse was destroyed by fire last year and the ruins recently razed. Disposition of the site has been a controversial subject upon several occasions.

The petitioners, led by Stephen R. Berke, are seeking to prevent the use of the property for commercial purposes. Owners of the property are expected to oppose the change. Previously several petitions for the establishment of gasoline stations at this location have been rejected by the Board of Aldermen. It is stated that a movement has been started among property owners and residents to have the city take the land for park purposes in order to beautify the shores of Crystal Lake.

On the same evening the committee and the Planning Board will also hold a hearing on the petition of Robert Curran and others for the change of real estate on Lindbergh avenue, Henshaw terrace, and Henshaw place from the single residence district to the private residence district. The change would permit the erection of two-family dwellings in the section which is now restricted to single dwellings.

Highlands Boy Missing—May Be On Way to Penn.

John Collins, Jr., 17, of 11 Lincoln street, Newton Highlands, was reported missing to the police on Sunday. He was last seen by an acquaintance in New York and is believed to be headed for Pennsylvania. His parents told the police the boy had gone to New York with another Newton boy but the latter had returned home with the information that when he left young Collins the latter was about to start for Pennsylvania. The pair left Newton on Friday, August 16th.

A description of the missing boy was broadcast by radio and teletype to police in New York and Pennsylvania. He is described as five feet four inches in height, weighing 140 pounds and having red hair and blue eyes. He wore light brown trousers, blue suspenders, blue sweater, white polo shirt, low black shoes, and white stockings. He wore no hat.

Award Damages For Widening Of Beacon St.

Boston College To Receive \$6,500—Begin Resurfacing

An appropriation of \$6500 was authorized by the Board of Aldermen on Tuesday night for the award of land damages to Boston College for the widening of Beacon street following a public hearing on the matter. In order to widen Beacon st. between Hammond st. and the Brookline line to a sixty foot width it was necessary for the city to acquire a strip of land now part of the Boston College athletic field varying from ten to twenty feet in width. The acquisition of the land and the setting back of the wire fence on that side of Beacon st. will provide the necessary width for the resurfacing project at that point.

Alderman Benjamin Bowen, chairman of the finance committee, commended Boston College officials for their co-operation with the city in the matter and stated that the claim was very liberal on the part of the institution.

The resurfacing project on Beacon st. is the second in which the city has been financially assisted by the state and county in street construction. This is the first time, however, that the city has undertaken the work itself. A few years ago when the city was aided by the state and county in resurfacing Washington st., a private contractor was employed to do the work. The purpose of city officials in providing that the project be carried out by city labor was in an attempt to avoid any lay-offs in the street department force this year.

Commissioner Charles A. Mahoney last week appealed to the members of the street department force to co-operate with the city in its role of contractor. Addressing groups of laborers employed on the project, Commissioner Mahoney explained the hardships which the city faces in carrying out the contract. He pointed out that great efficiency is necessary in order to prevent the city from losing money on the job as the city must pay 63 cents an hour for labor as against the 40 cent rate paid by contractors. Other restrictions which the city must observe add to the difficulties to be encountered. The city has appropriated \$38,250 for the project while the county will contribute \$21,000 and the state \$51,000. Unless the cost of the project can be kept within these figures the city will have to bear the added expense.

Construction on the project has been begun at the Brookline line and the resurfacing will extend to the Newton Cemetery land near Cold Spring Brook.

Mahoney Is Reappointed To Retirement Board

Street Commissioner Charles A. Mahoney was reappointed a member of the Newton Retirement Board for a term of three years by Mayor Weeks last Friday.

Last Friday Mayor Weeks announced the reappointment of Street Commissioner Mahoney as a member of the Newton Retirement Board for a term of three years. The appointment was submitted to the Aldermen at the special meeting on Tuesday evening and was unanimously affirmed by the fifteen members present.

Commissioner Mahoney has been a member of the board since it was formed following the acceptance of the Retiring Act for pensioning of city employees was accepted by the city. He was originally appointed by Mayor Childs as a representative of the city employees, being at that time a foreman in the street department. He was promoted to the office of Street Commissioner last year.

Ban Sale of Unclean Milk

The Newton Health Department has banned the milk produced by one farmer and three others have been ordered to use cleaner methods of handling milk under threat of a similar ban as the first step in a campaign to insure sanitary sources of milk supply for Newton consumers. The drastic order followed a sudden visit to a score of farms by Dr. Harold D. Choche, recently appointed health officer, accompanied by State Inspector H. B. Allen, Keble B. Perrine and Inspector Irving House of the Newton Health Department.

Dr. Choche emphasized the fact that the city milk supply is safe. The discovery of unsanitary conditions at one of the small farms visited by the inspector led to the order prohibiting the Newton sale of milk from that farm. Three other farms were found where conditions were not entirely satisfactory and the owners were warned that unless conditions were remedied at once they would also be barred from disposing of their product in the city. The Health Department will continue to make periodic inspections of all sources of milk supply in the city and owners will be required to comply with all sanitary regulations.

A bacteriological laboratory was put in operation recently at city hall and a technician employed to make bacteria count and other tests for the Health Department. In a complete check of all milk entering the city all but a few samples were well under the stricter limits set recently by the state. More than 100 samples were taken from the containers of 57 dealers during July. The Newton department gives dealers credit for co-operation in insuring cleanliness but sanitation is hard to check on the hundreds of farms from which milk is shipped to the metropolitan area, some from as far as northern Vermont.

Name Local Architects On PWA Projects

The appointment of architects to draw plans for three buildings to be undertaken in Newton under the PWA method was announced last Saturday by Mayor Weeks. The new school building in the Oak Hill district will be designed and planned by the firm of Denmore, Leclair and Robbins. Mr. Henry C. Robbins, a member of the firm, resides on Dorset road, Waban. The selection of the site of the school has not yet been determined. The matter has been before the Board of Aldermen for some time with various offers having been presented by several owners of undeveloped land in the section.

The firm of Frank H. Colony was selected by the mayor to draw the plans for the proposed addition to the Angier School in Waban and the reconstruction and enlargement of the city garage on Craft street, Newtonville. Mr. Colony resides on Plymouth road, Newton Highlands.

Five Injured In Accident At Auburndale

Five men were severely injured and the sixth was arrested for drunkenness Sunday evening after the automobile in which they were riding crashed into an electric light pole on Lexington street, near Staniford street, Auburndale. The five injured men were removed to the Newton Hospital and the sixth taken to police headquarters.

Antonio Maccini and Julius Martelli of Wellesley were taken to the hospital in the police ambulance. Andrew Guarrine and Dominic Marengi of Wellesley and Valentine Martorelli of Bridgewater were taken to the hospital in the police ambulance. All were suffering from severe cuts and bruises about the head and body and were kept at the hospital for treatment.

Louis Cerbi of Bridgewater, the only occupant not injured was arrested for drunkenness. In court Monday morning he was sentenced to serve ten days in the house of correction. Witnesses of the accident reported that a short time before the crash occurred they heard the occupants of the car singing as the car proceeded along Lexington street shortly after six o'clock.

Claims School Fire Systems Are Inadequate

Alderman Colby's Motion For Survey Is Deferred

At the special meeting of the Aldermen on Tuesday evening, Alderman Clarence C. Colby charged that some of Newton's school buildings are inadequately equipped with fire protection facilities. He then offered a motion that a committee of three be appointed to carry on a survey of fire alarm systems in public buildings. Vice-president Charles B. Floyd, presiding in the absence of President Gordon, ruled that the motion was not in order as it was a special meeting of the Board and that no business other than that on the docket could be transacted.

Alderman Colby declared that from information given him by a resident of Waban that at the Angier School the youngest children are placed in a classroom directly over the boilers. He added that the school has no sprinklers or fire protection whatever and that there is considerable feeling in the district over the situation.

He also called attention to conditions in other parts of the city. At the Peirce School in West Newton he stated there was an "open circuit" fire alarm system and at the Franklin School in West Newton there is no fire alarm system whatever. He explained that an "open circuit" is operated by batteries and therefore may not work in an emergency whereas a "closed circuit" is run by current and is more dependable. His knowledge of fire systems had been gained through many years of experience in the fire alarm business and he had become familiar with various types. He described "closed circuit" systems as "very inexpensive," and told of a New York law requiring such circuits in all public buildings. He remarked that "the discovery of a fire immediately when it starts is the important thing." He then offered his motion to appoint a committee of three to make a survey of fire protection facilities, as well as fire insurance methods, for public buildings.

City Solicitor Joseph W. Bartlett ruled that the Board could not act on such a motion at a special meeting. Alderman Dennis Cronin questioned the ruling of the city solicitor but Alderman Colby withdrew his motion. He expressed his feeling that he wanted no doubt as to the legality of any action and that he would offer the motion at a regular meeting.

In reply to the charges of inadequate fire systems in the school buildings, Commissioner Harry Hageman stated that he was ready to certify the buildings in question for use on September 1st. Secretary George E. Kellar of the School Committee admitted that money for the installation of modern fire alarm systems in several buildings has been sought without success. It was asserted, in contradiction to Alderman Colby's statement that there were no fire alarm systems whatever at the Franklin School, that there were bell alarm systems in both the Franklin and Williams schools. It was also stated that the Angier School is fireproof throughout and there is no need for a sprinkler system. Such systems, it is pointed out, are installed only in the basements of wooden buildings or where there are buildings with wooden floors.

The special meeting was attended by fifteen of the twenty-one members of the Board. The docket included action upon the award of land damages to Boston College in the amount of \$6500 for a land taking made necessary for the resurfacing of Beacon street. Confirmation of the appointment of election officers for the coming city election was unanimous as was the reappointment of Street Commissioner Charles A. Mahoney as a member of the Retirement Board.

The appointment of Phillips Byfield as a constable to fill the vacancy left by the recent death of William A. Swett was laid upon the table until next meeting under the rules of the Board.

Authorization of the addition of Federal grant payments to the appropriations for the construction of the new school on Nevada street was also voted.

Read Fund Picnic To Be Held Tomorrow

The annual Read Fund Picnic will be held at the Burr Playground in Newton tomorrow. The picnic is held annually for children of Wards 1 and 7 in accordance with the terms of the donor of the Read Fund. The program will be carried out under the direction of the playground department.

REAL ESTATE

Specializing in Newton Properties

27 Elliot Ave.—West New, 2966—West Newton, Mass.

One hour inspecting our listings will secure the home you desire.

WE HAVE 190 HOUSES FOR RENT IN NEWTON

The Home you have hoped for At a price within your budget.

THE NEWTON CHAMBER OF COMMERCE
277 Washington St.,
Newton, Mass.

Dear Miss Carley:

In answering your question as to why when one is considering a new home they should locate in Newton, I am advancing five reasons.

First—Location. The city is ideally located on the south side of Boston with ample rapid transit.

Second—Schools. One of the outstanding school systems of the country.

Third—Churches. Forty-five churches embracing all denominations.

Fourth—Protection. A Police and Fire Department second to none in the State.

Fifth—Government and Taxes. A non-protection city government made up of loyal citizens, with the lowest tax rate of any city in the Commonwealth, and lastly we live in Newton, not just exist.

Yours sincerely,
NEWTON CHAMBER OF COMMERCE
Rupert C. Thompson,
Secretary.

Specials

Each listing included in this heading for some reason is a special attraction for immediate action. FIRST COME FIRST SERVED.

WABAN—Half Brick English cottage on quiet accepted street on attractive lot of 10,480 feet. House consists of six very nicely planned rooms, tiled bath, hot water heat, double garage. Buy now before prices advance.

THE WEEK IN NEWTON SPORTS

By JACK MORRIS

ELENA STUBBORN LOSER IN NATIONAL DOUBLES

Elena Ciccone of Newton Center, state girl tennis champion, spent a little less than a half hour in the national women's doubles tournament Tuesday at the Longwood Cricket Club, Chestnut Hill, when she and her partner were defeated 6-0, 6-1 by the top seeded team of Sarah Paley Fabyan and Helen Jacobs in a first round match. Elena entered the grandstand court with her partner, Helen Fulton of Winnetka, Ill., several minutes after the scheduled starting time of 2 P. M., and almost exactly at the half hour mark the match was over.

The Fulton-Ciccone team played well enough, considering the fact that they are only in their middle teens, and have had about half the tennis years of their illustrious adversaries. Miss Ciccone and Mrs. Fabyan are ranked first and second among women players in the United States, and are experienced internationalists. Elena proved by far the stronger player of the young combination that provided cannon fodder for the top-seeded pair, this despite the fact that Helen Fulton's first service game in the second set was the only one they won.

The Newton girl put up a stubborn battle before yielding, keeping the opposition away from the net by persistent lobbing, but her partner let her down on frequent errors. Miss Jacobs and Mrs. Fabyan made almost no errors, winning points rapidly with crisply-driven placements and smashes. The two sets comprised in all 74 points, of which Miss Ciccone's team took ten in the first set and thirteen in the second, but there were no love games in either set, and one game only, Elena's first service, went to deuce.

SYLVESTER OR CLARKE TO PLAY DON MARTIN

The city of Newton men's championship singles tournament is in its last week, with only the top-seeded three players surviving. Donald Martin, defending champion, has already got to the finals, having beaten Gordon Kitchin 5-7, 6-4, 6-3 in the upper half semi-final last week. In the lower half, Harry Sylvester entered the semifinal bracket by defeating Ed Strum 7-5, 6-2, while Malcolm Clarke advanced on Basil Ridge way's default. Clarke will be favored to defeat Sylvester in the semi-final, and the final may be played this week.

Changes in English Language
Changes that mark the periods of the English language have been so gradual that no definite lines of divisions can be drawn. For convenience, modern scholars use the following dates: Old English, closing in 1150; middle English, closing in 1500; and modern English, continuing from that time.

CITY CLUB AND NEWTON A.C. IN PLAY-OFF SERIES

Playoffs for finalist position in the Newton Twilight League will start Saturday p. m. City Club and Newton A. C. finished in a tie for second place and by the toss of a coin City Club won choice of grounds for the first game of this two out of three series. Highlands will be the scene of the first encounter and the game will be called at 2:30 o'clock. The second game of this series will be played Sunday at Victory Field starting at 2:30. Umpires Bridge, Lawless, Crowley and Bennett have been selected to handle this series and the final series for the City Championship between the winner and the Catholic Club.

Red Joyce pitched another no hit, no run game for the Catholic Club in their final league game with the City Club, "Mucker" Greene in the box for City Club held the hard hitting Catholic team to 3 hits and with a little better support in the field would not have been scored on. Greene by the way is the only pitcher to defeat the Catholic Club this year in a regulation league game.

There is considerable speculation as to whether Red Joyce can hold his present pace over the full nine inning game. Manager Ciccone of the City Club says that with his staff of McClellan, Joe Greene, "Mucker" Greene, Tucker Rhodes, Phil Giles and Wilcox he will have a decided advantage over the "Aces" who have only Seminelli and Coletti and the Catholic Club who have Joyce, "Porky" Murphy and "Bun" Ryan.

The third game, if necessary, will be played Monday at the Highlands and it is hoped to start the final series Wednesday night and be finished by Labor Day.

The following players are eligible for the play-offs:

Catholic Club—W. Lamsed, E. Gallagher, C. Gallagher, J. Byrnes, L. Cannon, W. Marrazzo, W. Watkins, P. Coakley, N. Colantano, Rus. Lane, Jr. Joyce, J. Murphy, Pat Connors, Bun Ryan, J. Moran.

City Club—Tom Lyons, Phil Greene, Joseph Greene, Nick Ciccone, Sandy Ferguson, Bob Sweet, Ed. Slavin, El. Ciccone, Ted Jones, Bob Ciccone, Phil Giles, Tucker Rhodes, Bill Wilson, Bill Ryan, Jim McClellan.

Newton A. C.—Thos. DeLoft, Pat Lochiatto, Pat Hall, Jerry Baldassaro, Louis Tabaldi, Francis Tabaldi, Anthony Lombardi, William Anness, William O'Connell, Larry Magnarelli, Daniel Mazzola, Adolph Frana, Richard Seminelli, Joe Coletti, A. Cloff, Joe Herlihy.

Final standing:

Catholic Club	20	2	9.08
City Club	16	5	7.62
Newton A. C.	16	5	7.62
Y. M. C. A.	14	7	6.67

Newton Cubs	5	17	2.38
Centre A. C.	4	17	1.90

Newton Highlights

At Rangeley Lakes, Me., last week Clinton Ferguson of Waban won Class B and Class C in the outdoor motorboat races which were a feature of the third annual Rangeley Lakes carnival. Although he failed to retain the Carl S. Wheeler trophy, Ferguson won both heats in each class he entered, sustaining his formidable reputation among speedboat pilots. In three of his four heats, he bettered the time made in the corresponding heat of the professional division.

The family of Oliver Ames Johnson of Newton Center last Saturday won an impressive victory in the family class at the Cohasset horse show. Mr. Johnson and Oliver, Jr., with sisters, Cynthia, Priscilla, Barbara and Nancy, comprised the Johnson family entry, and they had no trouble in carrying off the plate given by Mrs. George Brown.

Melville F. Heath, Jr., of West Newton, who broke the course record at Brae Burn only two weeks ago, was one of the eight New England golfers who qualified for the national amateur golf championship in the sectional trial rounds at the West Newton links on Tuesday. Qualifying scores ranged from 151 to 158 for the thirty-six hole test, and Heath was well within the lucky eight with a total of 153.

Heath's card:

Heath's card:

a	5	5	3	5	5	3	5	2	5	—38—75—153

Newtonians have flocked to Longwood this week to see the National Doubles and local boys are strong among the temporary workers at the Cricket Club. Bob Ashley, Charlie Houghton, Frank Couney and Charlie Parkin are among the ushers, whose chief duty is to watch the grandstand matches, and Tom Slattery is dean of ball boys, and holds down the all-important net position in the big matches.

Elena Ciccone, the sole Newton player in the National doubles, had little chance to shine against the first and second ranking women players of the country, but she made no bad mistakes in her brief grandstand appearance. Elena's partner, Helen Fulton, of Winnetka, Ill., was playing below par as the result of an attack of ptomaine poison which kept her out of action on Monday. With a more seasoned partner to give her confidence, Elena might have made a better showing, although she would be the last to admit it.

NONANTUM DISTRICT HOLDS FIELD DAY

The annual District Field Day for Nonantum playgrounds was held Wednesday afternoon, August 21, at Victory Playground. The playgrounds of this district composed of Stearns, Victory, Boyd, Hawthorne and Horace Mann co-operated in making this day one of the most outstanding field days of recent years.

The handwork and the dancing of the youngsters of this district were the important features of the program. It is the day that is given almost entirely to the admiration of the handwork and dancing of the youngsters who have labored industriously during the summer to perfect their handwork objects or the sprightliness of their dancing.

The young people were a credit to the supervisors of dancing and handwork in the finished product which they presented to their hundreds of friends. Miss Gladys Forbush, Supervisor of girls' handwork, was extremely gracious in her praise of the fine and magnificent display which the girls of the district with the encouragement of their instructors had on display.

In the group dancing of the little and older groups of girls, the supervisor of dancing, Mrs. Margaret P. Hills was especially pleased and pleasantly told the girls and their instructors of her estimation of their work. The dancing was very colorful and unusually attractive because of its absolute perfection in execution.

The boys' handwork which has been under the supervision of Mr. Nicholas Tedesco was particularly outstanding. Never were there more pieces on exhibition or better work. "It is unbelievable what perfection boys can obtain in their woodwork with only simple tools if woodworking as a hobby is encouraged," is the statement of Mr. Tedesco and surely the boys of this district gave him substantial evidence for his statement.

Mrs. Hills for the dancing, Miss Forbush for the girls' handwork and Mr. Tedesco for the boys' handwork joined heartily in a composite statement. "It was exceptionally well done."

In the prize competition dance, the judges after much deliberation decided that Susie Lucenta and Olympia Morocco of Stearns should be placed first, Mary McIsaac and Betty Campbell of Boyd, second; Anne Murphy and Theresa Pitts of Boyd, third.

The grand prize for girls' district handwork was given to Josephine Salvucci of Hawthorne and second to Irene Eno of Victory. The individual playground prizes for Victory were first, Polly Hughes, second, Teresa Proia, and to the junior girl, Helen Gilbert. For Boyd, Antonette Nardone was given first prize, Theresa Curtin second, and junior first prize to Alice Derocher. The girls' handwork prize for Horace Mann was given to Helen Doucette, second to Ruth Stein. For the best handwork at Hawthorne, the prize went to Louise Shordell, second to Antonette Mazzola and the junior first prize to Angelina Vericini—only six years old.

For the Stearns playground Mary Bibbo had an outstanding piece of work and received first prize. Edith Jaloneri received second and for the junior prize Teresa Delicicci was awarded first.

For the District Handwork prize, John Martin of Boyd led all the field with the most carefully built magazine rack which has ever been made on a playground. For the second prize, Domenico Antonelli of Victory had an unusual cat-ash-tray. The playground prizes were given to Louise Shordell, second to Antonette Mazzola and the junior first prize to Angelina Vericini—only six years old. For the Stearns playground Mary Bibbo had an outstanding piece of work and received first prize. Edith Jaloneri received second and for the junior prize Teresa Delicicci was awarded first.

The games which followed the exhibition of dancing and handwork were only incidental but were nevertheless very exciting and interesting.

Prize winners:

- Three Legged Race—Junior Boys: 1, Francis Salvucci; 2, Dally Farnese, Hawthorne.
- Sack Race—Boys: 1, Francis Salvucci, Hawthorne; Girls: Louise Spordelli, Hawthorne.
- Chariot Race—Boys' Victory: Wilfred Marchant, Joe Allen, Fluffy Barry, Joe LaCroix, Eddie Storer, Girls, Hawthorne: Nina Colletti, Louise Spordelli, Antonette Spordelli, Angelina Batista, Edna Gunn.
- Rescue Relay Race—Girls, Victory: M. Copan, Jim Gardner, June Hopkins, Teresa Proia.
- Tug of War—Boys, Victory: Joe LaCroix, Joe Allen, Eddie Storer, Robert Gilbert, Will Drew, Ernest Storer.
- Baseball Throw for Girls—1, Irene Eno, Victory.

In an added number and special attraction, Gil Champagne's Tumblers composed of 8 boys from the Victory and Boyd playgrounds put on an excellent exhibition of acrobatic stunts. Gil has had a team of tumblers for many years but this particular team outdid any team which he has ever coached. The audience was amazed at the preciseness and perfection which these boys showed in their performance. It was outstanding for youngsters of ten and twelve years of age and added immensely to the interest of the program. They were fine performers worthy of any professional program.

Mr. John B. Dacey, district supervisor, awarded the prizes to the very grateful youngsters and with the salute to the flag, the field day was closed.

Plan Garden Club

Event For Men Only

An interesting competition of the flower show being planned by the Newtonville Garden Club and the Conservation Committee of the Newtonville Women's Club will be an event which is open to men only. This class calls for a basket of fruit, flowers or vegetables, singly or in combination. The show will be held Sept. 26th at the Newtonville Women's Clubhouse on Washington Park.

An enjoyable MEAL is only realized with---

The following officials have been selected for the final tournament. Officer John Donahue of West Newton—Judge Court I; Gallant of Horace Mann Club—Judge Court II; Perley Wiles of Charlesbank Club—Clerk Court I; Wright of Wetherell Park—Clerk Court II.

The draw for places will be held Sunday at 1:00 o'clock. In the first round the high scorer of each of the eight matches will go into the second round. The high scorer in each of the second round matches will go into the semi-finals. Semi-finalists will also play one 50 point match and finalists will pitch 150 shoes.

Another Injured On Turnpike

Lena Brown, 42, of Hunnewell street, Needham, suffered a possible fractured leg Saturday night shortly after nine o'clock when struck by an automobile on the Worcester turnpike at Woodward street, Newton Highlands. The automobile was operated by Francis Jones of Cambridge. The injured woman was taken to hospital in the police ambulance by Patrolmen J. J. Murphy and Robert Stevens.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the power of sale contained in a certain mortgage given by Warren W. Lovejoy and Grace S. Lovejoy, his wife, in her right, both of Newton in the County of Middlesex and Commonwealth of Massachusetts, to the Newton Centre Savings Bank dated July 22, 1927, and recorded with Middlesex South District Deeds in Book 5124, Page 197, of which mortgage the undersigned is the holder, and for breach of the conditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction, at ten o'clock, p. m. on Wednesday, the 4th day of September, A. D. 1935, on the premises hereinafter described, all and singular the premises described in said mortgage, to wit:—

A certain parcel of land and the buildings thereon situated in that part of said Newton called Newton Centre, bounded and described as follows:—Beginning at a point on the southerly line of Marshall Street at land now or formerly of Butts and thence running southerly by said land of Butts and land now or formerly of Drake one hundred thirty-nine and 96/100 (139.96) feet; thence running easterly by land formerly of Samuel D. Garey shown as Lot 8 on the plan hereinafter referred to seventy and 75/100 (75.75) feet; thence running northerly by Lot 3, shown on said plan, one hundred sixty-two and 35/100 (162.35) feet to said public auction; and thence running westerly by said Marshall Street seventy-five and 8/10 (75.8) feet to the point of beginning.

Recent Weddings

CHESTER—GODDARD

Miss Dorothy Louise Goddard became the bride of Dr. Kenneth Starr Chester, at the home of her parents, Mr. and Mrs. Isaac Goddard of Lincoln st., Newton Highlands, on Tuesday, August 13, at four o'clock.

The ceremony was performed by the Rev. Charles O. Farrar and the Rev. G. Vaughan Sheed. Mrs. Herbert Dobie of Worcester was matron of honor. Miss Phyllis Sweetser of Metcalf Meadows, Holliston and Newton Highlands was the bridesmaid.

Dr. Alden Bruce Hatch of Harvard was best man. The flower girl was Jean Elizabeth McNamara of Needham Heights.

The pink and blue floral setting was designed by Miss Elizabeth Dickerman Jones of Newton Highlands. The bride wore a period dress of white lace over white satin. Her veil, arranged in halo style, was caught up by orange blossoms. She carried a bouquet of gardenias and white roses. The matron of honor wore a pink dress with blue sash; the bridesmaid, a blue dress with pink sash. The flower girl's dress was white with blue, made in colonial style. She wore an old fashioned bouquet of pink sweetheart roses.

Rose petals were strewn in the pathway of the bride who was given away by her father. Before the ceremony Mrs. Albert F. Sweetser and son, Albert Gibby Sweetser played appropriate music which was resolved into the bridal chorus from Lohengrin.

Delicious buffet refreshments were served. After September first, Dr. and Mrs. Chester will make their home in Princeton, New Jersey.

STELZER—WARREN

Miss Lillian Adrian Stelzer of Sag Harbor, L. I., was married on August 10th to Walter Dexter Warren, Jr., at Washington, D. C. The ceremony took place at the Episcopal Cathedral and was followed by a reception. Mr. Warren is the son of Mr. and Mrs. W. D. Warren of 594 Centre st., a graduate of the Newton High School and of the University of Virginia, and is located in Washington, D. C., engaged in newspaper work.

SCHROCK—WETHERBEE

Announcement has been made by Mr. and Mrs. Charles G. Wetherbee of the marriage of their daughter, Miss Elizabeth Winslow Wetherbee, to Dr. Robert D. Schrock which took place at Newton Highlands on Tuesday, August 20th. Rev. Charles O. Farrar officiated. Dr. and Mrs. Schrock are to make their home in Omaha, Nebraska.

B. U. Terrier Mascot
Believed To Be Stolen

The Boston terrier mascot of Boston University disappeared from Nickerson Field on Tuesday afternoon and an appeal made to the Newton police to search for him. "Dannie", as he is known, is believed to have been stolen according to Warren E. Blanchard, caretaker of the field and custodian of the dog. Mr. Blanchard is certain that the dog would not have gone away of his own free will.

Newton police broadcast by radio a description of the dog. The animal is a brindle, wore a collar inscribed with the name of Dr. Daniel L. Marsh, president of the university. The dog license was issued in Brookline. "Dannie" has attended every football game at Nickerson field for the past two years and will be missed by Boston University students unless he returns before the college term opens next month.

Three Exhibitors Win
Flower Show Prizes

Three Newton exhibitors won prizes in the gladioli show at Horticultural Hall, Boston, last Saturday and Sunday. In the class of awards for blooms other than gladioli Mr. Thomas F. Donahue of Washington st., well known grower of bulbs, won a vote of commendation for his Phlox Hyming Bird. This species is one of Mr. Donahue's propagation with a snow white blossom with a ruby center. In the gladioli awards Mr. A. Stephen of Chestnut st., Waban, won a first prize for his display of a collection in a 75-foot plot. Second prize was won by the Newton Gladioli Gardens.

Births

BATCHELDER: on Aug. 7 to Mr. and Mrs. Harold W. Batchelder of 16 Landholm rd., Newton, a son.

WAUGH: on Aug. 17 to Mr. and Mrs. George Waugh of 23 Keefe ave., Newton Upper Falls, a son.

Refusal To
Answer Police
Brings Arrest

Victor Ferreira, 21, of North Main street, Natick, refused to answer police questions when interrogated Wednesday night while parked in a car with a girl at Newton Upper Falls causing his subsequent arrest and retention as a suspicious character. Patrolman Thomas R. Walsh of the Metropolitan police of the Riverside station came upon the young man and his companion parked in a car on Elliot street, near Echo Bridge, Newton Upper Falls. Ferreira refused to show his license or registration to the officer and refused to answer questions about himself. Taking the couple into custody they were conducted to the Riverside station and further interrogated by Sergeant Kenneth Chisholm. In the Newton court yesterday morning Sergeant Chisholm described Ferreira as a "shady character" to Judge William F. Bacon who sat on the case. The Metropolitan officer told of his discovery of a lock picker, several skeleton keys and a small flashlight in the young man's car.

After questioning the girl at the Riverside station she was sent home in a taxicab. She convinced the police that she had no knowledge of any unlawful designs that her companion might have had. The car in which Ferreira was arrested proved to be registered in the young man's name. The formal charges upon which Ferreira was arraigned were his refusal to comply with a reasonable request by a policeman. Sergeant Chisholm recalled a report that a man and woman were alleged to have been involved in several recent burglaries in and around Newton. He told the court of his suspicions and Ferreira was held in \$500 bail for a hearing Tuesday evening. Before being arraigned yesterday morning Ferreira was taken to Boston police headquarters where he was photographed and finger printed.

Newton Centre
Youth Killed
In Auto Crash

Theodore J. Goodman, 19, son of Mr. and Mrs. Joseph Goodman of 199 Ward st., Newton Centre, died on Saturday evening at the Beverly hospital from injuries received in an automobile accident at Beverly Cove early that morning. Goodman and two companions were on their way home from the artist's ball at Rockport when the accident happened. One of his companions was dazed and the other escaped serious injury. Young Goodman was an honor student at Harvard where he was a member of the sophomore class. He was a member of the year book committee and active in squash racquets competition. He was a graduate of the Newton High School.

His funeral services were held on Monday morning from his late home, Rev. Harry Levi of Temple Israel officiated and Rabbi Beryl Cohen, also of Temple Israel was in charge of the services at Wakefield Cemetery.

Three Dogs Are
Ordered Restrained

Three owners of dogs in Newton were ordered to restrain their pets Wednesday following various complaints over actions of the animals. Bernice Legro of 52 Rangely rd., West Newton, custodian of a dog owned by Charles Strick of that town, was notified by police to restrain the animal after complaints had been received that the dog had killed cats in the neighborhood.

R. E. Myers of Cherry st., West Newton, was ordered to restrain his dog after police were informed that the animal had bitten Patsy Yerardi of 34 River st.

Loretta Anese of Court st., Newtonville, was ordered to restrain his dog after Helen Cotton of 83 Court st. complained to police that the animal's barking annoyed her greatly.

Playground on
PWA Project List

The construction of a playground at the new Nevada st. school is the largest of the new projects submitted by the city to PWA authorities for consideration. The list of PWA projects drawn up by Harold E. Young, local ERA administrator, consists for the most part of a continuation of the numerous projects which have been carried out under the ERA. Among these are the Auburndale and Cold Spring playgrounds and Edmonds park.

The new projects to be considered call for repairs at numerous public buildings. An ERA project now being carried on is the painting of the towers and other parts of the City Hall.

AUTO ACCIDENTS

George H. Wheaton, 75, of Cushing street, Waltham, was struck by an automobile in Nonantum square a few minutes before nine o'clock on Monday morning. He declined medical treatment, however. The automobile was operated by Harold Kivlehan of Watertown. A large truck loaded with granite crashed into a pole on Walnut street near Bulough's pond Wednesday morning when the steering gear collapsed. Chester Aubrey of North Chelmsford, driver of the truck which is owned by the Marinel Transportation Company narrowly escaped injury. The front of the truck was badly damaged and the pole wedged between the right front wheel and the engine. In order to tow the disabled truck away it was necessary to move the heavy load of granite to another truck.

Legion Delegates Leave For Lowell Convention

Rear Row—Sherman Irving, Sgt.-at-Arms; Harry McPhee, Oswald McCourt. Middle Row—Frank Duggan, Adjutant; Leon H. Mayer, Jr. Vice Commander; Russell I. Viles, Past Commander; Charles E. Walker, Sr. Vice Commander. Front Row—Mayor Sinclair Weeks, Past Commander; Arthur R. McCarthy, Commander.

First Legion
Drill Team
In Contest

The Drill Team of Newton Post No. 48, American Legion, which is known as the "Newton Legion Guards," has formally entered the annual competition conducted by the State Department of the American Legion, which will be held on Saturday of this week at the Convention in Lowell. Each year at the annual convention conducted by the State Department competitions are held for bands, bugle corps, and drill teams and as this will be the first time any unit of Newton Post has entered one of these competitions the Legionnaires of Newton are hoping that the "Newton Legion Guards" will return from Lowell with one of the prizes. The local boys realize that they will be in competition against a number of wonderful teams from other cities in the Commonwealth, for the National Legion Team from Lynn Post is one of the contestants, as is Wollaston Post the present State Champions. Teams are also entered from Waltham, Waverly, and other Posts from Massachusetts, however, the Newton Team has been drilling every week during the past winter and will be in splendid condition to make the other teams hustle for prizes.

Last September Bart Morrisroe was selected to form a drill team for Newton Post and in November Captain George Hennrikus and Major Joseph Ward were engaged as instructors and during the past winter a team of thirty odd men have been drilling and training to enter the coming competition, so when the Newton Legionnaires enter the field on Saturday morning at Lowell the entire outfit will be ready for the judges' inspection.

The Annual Convention is being held in Lowell on Thursday, Friday and Saturday of this week, and while Newton Post will be represented by a large delegation on all three days the majority of the members of the Drill Team will not make their appearance in Lowell until time for the competition on Saturday when Captain Hennrikus and Lieutenant Ward of the team will have the men ready for their first competition. The Drum Corps of the Newton Ladies' Auxiliary won the State Championship last June and the drill team hopes to bring back another championship to Newton.

Bro. Fabian
To Head Boys'
Home Again

Brother Fabian, C. F. X., will return to Newton on Monday as superintendent of the Newton Working Boys' Home it was announced this week. Brother Fabian, who for fifteen years was head of the local institution, was transferred to St. Joseph's School of Somerville about three years ago. Announcement of the pending transfer was made by Brother Ambrose, provincial of the Xaverian Order.

SCHOOL FIRE ALARM SYSTEMS

Charges by Alderman Clarence C. Colby that some of Newton's school buildings are inadequately equipped with fire alarm systems will undoubtedly cause considerable concern on the part of parents of school children. The school department and the building department are cognizant of the needs of each school and it not only is their task but their responsibility to certify the fitness for use of these buildings as schools. We do not altogether agree with Alderman Colby that the fire systems in these buildings are entirely inadequate, but we do agree that in some instances more modern and improved systems are desirable. We do not believe the situation is serious enough to warrant undue fear upon the part of parents of pupils, but we are strongly in favor of Alderman Colby's suggestion that a survey be conducted to ascertain where needed improvements in this respect are most essential.

WILL ROGERS AND WILEY POST

The tragic death of Will Rogers and Wiley Post is one of the most heart-rending events that has occurred in many years. People all over the world and in all walks of life have experienced a sense of personal loss though they had never met either the noted humorist or the intrepid aviator. The tributes that have been paid to their memory are countless. The place they occupied in the hearts of the American people was well-earned and well-deserved. Though they have gone they will ever remain in the memory and history of the nation.

PWA Engineers Investigate Sewer Collapse

Under Washington orders PWA engineers have undertaken an investigation of the collapse of the Charlemont sewer which was constructed some time ago by the city as a PWA project. The purpose of the investigation is to determine whether or not the government will provide an additional grant to the city to aid in the cost of repairs required to make the sewer serviceable. Public Works Director Richard H. Ellis and City Solicitor Joseph W. Bartlett recently went to Washington in regard to the matter and made formal request for the additional funds. Pending the investigation by the engineers and their subsequent report to Washington the city will take no action in regard to repairing the sewer.

The original cost of the project was about \$100,000 and the repair work is estimated at an additional \$30,000. The sewer extends along the Charles River from Newton Upper Falls to the Charlemont section.

Tosses Chairs—Fights Arrest, Gets 3 Months

Newton police officers had a struggle to arrest a Nonantum man after the latter was found throwing furniture and other household articles from the window of his home last Friday. A crowd of about one hundred persons were attracted to the scene by the actions of Robert Burke, 35, of 70 Dalby street. They were interested spectators when Patrolmen Sartwell and Hannan appeared and attempted to place Burke under arrest. Before the police arrived several chairs and household utensils were thrown out of the window by Burke. Later the court was told that Burke fought desperately all the way to the police station where he was arraigned on charges of drunkenness and disturbing the peace.

Judge Charles J. Brown sentenced Burke to serve three months in the house of correction after revoking a previous suspension of a jail sentence on a charge of drunkenness. The charge of disturbing the peace was placed on file.

Peace Fails—Is Fined \$15

Leo Eskin, 34, of 20 Grant avenue, Newton Centre and Samuel Gornik, proprietor of a tailor shop in Newton Centre, failed to settle their differences in court last Friday and as a result the former drew a fine of \$15. Eskin was being tried for assault and battery upon the tailor when Judge William F. Bacon suggested that the matter was trivial and ought to be settled by an acknowledgment of satisfaction by the complainant. A recess was called for counsel and the opposing parties to confer but settlement of the problem failed. When court reconvened Judge Bacon was informed of the situation and the fine of \$15 was imposed. Eskin appealed. The tailor alleged that Eskin struck him during an altercation over some tapestries owned by the latter which he had left in the tailor shop to be cleaned. The defendant, on the other hand, charged that he was assaulted by the tailor and another man when he tried to take the tapestries out of the shop.

ABOUT TOWN

By Edward H. Powers

Rather embarrassing, isn't it, that the investigation of the huge expenditures of the Associated Gas and Electric Company to defeat the utilities holding bill, should come soon after the announcement that the gas rates in Greater Boston were to be increased 50 cents per month.

We received this week the following note and accompanying comment upon the disregard for automobile laws in Newton in response to opinions we have expressed in this column recently:

My dear Mr. Powers:

I like your war on law-breaking motorists and send along the enclosed for your column if you care for it.

"Twenty-eight motor deaths last week. Register Goodwin calls them 'appalling' and says they indicate 'speed and rum.' Perhaps but think a minute of some of the things seen in Newton last week.

"Yellow stop signs placed before entering a thorough way have come to mean almost nothing. At Newton a stream of cars shot out of the street opposite the Newton fire station led by a car that very nearly collided with a car going towards Newtonville. Out of the street side of the Community Theatre came a car with three young women crowded on the front seat, no one on the back seat. The driver with a cigarette drooping from loose lips, grinned as she swung her car ahead of another headed for the bank. Boys crowded into a small car came out of Hunnewell avenue and dashed across Washington street apparently on their way somewhere to play tennis. All along Commonwealth avenue the yellow signs might as well be taken down, they have ceased to mean anything.

"A small car filled with at least ten men, women, and children, also picnic baskets, ran through the red lights at Newtonville square and at Commonwealth avenue and Walnut street, probably in a hurry to get to the beach. A doctor's car, driven by a woman, passed cars waiting for green and ran through the red light at Commonwealth avenue and Walnut street. At Newtonville square it is a habit for cars to inch on to the pedestrian crossing all the time the red and yellow lights are on. All along Washington street cars honk to demand right to pass to the right of cars going in the same direction.

"Parking cars dark is a favorite trick along the north side of Commonwealth avenue and on the narrow streets of West Newton hill, often cars so parked are near street corners. Truck after truck goes along at night with rear light either out or concealed by being hidden under the body. Children evidently under legal age may be seen daily driving cars to and from playgrounds.

"Prevention is said to be better than cure. After an accident due to any one of the causes here before mentioned there is a hullabaloo and indignation. That does not help the hurt or the injured. In Newton the automobile rule is to make your own yellow stop sign. If you run through a policeman nearby, wave a friendly hand at him and keep on your way. "As the police and the courts do not apparently care to see that road laws are enforced would it not be a good thing for the self respect of the state and the city to repeal all the laws. Better no laws at all than laws which are not enforced."

SAM KRANK KICKER.

How many of the "mille-a-minute" men and the fast and furious females who operate automobiles at 50, 60 and more miles an hour over highways realize that at 40 miles an hour a car is travelling 59 feet a second; at 50 miles 74 feet a second; at 60 miles 88 feet a second; and at 70 miles 103 feet a second? How many of these show-off speedsters realize that even if they act instantly in case of emergency and apply the brakes it will take 166 feet to stop a car travelling at 50 miles, 226 feet to stop a car travelling at 60 miles, and 295 feet to stop a car whizzing at 70 miles? And these figures are for cars on which the brakes and tires are in perfect condition. Drunken drivers are a terrible menace, but speeders and reckless drivers are worse because there are hundreds of them for every one drunken driver.

Isn't it too bad that the United States did not join the League of Nations so that we would be much more apt to become embroiled in the impending war overseas. Italy, France and England have been so decent to this country in repaying the loans made by the U. S. A. to them during and following the World War, that it will be quite ungrateful on our part if we refuse to join them in the next wholesale murder activity. And aren't automobiles killing enough Americans every day to satisfy those who like carnage?

A lady residing near Watertown st. in West Newton has written us protesting against the constant procession of huge, noisy trucks along that street not only during daylight hours, but all through the night. She suggests that these trucks be made to travel along Washington st. between Newton Corner and West Newton. We sympathize with the lady but we believe her suggestion will not be followed. While it is true that such streets as Chestnut and Hammond have been closed to heavy trucking during night and early morning hours, the State Department of Public Works in the past has refused to restrict heavy trucks on such streets as Centre and Watertown sts. With the completion of the Worcester turnpike to Wellesley Hills it was inevitable that there would be a large increase in truck traffic on Watertown st.

The lady who is being annoyed by the noise of these huge, interstate

Noted Artists In Series Of Concerts at Wellesley

Announcement is made of the annual series of concerts given at Wellesley College in the beautiful and commodious Alumnae Hall. These concerts, now in their thirty-fifth season, begin Oct. 22nd. Every year internationally known artists are presented. Many of them are often presented before being heard in Boston. The concerts have attracted subscribers from over forty of the cities and towns of suburban Boston. Ample parking space near Alumnae Hall, which is about a half mile from Wellesley square, adds to the convenience of subscribers.

ARTUR SCHNABEL

The program this year is particularly enticing, offering the Boston Symphony Orchestra, Lawrence Tibbert, Ruggiero Ricci, Artur Schnabel and the Harvard-Wellesley Glee Chorus in a joint concert. There are still a few good seats at a reasonable price for the five concerts. Correspondence is invited by Dr. Hamilton Macdougall, manager of the concert series.

(and other) trucks on Watertown st., in common with millions of other citizens, can blame Massachusetts legislators and legislators of other States for permitting freight car size trucks and speeding busses to use public highways, instead of compelling such traffic to travel over private ways the same as railroad freight and passenger cars are compelled to.

Persons who have been receiving aid through ERA funds and who are to receive aid from WPA funds are classified into different categories and get varying amounts of compensation or pay. The lowest stratum, class, caste (or what you will) includes laborers, farm hands, and other unskilled (or alleged unskilled) workers. These are scheduled to receive from \$10 to \$13.75 each per week in this State, when and if funds are allotted or allocated. Skilled workers are listed to be paid from \$13.75 weekly to \$21.25, depending where they reside; the minimum rates being allotted to Dukes and Nantucket counties, and the maximum to the larger cities. Professional men and women are to get from \$15.25 a week to \$27.50. Then, there are the supervisors on larger projects, and others in higher capacities who will and who have been receiving even more. These varying amounts of relief are supposedly based on what the recipients know; but, as we remarked many months ago the determining factor in many places is "who they know."

Men who in normal times held responsible positions and earned excellent pay and salaries are classed as laborers or unskilled workers, and get only the lowest rating. Others, including mere youths and girls, untrained, and who never had any regular employment, are classified as alleged artists, actors, musicians or singers, receiving decent compensation, but one of the outstanding abuses of the ERA has been the spectacle of young and not so young persons categorized as professionals, who were not even amateurs. And these favored recipients have been getting much more compensation than competent, willing men and women who have families dependent on them.

With millions of others, we regretted to read of the tragic end of Will Rogers. But we were not surprised. For years we have had a hunch that Rogers would meet such an end. One does not always get a hunch by reasoning. Frequently one gets a hunch by lack of reasoning. Anyhow, we had this particular hunch. For the past decade, or longer, Will Rogers had been the outstanding propagandist in the U. S. A. for airplane travel. So persistently did he boost this method of transportation that some folks, including the writer, suspected he was an official publicist for air transportation companies. The probability is that we were wrong.

But Rogers boosted airplane travel so regularly that we thought "this fellow brags so much about the advantages of this new and as yet uncertain form of transportation, that he will become a victim of its hazards some day." Will Rogers was a fearless critic of hypocrisy, whether practiced by individuals or those in public office. He moulded public opinion and was a factor in curbing even more hypocrisy.

Textile leaders assert that the processing tax on textile products will kill this most important industry of New England. If this is so, and the administration at Washington continues to persist in its apparent determination to continue the processing tax, national election results in New England are apt to be quite different in 1936 from what they were in 1932.

Save Antiques In \$3000 Fire In West Newton

Priceless antiques, art objects and other valuable curios were saved from fire which damaged the home of Samuel Rogers, wealthy publisher, at 224 Valentine st., to the extent of \$3000 last Friday morning. The owner, proprietor of the Leslie Publishing Company of Boston, publishers of "Judge," estimated the value of his interesting collection at several hundred thousand dollars. Efficient work on the part of the fire department confined the blaze to the third floor where it started in a maid's room.

The fire was discovered by the maid, Madeline Clapp, who summoned the fire department by telephone. Mrs. Rogers was visiting a neighbor at the time the fire was discovered. Mr. Rogers, who was apprised of the fire by telephone, hurried home concerned about his collection. He praised the work of the firemen and expressed his appreciation of their efforts in preventing damage to the collection. Firemen found it necessary to raise ladders to the third floor of the three-story brick mansion in order to combat the flames.

Chief Randlett stated that the fire might have been caused by a lighted cigarette carelessly left on a bureau and expressed the belief that the fire had been smouldering for about an hour. When the firemen arrived the entire room was in flames but the spread of flames to other parts of the house was prevented. Water damage was also held down to a minimum.

Mr. Rogers' collection included a bed of the Emperor of China which he had acquired after it was sent from China to be exhibited at the World's Fair in 1892. The bed came from the summer palace of the emperor near Peking. Other valuable objects which are part of the collection include several autographed first editions of the works of Rudyard Kipling and Conan Doyle, paintings by famous artists and an original drawing by Haskell Coffin, symbolizing the entrance of the United States into the World War.

Arrested For Driving On Pike Reservation

Driving along the Worcester turnpike with the two left wheels of his automobile on the reservation and the other two wheels on the road brought Raymond A. Murray of Dover \$55 in fines in the Newton court on Wednesday. The attention of Patrolmen John A. McGrath and David T. Dalton was attracted to the car on August 14th and Murray was arrested on charges of operating while under the influence of liquor and drunkenness.

Testifying in his own defense Murray contended that he mounted the reservation to avoid an accident with a car which was crowding him while passing. He said that when the officers drew up beside him and yelled at him to stop he thought they were hold-up men but was relieved to discover they were only policemen. Murray admitted that another man who was with him was drunk at the time but denied that he had been drinking himself. Murray's companion was arrested for drunkenness at the time but his case was placed on file on August 14th. Murray's counsel alleged that the Newton police had refused to grant a request by Murray to call a physician to examine him after his arrest. Judge Charles J. Brown expressed doubt at such a statement asserting that it was his understanding that the Newton police do not decline such requests.

Murray appealed a fine of \$50 for operating under the influence of liquor and a \$5 fine for drunkenness. He was held in \$300 bail.

Noisy Trucks Prove Problem

Complaints from residents of Newton on Centre st. between Cabot and Hollis sts. of the nuisance resulting from heavy trucking on that thoroughfare have resulted in an attempt by the Newton police department to abate the nuisance. At the request of Mayor Weeks following the complaints Chief of Police Michael Hughes assigned Patrolman Michael Keating to investigate the situation.

Officer Keating came to the conclusion that the vibration of the sand and gravel trucks, more than the speed of the vehicles caused the annoyance. He accordingly prevailed upon the company which operates the trucks to route some of the trucks through other streets. It was then decided to send half of the trucks down Walnut st. and the other half down Centre st. Chief Hughes reported to the mayor that the situation had apparently been solved. Finally had the report been made, however when city officials began to receive complaints from residents of Cabot st. which the trucks were using to reach Walnut st.

REAL ESTATE

John T. Burns & Sons, Inc., report that they have sold for Margaret C. Henry her Queen Anne type seven-room home located at 281 Homer st., Newton Centre. With the house there is a two-car garage and 9800 square feet of land, and the total assessment on the property is \$10,200. Mrs. R. Loebner purchases for a home and will occupy.

Burns & Sons have also sold the mercantile property located at 2255 Washington st. in the Newton Lower Falls district, comprising a frame two-story building and 6500 square feet of land, the total assessment of which is \$8100. F. W. Webster, trustee, of St. Petersburg, Florida, conveys to E. Aletter.

The Purpose of Savings Bank Life Insurance

Savings Bank Life Insurance has been subjected to every test, and no feature of its provisions can possibly lead to private interest or private gain.

It is a system based upon co-operation and economy. Let us explain many more of its attractive features to you.

"The Place for My Savings"

Rotarians Hear Talk on Wool

Fred M. Blanchard, prominent in the wool business in Boston and a leading citizen of Newtonville, told the Newton Rotary Club on Monday the story of "Wool." Boston is next to London the greatest wool market in the world, he said. Australia has become the leading sheep-raising country, its output being nearly double that of the United States. Sheep-raising is pretty general throughout our country, and Texas has in recent times become our greatest sheep-raising state. Mr. Blanchard held the very close attention of his audience in his description of the various processes by which wool is made into the various fabrics of use to man. "Wool is both warm and cool," he said, "and it is the best thermostat in the world. It is a great insulator, keeping out the cold and the heat." This is what makes wool such a universally favorite wearing material. Many questions were asked of Mr. Blanchard at the close of his talk which he answered in a most interesting way.

The speaker was introduced by former Mayor Childs, who is in charge of the programs for August. Eight guests were present from other clubs. Dr. Frank Clark reported on the plans for the forthcoming conference at Poland Spring last month. A report was also made on what help from the Club's good cheer fund had recently done for an underprivileged boy.

Wild Chase on Turnpike Ends In Arrest

An automobile traveling about 85 miles an hour on the Worcester turnpike Tuesday afternoon attracted the attention of motorcycle officer Alfred W. Hammell who after a three-mile chase followed by a foot race into the woods finally captured John Peluso, 20, of Cranberry Lake, Spencer. The wild ride took place shortly after noon and started near Langley rd., Newton Centre, extending into Brookline. Peluso and a companion stepped their car and fled into the woods with Officer Hammell in close pursuit. Peluso gave up when the officer drew his gun and ordered the fugitive to stop. The other youth escaped. The excitement attracted scores of motorists who stopped at the scene and witnessed the capture.

The car proved to have been stolen in Lynn on Sunday from George F. Haley, a fireman, of 358 Eastern ave., Lynn. Peluso is alleged to have admitted that he and his companion forced an entrance to the Haley garage and had stolen the car. He said they drove home to Spencer and on Tuesday were headed for Revere Beach when Officer Hammell saw them and set chase.

Investigation revealed that Peluso was released about three weeks ago from the Concord Reformatory where he had served a term for theft of an automobile.

Arraigned in court on Wednesday Peluso pleaded guilty to charges of larceny of an automobile, refusing to stop on signal of an officer, speeding, operating to endanger and driving without a license. Bail of \$7500 was set and the case continued until this morning for trial.

WOMAN'S RELIEF CORPS DAY

The board of directors of the Gov. John A. Andrew Home have designated next Wednesday, Aug. 28th, as Woman's Relief Corps Day. All members of the order will be welcome from 10 a. m. to 9 p. m. The Gov. Andrew Home is located on Washington Park, Newtonville.

CHRISTIAN SCIENCE

"Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 25.

The Golden Text is: "Who hath known the mind of the Lord, that he may instruct him? But we have the mind of Christ" (1 Corinthians 2:16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God" (Romans 12:1, 2).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "To be every whit whole, we must be better spiritually as well as physically. To be immortal, we must forsake the mortal sense of things, turn from the lie of false belief to Truth, and gather the facts of being from the divine Mind" (p. 369).

More Speeders In Newton Court

Elizabeth Farley, 20, of South st., Needham, was fined \$5 in the Newton court last Friday morning on a charge of speeding. Charges of driving without a license and without a registration were placed on file.

Charges of speeding against Reginald Sawyer, 38, of Medford, and Natalie E. Eynon of Winchester were placed on file.

—The property at 58 Highland ave. has been purchased by Kathryn Yarlott.

—Harold W. Adams and family have moved from 307 Cabot St. to Lewis terrace.

—Miss Pheta Starrett of Walnut st. has returned from her vacation at Keene, N. H.

—Mr. and Mrs. Don Enoch of Walker st. have returned from a trip to California.

—Mrs. Clifford Kendall and her sister, Miss Doris Lewis, have gone to York Beach, Maine.

—The estate located at 99 Kirkstall rd. has recently been purchased by Alan P. L. Prest of Waban.

—Mr. and Mrs. Vincent Brodeur of Harrington st. are spending their vacation at West Haven, Conn.

—Miss Elizabeth Hartshorne has returned from visiting her friend, Miss Linwood Durgin at Pine Point, Maine.

—Mr. and Mrs. Frank Morris of Chesley ave. are on a trip through Ontario and the Middle western states.

—Mrs. Harriet C. Bartlett and daughter, Gertrude, have spent the past week in New York and Philadelphia.

—Mr. and Mrs. Henry Nickerson and daughter Louise, of Walker st. have returned from their vacation on Cape Cod.

—Austin Doherty of Norwood ave. is recovering from an illness which has confined him at his home for several weeks.

—Rev. Wynn C. Fairfield of Cabot st. will be the preacher at the union service in the Central Church on Sunday morning.

—Mr. and Mrs. Edwin F. Brown and daughters, Virginia and Lois, have been spending the week at Newfound Lake, N. H.

—Mr. and Mrs. Paul Harriman are spending their vacation in Maine.

—Miss Marie Slader of Lowell ave. is at Dennisport.

—Miss F. Eddy of Kirkstall rd., sailed Saturday for the Franconia for Ireland where she will spend her vacation touring the country.

—Billy Ryan, son of Mr. and Mrs. Wm. R. Ryan of Norwood ave. is recuperating from a severe illness at the Children's Hospital.

—Mr. and Mrs. Hubert Lasell Carter of Otis st. are spending the summer at their home at Jefferson Highland in the White Mountains.

—Mr. and Mrs. Walter F. Burt of Nevada st. are on a trip through the Shenandoah valley, Asbury park and other points as far south as Washington.

—Mr. George W. Bartlett, son of Mrs. Harriet C. Bartlett of 91 Court st. has moved to Philadelphia, Pa., where he has accepted a position at the Navy Yard in the Naval Aircraft factory.

—Miss Marcia Hallam Bohn, daughter of Mrs. Elena G. Bohn of Madison ave. will be married on Aug. 28 in Terre Haute, Ind., to Mr. Alexander Cochran of Indianapolis. They will live in Indianapolis.

—Mrs. Alice Mitchell of 275 Austin st. was struck by a car driven by Joseph Blaguer of 111 Mt. Vernon st. yesterday during the storm. She was taken to the Newton Hospital where she was treated for a scalp wound.

—Joy Benjamin, daughter of Mrs. Leon Benjamin of Madison ave. and Helen and George Colan, children of Mrs. Joseph Colan of Bridges ave. are spending the summer in Scituate with their grandmother, Mrs. Widger of Madison ave.

—Two beautifully illustrated and descriptive pamphlets of the Wee Kirk O' Heather, where interment services were held for Will Rogers yesterday afternoon, and Forest Lawn Cemetery, Glendale, California, where his body will rest, have been loaned to the Newtonville Public Library by Dr. Clarence T. Berry.

—Miss Elaine McKusick of Farwell st., Newtonville, has been awarded a scholarship to the senior class of the Modern School of Applied Art, Boston. This honor was won for excellence of work accomplished in the Junior year at the same school.

—The school specializes in Costume Design and Interior Decoration and has on its advisory board many prominent persons including Dr. Edwin H. Place and Mrs. Frederick S. Blodgett of West Newton. Mrs. James J. Storrow of Lincoln, Massachusetts, is also one of its sponsors.

—Besides the regular full time course, stylists and homemakers are offered part time study. A course in Drapery Making and Slip Cover Construction is attracting considerable interest. Mr. Charles Mattioli has been secured to give a course in Pattern Making, Grading and Designing. He was formerly with William Filene's Sons Company and Madam Ruby and is nationally known as a designer of smart attire. Besides these practical courses the full time curriculum includes a Fine Arts approach to the professions of Interior Decorating and Costume Design.

—The Directors of the school are actively associated with the industrial world and find that even in these times the properly trained student is in great demand. The school is open daily from one until four or by appointment to receive inquiries and registrations for the fall class opening on September twenty-third.

Dr. Fairfield To Preach At Newtonville Service

Another interesting service has been planned by the summer Supply Committee for the union service to be held next Sunday morning at the Central Congregational Church in Newtonville. The service which starts at eleven o'clock will have as the preacher, Rev. Wynn C. Fairfield, D.D., Foreign Secretary of the American Board of Commissioners for Foreign Missions. His subject will be: "God Save America!"

REV. WYNN C. FAIRFIELD, D.D.

Dr. Fairfield returned in July from a seven months' absence in the Far East, during which he not only visited the work of his own Board, but also was in touch with the outstanding Christian leaders of other denominations. During parts of his visit in China he worked in close co-operation with the secretaries of the Methodist and Presbyterian foreign mission boards who carry similar responsibilities.

His travels brought him into touch with men like Kagawa of Japan and H. H. K'ung, Minister of Finance and acting prime minister of China, as well as with scores of others less well known. His sermon will not be a report of his journey, but observations of his experiences and the progress of the general situation and the progress of the Christian program in the Far East.

Dr. Fairfield has been very active in the life of Central Church, serving as the leader of the Sunday morning Men's Bible Class and as the Chairman of the Committee on Religious Education.

Mrs. Rebecca M. Reed will be the soloist.

Newton Upper Falls

—Miss Lillian M. Frost of Hale st. is visiting friends in Canada.

—Mrs. Annie Lacy of Cottage st. is a patient at the Newton Hospital.

—Stuart McLean of Petee st. is the guest of relatives in Paterson, N. J.

—Miss Irene Butchart is enjoying a vacation at Camp Hillcrest, Morse's Pond, Wollastox, N. H.

—Mrs. Josephine Young of Wetherell st. spent the week end with her nephew at Bristol, R. I.

—Mrs. William Terrio of Thurston rd. left Tuesday for California where she will be the guest of relatives.

—The Bridge Club met at the home of Mrs. Wm. Dunham for dessert luncheon on Thursday afternoon.

—Mr. and Mrs. Leo Davis of Mechanic st. are receiving congratulations upon the birth of a son on Monday, Aug. 19.

—Rev. and Mrs. G. Vaughan Shedd of High st. have returned from a visit to relatives in Buffalo and Dolgeville, N. Y.

—Mrs. Chas. Thomas (nee Alice Evans) of Indiana is the guest of her parents, Mr. and Mrs. Walter Evans of Thurston rd.

—Mrs. Carl Cederger and daughter Lois of Indiana are the guests of Mrs. Cederger's parents, Mr. and Mrs. Mobry Truax at Prouts Neck, Me.

—Miss Elizabeth O'Hearn and friends Miss Catherine Murphy and Elizabeth Shields have returned from a week-end motor trip to Kearsarge, N. H.

—Mr. and Mrs. Ernest Burrows of 226 Elliot st. are attending the convention of the Daughters of St. George at Cleveland, Ohio during next week.

—Miss Reta Murphy and brother John and Mr. Allan Lectner of Brighton are motoring to Sidney, Cape Breton, N. S., where they will visit relatives for two weeks.

—Mr. Elliot Carmichael and Dr. James Walker, who were the guests of Mr. Carmichael's uncle, Mr. Thomas Carmichael for the past ten days, have returned to Wisconsin and Chicago, Ill.

—Mr. Louis P. Everett of High st. and Mr. Joseph Temperley of Newton Centre are motoring to California. They will travel via the northern route returning via the southern route in the early fall.

—Mrs. Harold Truax and daughter Natalie were the week-end guests of Mrs. Truax's parents, Mr. and Mrs. Mobry Truax at Prouts Neck, Maine. Natalie will spend two weeks with her grandparents.

—Mr. Delbert Bosworth and Mr. Harold Truax have returned from a week-end trip to Fryeburg, Maine. Mr. Bosworth's son Conrad will be the guest of his grandparents at Fryeburg for the next two weeks.

—Mr. and Mrs. Wilfred R. Morton of 25 Oak st. left Friday for Cleveland, Ohio, where they will attend the convention of the Daughters of St. George as delegates of the lodge No. 203, Daughters of St. George.

—Miss Nancy C. Hunting, youngest daughter of Mr. and Mrs. Frank Hunting of Champa ave. is the guest of friends in Greenfield, Mass. She will accompany them on an auto trip to Virginia and Ohio where they will visit her oldest sister, Bertha and husband before returning home.

West Newton

—Mr. F. L. McDonald has purchased the residence at 111 Warwick road.

—Dr. N. Louise Rand of Austin st. is spending a season at her camp in Canton.

—Miss Grace McCarthy of Webster st. is enjoying a North-Cape-Bermuda cruise.

—Mrs. Joseph Woods of Crafts st. has returned from her vacation at Eastport, Maine.

—Mr. and Mrs. Eugene Rich of Henshaw st. are spending their vacation in Duxbury.

—Mr. and Mrs. Nathan L. Conway of Forest Street are spending a few days at York Beach.

—Mr. and Mrs. R. A. Stinson of Davis ave. are spending this week in Castleton, Vermont.

—Mr. and Mrs. Joseph A. Weigler and family of Gilbert st. are on a motor trip to Cleveland, Ohio.

—Mr. and Mrs. Robin De Blois of Dana rd. are leaving this week for a motor trip through New Hampshire.

—Mr. and Mrs. Robert A. Nugent of 22 Upham st. are receiving congratulations upon the birth of a daughter.

—Miss Nancy V. Carter of Elm st. has recently returned from a three-months' visit in Minnesota and Michigan.

—Mr. and Mrs. Kenneth Collinson of Valentine park, have returned from a month's stay in Whitefield, New Hampshire.

—Mr. Horace Rounds, son of Mr. and Mrs. Frank Rounds of Sewall st. is spending this week on a motor trip to Philadelphia, Penn.

—Mr. and Mrs. Harvey Whitmore and two daughters of Sewall street, returned last week from their vacation spent in Concord, N. H.

—Mr. Joseph McCourt and daughter, Mary McCourt of Greenwood ct. are planning to sail for Savannah on the Merchants & Miners line.

—Mr. and Mrs. Rufus Nelson of 107 Mount Vernon st. left last week for Webster Lake, Franklin, N. H., where they will spend their vacation.

—Mrs. John Morgan of Dartmouth st. is spending a season at the New Ocean House, Swampscott, where she is entertaining friends from the West.

—John T. Burns & Sons Co., have been in the Real Estate Business in the Newtons for nearly 50 years. Their adv. on page 7 will interest you.—Adv.

—Mr. and Mrs. Hubert Lazell Carter and family, of 17 Otis st., are spending the season at "Boisemont", their summer estate at Jefferson Highlands, N. H.

—Mrs. Louie A. Bacon of 354 Waltham st. entertained in the form of a lawn party at her home on Friday of last week, in honor of her sister, Mrs. Lena Davis and her niece, Dr. Irene Furgeson, both of Pittsburgh, Penn.

—Mrs. Alton F. Tupper of Chester st. has returned from California.

—The Morgan family of Rockledge rd. have moved to Needham.

—Mr. Carl Maloney of Floral st. is enjoying his vacation at Hyannis.

—Mr. F. H. Gerlach and family of Walnut st. have moved to Kingston, N. Y.

—Miss Virginia Thomas of Hyde st. is visiting Miss Dorothy Atwood at Scituate.

—Miss Marion Morse of Allerton rd. has been spending the week in Connecticut.

—Mr. and Mrs. Charles Delany of Floral st. spent the week-end at West Rindge, N. H.

—Mrs. Fred Low of Lake avenue has been visiting her mother at Hyannis this week.

PLAN WHIST AND BRIDGE

A whist and bridge is being planned in aid of St. Joseph's Seminary at the St. Joseph Parish Hall at West Everett on September 9th. A small admission charge will be paid. The committee includes Leo Farragher of Newton, Joseph Maurer of Watertown and Gilbert Demers of Everett.

NEWTON CENTRE RESIDENCE SOLD

Alvord Bros. report that the beautiful brick Colonial home at No. 5 Hamlin road, Newton Centre, has been purchased by Mrs. J. E. Blacker, of Brookline, from the Home Savings Bank of Boston. The house has eight rooms, with many extra fine features including a breakfast room, three baths, four master's chambers, and a maid's room. Also, there is a brick two-car garage. The lot contains about 10,000 square feet of grounds which are beautifully landscaped and add further to the charm of the whole property. The property is assessed by the City of Newton at \$16,000.

3 Ceilings Whitened

I will Whiten any 3 Ceilings in your House (outside of Master Chamber and Living Room) if you have them, for

\$8.00

Now this is the lowest price ever made for Ceilings. Not for 20 years have you had any Ceilings done for as low as this. Remember, this is for good work—no better can be done than you will get from me. All Ceilings are positively washed off before being laid in. All work is done in a clean manner. No Mess. No Dirt. No Waiting. Prompt Service. Satisfaction is Guaranteed. Call.

Legal Notices

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of a Power of Sale contained in a certain Mortgage Deed given by Agnes D. Craig, wife of William Craig, in and to the City of Boston, County of Suffolk, Massachusetts, to the Commonwealth of Massachusetts, as Trustee, for the purpose of securing a loan of \$10,000.00, made by the Commonwealth of Massachusetts, as Lender, to the said Agnes D. Craig, wife of William Craig, dated and recorded in the County of Suffolk, Massachusetts, in the Office of the Registrar of Deeds, Book 12, Page 65, and with Middlesex County South District Registry of Deeds, Land Office, as Document No. 122950, noted on Certificate of Title No. 34603, Book 231, Page 361, for breach of the conditions of said mortgage, and for the purpose of foreclosing the same will be sold at public auction on the first parcel of the premises hereinafter described on Saturday, September 14, 1935, at 9:00 o'clock in the forenoon, all and singular the premises conveyed by said mortgage deed and therein described as follows, to-wit:

A certain parcel of land with the buildings thereon situate in that part of Boston formerly Brighton, bounded and described as follows:

Southerly by Brayton Road, nine and 58/100 (58.58) feet; Southwesterly by the line between the City of Boston and the City of Newton, being Lot 12a as shown on the plan hereinafter mentioned, fifty-eight and 78/100 (58.78) feet; Westerly by Lot 50a as shown on said plan, thirty-four and 36/100 (34.36) feet; Northerly by Lots 2 & 3 as shown on said plan, forty-six and 64/100 (46.64) feet; Easterly by Lot 50b as shown on said plan, eighty (80) feet.

Said land is shown as Lot 50a on the Sub-division Plan drawn by F. A. Garvin, C.E., dated June 1931, approved by the City of Boston, and recorded in the Office of the Registrar of Deeds, as Plan No. 3778 J, a copy of which is filed in the Registry District of Suffolk County. Said premises are conveyed subject to any easements acquired by the City of Boston under instrument No. 30462, dated November 5, 1928, filed and registered as Document No. 88499.

Also another parcel of land with the buildings thereon situate in Newton, Middlesex County, Massachusetts, and bounded and described as follows:

Southerly by Rogers Street, thirty-seven and 6/100 (37.06) feet; Northwesterly by the line between the City of Boston and the City of Newton, being other land of said grantor and shown as Lot 50a on said Plan, fifty-eight and 78/100 (58.78) feet.

Said lot is triangular in shape and is shown as Lot 50a on the Sub-division Plan approved by the Court, filed in the Land Registration Office, a copy of which is filed in the Registry District of Suffolk County. Said premises are conveyed subject to any easements acquired by the City of Boston under instrument No. 114786, noted on said Certificate.

Said premises will be sold subject to all unpaid taxes, tax liens and other municipal assessments, if any there are. Five Hundred Dollars will be required to be paid by the purchaser at the time and place of sale. Other terms will be announced at the sale.

BRIGHTON CO-OPERATIVE BANK, Mortgagee and present holder.

By Robert G. Leavitt, Treasurer. For further information inquire at office of Martin Hayes, Attorney, 18 Tremont Street, Boston.

Aug. 23-30-Sept. 6.

—Louis B. Huntington of Hun-
newell ave. is camping for the sea-
son at Camp Massapog, Dunstable,
Mass.

—Miss O. Deatrice Forknall of the
Marion apts. Washington st. has re-
turned from a season at Ocean Park,
Maine.

—Miss Margaret Aubin of Vernon
court returned this week after a
long visit to the Rocky Mountain
States.

—Mr. and Mrs. A. Gordon Arm-
strong of Walton park are at West
Dennis, Mass. for the balance of the
season.

—Mr. Arthur Cheverie of Chan-
ning st. has returned from the New-
ton Hospital and is much improved
in health.

—Mr. and Mrs. William T. Des-
mond and son of Waban st. have
returned from a vacation at Mar-
lowe, N. H.

—Mr. and Mrs. William P. Fox
and daughter Joan of Copley st. have
returned after a month's visit at
Andover, Mass.

—Mr. and Mrs. Wallace Wales of
Mount Ida Terrace spent a few days
last week at their summer estate
in Harwichport.

—Jack Perry, youngest son of Mr.
and Mrs. M. H. Perry of Hunnewell
ave. returned this week after a
summer at Camp at Brookfield, Mass.

—Mrs. Joseph B. Simpson and
Miss Dorothy Simpson of Hun-
newell ave. have returned from their
summer estate at Annisquam, Mass.

—Mr. Edward Stanton, son of Dr.
and Mrs. Joseph Stanton of Shorne-
cliffe rd., entered the Jesuit Novitiate
at Lenox on Aug. 15 to begin
studies for the Priesthood.

—Mr. Gordon Harriman, son of
Mr. and Mrs. Henry I. Harriman of
Centre st., who is a graduate of Avon
School in Connecticut, is spending
the month of August at Bone's
Ranch in Birney, Montana.

—Among the passengers who
sailed on the Anchor Line Transyl-
vania, on Sunday for the Canadian
North Capes were Dr. and Mrs. Gay-
lord W. Anderson. Dr. Anderson is
Deputy State Health Commissioner.

—Robert Mandell West of 96 Nonan-
tum st. has qualified as an expert
rifleman in the junior division of the
National Rifle Association. He is a
member of the rifle club of the Great
East Lodge of Sanbornville, New
Hampshire.

—Miss Edith Jamieson of Eld-
redge st., who has been educational
lecturer for Lever Bros. Co., Mrs.
of Lux, for several years, is leav-
ing this week to be on the staff of
the Research Bureau for Rail-
Training in the University of Pitts-
burgh, Pittsburgh, Pa.

—The well attended union prayer
and praise meeting at Eliot Church
Thursday evening was conducted by
Mr. Fred Tippet of 16 Kendall ter.,
Newton. Mr. Tippet is one of the
preachers of the Little Church on
Wheels, Boston. Mr. Edgar Randall
is in charge of the music and gospel
solo singer. Next Thursday evening
another well known Christian worker
will lead and Mr. Randall will sing.

—The spread of infantile paralysis,
which is causing considerable alarm
in many quarters, has not reached
Newton. It was decided last Saturday
when the one suspicious case discov-
ered was proven negative. The pa-
tient, a young girl, displayed early
symptoms of the disease and the case
was reported to the Board of Health
last week as suspicious. Since the
case was discovered, however, the pa-
tient has shown no additional symp-
toms and physicians have decided
that she suffered from another ail-
ment. She is reported as well on the
road to recovery.

—During the Civil war, some of the
soldiers' uniforms were made of shod-
dy. The term then came into general
use for describing anything that was
inferior or adulterated.

—Miss Edith M. Waters, daughter of
Mr. and Mrs. Thomas M. Waters, died
on Friday, Aug. 16th, at her home,
54 Court st., Newtonville, after a short
illness. Miss Waters, who was in her
forty-third year, had lived in Newton
all her life. She was a member of
Middlesex Court, M. C. O. F., and Di-
vision 22, Ladies' Auxiliary, A. O. H.
Funeral services were held on Mon-
day from her home with a solemn
requiem mass at the Church of Our
Lady at nine o'clock which was cel-
ebrated by Rev. Daniel Riordan, with
Rev. John J. Quinlan as deacon and
Rev. Russell Haley as subdeacon.
Rev. Patrick Waters and Rev. Charles
Bryson were seated within the sanc-
tuary. Burial was in Calvary Cem-
etery, Waltham. Miss Waters is
survived by her parents, two sisters,
Miss Agnes Waters and Mrs. Mary
Bowen, and five brothers, Thomas
Waters of Fitchburg, Joseph Waters
of Brookline and Frank, George and
Harold Waters of Newton.

Recent Deaths

GERTRUDE F. THOMPSON

Miss Gertrude F. Thompson of 179
Hancock st., Cambridge, died on
Sunday, Aug. 18th, after an illness of
several months. Miss Thompson,
who was in her 70th year, was born
in Chicago but had lived the greater
part of her life in Newtonville and
Cambridge. For thirty years she was
connected with the advertising de-
partment of a large magazine until
1922 when she retired. She was a
member of the Union Congregational
Church of Boston and of the Cana-
bridgians Club of Cambridge. Funeral
services were held on Wednesday af-
ternoon in Waltham. She is sur-
vived by two sisters, Mrs. Charles
Record of Waltham, and Mrs. Mil-
dred H. Chase, of Pasadena, Calif.

ELIZA E. NODEN

Mrs. Eliza Etta Noden, wife of
George S. Noden, of 22 Nonantum
place, Newton, died on Sunday, Aug.
18th, after an illness of several
months. Mrs. Noden was the daugh-
ter of Richard and Mary Bates and
had lived in Newton all of her life.
She was a member of Eliot Church.
Funeral services were held on Wed-
nesday afternoon at two-thirty at her
late home. Rev. Alden Clark of Wel-
lesley officiated. Burial was in Newton
Cemetery. She is survived by her
husband, one daughter, Miss Annie
Noden of Newton, and two sons, Da-
vid and Harold Noden, both of New-
ton; also by two sisters, Mrs. Hiram
Hartford, of Shirley, Mass., and Mrs.
James Irving, of Newton.

JOHN MELVIN BENTLEY

John Melvin Bentley of 4 Bradford
rd., Newton Highlands, died sudden-
ly of heart trouble on Friday morn-
ing, Aug. 16th, at the Chelsea Naval
Hospital, where he had been for the
past three months. Mr. Bentley, who
was 40 years of age, had lived in New-
ton the greater part of his life, was
educated in the Newton schools and
at Connecticut State and Tufts Col-
leges. Funeral services were held on
Sunday afternoon at four o'clock at
his late residence. Rev. Charles O.
Farrar officiated. Burial was in
Newton Cemetery. He is survived by
his widow, Serena Remick Bentley; a
son, John Melvin Bentley, Jr., and by
his mother, Mrs. Lucy Bentley.

EDMUND A. LINDSAY

Edmund A. Lindsay, son of the
late Edmund and Mary E. Lindsay,
died on Sunday, August 18, at the
Newton Hospital. He was in his 35th
year and had lived in Newton for the
last twelve years. He resided with
his uncle, Mr. Timothy Falvey of 331
Cabot st., Newtonville. Funeral serv-
ices were held on Tuesday morning at
the Church of Our Lady, Newton.
Rev. Fr. Sheridan was the celebrant
of the mass. Burial was in Calvary
Cemetery, Roxbury.

EDITH M. WATERS

Miss Edith M. Waters, daughter of
Mr. and Mrs. Thomas M. Waters, died
on Friday, Aug. 16th, at her home,
54 Court st., Newtonville, after a short
illness. Miss Waters, who was in her
forty-third year, had lived in Newton
all her life. She was a member of
Middlesex Court, M. C. O. F., and Di-
vision 22, Ladies' Auxiliary, A. O. H.
Funeral services were held on Mon-
day from her home with a solemn
requiem mass at the Church of Our
Lady at nine o'clock which was cel-
ebrated by Rev. Daniel Riordan, with
Rev. John J. Quinlan as deacon and
Rev. Russell Haley as subdeacon.
Rev. Patrick Waters and Rev. Charles
Bryson were seated within the sanc-
tuary. Burial was in Calvary Cem-
etery, Waltham. Miss Waters is
survived by her parents, two sisters,
Miss Agnes Waters and Mrs. Mary
Bowen, and five brothers, Thomas
Waters of Fitchburg, Joseph Waters
of Brookline and Frank, George and
Harold Waters of Newton.

DAVID J. ROBILARD

David J. Robillard of 12 Taft ave.
West Newton, died on Sunday, Aug.
18th, at his home. Mr. Robillard was
born in Cambridge and had resided
in Watertown for several years be-
fore coming to Newton about three
years ago. He was in his 55th year.
Funeral services were held on Wed-
nesday morning from his late home
and a high mass of requiem was cel-
ebrated at St. Jean de Baptiste
Church, Newton, at 9 o'clock. Burial
was in St. Patrick's Cemetery, Water-
town. He is survived by his widow,
Mrs. Ann Gallagher Robillard, and a
daughter, Mrs. Irene McLean, of New-
ton.

ERNEST BEAUFORT

Ernest Beaufort, a former well-
known Newton resident, died on Sun-
day, Aug. 18th, at his home, 57
Strathmore road, Brookline. Mr.
Beaufort was in his 75th year. He
was born in County Kent, England,
and came to Canada at an early age.
He established the Canadian bureau
of the Christian Science Monitor and
for the past seventeen years had been
with the Christian Science Monitor
in Boston. Funeral services were held
on Tuesday afternoon at the Water-
man Chapel in Boston. The services
were read by Mrs. Clara K. McKee,
Christian Science reader from the
Mother Church. Cremation followed
at Forest Hills. Mr. Beaufort is sur-
vived by his widow, Mrs. Margaret
M. Beaufort; a son, John David
Beaufort; a daughter, Miss Pauline
Beaufort, and three step-daughters,
Mrs. R. G. Simmins, Mrs. J. C. R.
Young and Mrs. Patrick Cullanan.

MARY E. CALLEY

Mrs. Mary E. Calley, widow of
Preston J. Calley, died on Friday,
Aug. 16th, at her home, 39 Pulsifer
st., Newtonville. She is survived by
two daughters and a sister. Burial
was at Woodlawn Cemetery, Everett.

Traffic Survey Shows Parking Sites Needed

Problem Discussed In Recent Report

The report of the Newton Traffic Survey made under ERA auspices says: "Parking may be permitted on public streets for a length of time consistent with public demand wherever such parking does not seriously restrict movement of traffic. All parking regulations and restrictions are based upon this principle." The report states that—"In Newton the drastic regulation by which parking is entirely prohibited has been used quite frequently, usually because of the meagre width of the streets so regulated. While no changes in the present prohibited areas are suggested in this report, any extensions of this regulation should be carefully studied before being effected. Such a regulation should not be enacted unless the necessity for it is carefully determined."

Time studies were made at the one-hour parking spaces at Newton Centre, Newtonville and Newton Highlands. Observations indicated that "Half the drivers stop for 10 minutes or less, 70% stop twenty minutes or less, 80% stop thirty minutes or less, 90% for an hour or less. The average driver parks about 20 minutes and 70 out of every hundred cars parked, stay this long or less. It would appear then, that curb parking is in great demand by those who wish to stay but a few minutes. Since their stay is so short, these people cannot be fairly expected to walk very far from where their car is parked. Yet, more facilities must be provided for

Camp F. A. Day Closes Season With Banquet

Camp life which has been carried on at a fever pitch at Camp Frank A. Day for the past few weeks was brought to a rousing close with the annual Camp Banquet on Tuesday night.

League athletic games have been played which caused several upsets as to the ultimate winner of the athletic championship of the Camp. Final swimming meets, track meets and canoe regattas have been carried out under the able supervision of the Waterfront Committee which consisted of Thomas O'Donnell, Edward Campbell and William Fish.

A giant treasure hunt was held on last Wednesday, Thursday and Friday which ended with Edward Fettes and Norman Lowell being declared the winners in the Senior Camp, Ted Humphrey and Charles Damon in the Junior Camp and Robert Gorton and Mitchell Majerison in the Midget Camp.

A group of ten members of the Junior Camp made a trip to Camp Lawrence on Bear Island at Lake Winnepesaukee in New Hampshire, under perfect weather conditions climbed Mt. Chocoma and visited several camps around the lake. The boys readily realized the importance of contacts with other camps and campers.

The final tennis matches were won by Harold Bronson in the Senior Camp and John Walenstein in the Junior Camp.

Banners were awarded to Tents 2, 12 and 9 for having the best inspection totals for the year in the Senior, Junior and Midget camps respectively.

After the prizes had been awarded to the Leadership Award was made

Relief Agencies Meet, Discuss Welfare Plans

Social Service Exchange Is Recommended

The Newton Community Chest, Inc., has taken the initiative in calling two meetings of all the representatives of the welfare and relief agencies, to discuss the work of each and to co-operate with them in setting up co-ordinated relationships. They have been working together individually, so the purpose of this meeting is to bring all together in a unit to help them further. At these meetings there have been the following organizations represented: Newton Welfare Bureau, Miss Harriet Parsons, General Secretary; City of Newton Public Welfare Department, James P. Reynolds, Director; Soldiers' Relief Department of the City, Edmund Dugan, Commissioner; Newton Catholic Welfare Committee, Rev. Fr. John A. Sheridan, Rev. Fr. Russell T. Haley, Treasurer, and William P. Eustis, Director; Mayor's Relief Department, Harold Young, General Secretary.

In addition to discussing the work of each agency, this group has unanimously recommended to the Community Chest that it establish a Social Service Index, or confidential social service exchange, in conjunction with the work of the Chest office. This would result in a complete clearing house set-up for all welfare and relief cases in Newton, for it would be used by all the foregoing agencies in every case which goes to them. The President of the Chest, with the approval of the Board of Directors of the Community Chest, has named a committee to study the procedure in setting up such an index. When established, the index will avoid duplication of services, if and where it exists today, as well as assure complete coverage of the field of service.

For many years the Newton Welfare Bureau has rendered splendid service by clearing and distributing Thanksgiving and Christmas baskets to needy people in the city. This group, in its discussion, was also unanimous in recommending that the Chest office establish a clearing house which organizations, fraternal orders, churches and individuals giving baskets at those holidays can use to prevent duplication in giving. In one city where this was adopted by the Chest, approximately \$6,500.00 was

(Continued on Page 4)

Cigarette Fire Causes \$300 Club Damage

A cigarette, smouldering in an upholstered chair is believed to have been the cause of a fire which resulted in \$300 damage to the Newton Centre Squash Tennis Club on Commonwealth ave., Newton Centre, early Monday morning. The fire was discovered by police before it had gotten much headway by Sergeant Cleary and Patrolmen Smith and Kerri-van as they were passing the clubhouse in a cruising car shortly after five o'clock. Noticing smoke issuing from the building they sounded an alarm from Box 713 at 5:16 A. M.

The crews of engine 3 and 7 and 9 and ladder 2 responded. Forcing an entrance to the building they found the fire in the living room and on the first floor. It had burned a hole through the floor. The firemen succeeded, however, in confining the blaze to the room where it started.

Another early morning fire on Monday gave the local firemen a two-hour battle. Shortly after 2 A. M. apparatus was called to assist the Watertown department in extinguishing a blaze in some bales and bags of wool waste at the John T. Lodge Company offices in the Aetna Mills building at the Watertown line on Bridge st.

A false alarm from Box 241, Adams and Middle sts., Newton, called out apparatus at 10:53 P. M. on Sunday.

A still alarm at 11:40 P. M. Sunday night sent the firemen to extinguish a blaze in an automobile owned and operated by Eva Lazarus of 128 Jewett st., Newton.

Newton Man Receives Letter From Crank

A threatening letter was received this week by W. Mark Noble, Jr., well-known Newton real estate dealer, postmarked from Columbus, Ohio, in which the writer inquired if there was a nitroglycerine or dynamite plant in Newton. Obviously the work of a crank the letter, which was written in indelible lead pencil, further indicated that the writer was planning to seek work here next winter in some such type of plant. The missive also referred to a communication sent by Noble to a weekly magazine concerning his opinion of an article allegedly written by Abraham Faber and published after his electrocution. In the article Faber charged society with the responsibility for his crimes while Mr. Noble's letter defended society and blamed Faber for his own errors.

Mr. Noble was inclined not to take the matter seriously, expressing it as the work of a crank, but in response to the urging of friends turned the letter over to the postal authorities for investigation.

Prepare For Opening of Newton Schools

Announce Registration And Examination Schedules

Various schedules for registration of new students, make-up examinations and the like have been announced by the senior and junior high schools in preparation of the approaching opening of the school term. Throughout the week the schools will be open for the various purposes noted.

Senior High School

On September 4th, 5th and 6th registration sessions for new residents of Newton not already registered will be held. On September 6th at 8:30 A. M. placement tests will be given for all pupils entering Grade X (first year) of the high school from private schools. All applicants for these tests should register at the high school before Sept. 6th. Also on Friday, Sept. 6th, condition examinations for all former pupils will be held. The regular school term will begin at 8:30 A. M. on Monday, September 9th.

Junior High Schools

Examinations and other general information of the various junior high schools is as follows:

F. A. Day Jr. High

8:30 A. M.—Social Studies.
9:45 A. M.—Latin, French and General Language.
11:00 A. M.—English.
1:00 P. M.—Mathematics.
2:00 P. M.—Science.

The office of the F. A. Day Junior High School will be open mornings from 10:00 to 12:00 Wednesday, September 4th, and Thursday, September 5th. Parents new in the community who wish to enter children this fall are invited to call then for the purpose of enrollment.

Please note that this does not apply to those who have enrolled for the seventh grade.

Levi Warren Jr. High

Schedule for Make-up Examinations, September 9, 1935

English—9:00 to 10:00 A. M.
Mathematics—10:10 to 11:10 A. M.
Social Studies—11:20 A. M. to 12:20 P. M.

Latin, French, Junior Business Training, Typewriting—1:30 to 2:30 P. M.

Science—2:40 to 3:40 P. M.

All students receiving "5-2" in any subject or an "incomplete" should take the make-up examination in that subject. The opportunity to take examinations is not open to those who receive a "3-3" report in a subject since this is a failing mark and requires a repetition of the subject.

Mr. Scarborough, the principal, will be in his office at the school September 9 from 10:00 A. M. to 12 noon, and from 2:00 to 3:30 in the afternoon to meet parents or students who wish to confer with him relative to promotions and enrollment.

J. W. Weeks' Junior High

Schedule for Make-up Examinations, September 1935

Friday, September 6:
9:00-10:00—Mathematics: 7th, Rm. 311; 8th, Room 311; 9th, Room 315.

10:10-11:10—English: 7th, Room 212; 8th, Room 212; 9th, Room 208.

11:20-12:20—Science: 8th, Room 104; 9th, Room 104.

1:45-2:45—Junior Bus. Tr.: 7th, Room 206; Elem. Bus. Frac., 8th, Room 206; Latin: 8th, Room 314; 9th, Room 314; French: 8th, Room 320; 9th, Room 320; Gen. Lang., 7th, Room 316.

3:00-4:00—Social Studies: 7th, Rm. 205; 8th, Room 205; 9th, Room 207.

Bigelow Jr. High

Mr. Pearson, principal of the Bigelow Junior High School, will be in his office on September 5th and 6th from 10-12 A. M. and from 2-4 p. m. to meet parents who wish to discuss with him problems about their children's courses.

Newton Drill Team Third At Lowell

The drill team of Newton Post 48, American Legion, known as the "Newton Legion Guards," entered its first competition at the State Convention of the Legion in Lowell last Saturday and was awarded third prize, and with it a check for twenty-five dollars. The Newton team feels elated that on its first appearance in any competition it was able to receive the judge's decision of third place, in fact the second prize which was awarded the Swampscott team was only lost by Newton by a fraction of a point.

The Newton team was directed by Captain George Hennrikus and Major Joseph Ward, and after the competition Newton Post Band arrived on the field and serenaded its comrades from Post 48; the Newton Band being led by Past Commander "Sailor" Ames.

The team appeared in the annual parade in the afternoon and took its position in the rear of the Newton Post Band, both organizations from Newton Post were well applauded all along the line of the march. Both Captain Hennrikus and Major Ward are very much pleased with the rapid strides the team has made in its few months of drilling, and feel that in another year's time the Newton Drill team will be in a position to try and take the championship from the Wollaston Post team.

Infantile Cases Are Reported

The Newton Board of Health reports only one case of infantile paralysis which occurred in Newton this year with six other cases affecting local children being reported from out of town.

The four children of Dr. Joseph Stanton, surgeon, of 114 Shorecliffe rd., Newton, who contracted the disease at their summer home in Scituate, are reported as showing improvement by Dr. David Sherwood who is in charge of the cases. The eldest, Joseph, 15, was taken to the Phillips House. The other three children are being treated at their Newton home. They are Anne, 13; Gertrude, 11; and Vincent, 6.

Another case of infantile contracted outside of the city is that of Francis Arsenault, 9, of Falmouth rd., West Newton. He was stricken upon his return home from a visit to relatives in Malden and was removed to the Waltham hospital.

The sixth out-of-town case was that of a child stricken upon his return from Maine.

Registering Voters Daily

Daily sessions for the registration of voters will be held at Newton City Hall until Wednesday, November 20, in preparation for the city election next December, according to an announcement made today by City Clerk Frank M. Grant.

For the convenience of persons who are unable to attend the sessions in the daytime, evening sessions will be held beginning November 1. The evening registration will take place in various parts of the city. The time and places are to be announced later.

The final day for registration will be Wednesday, November 20, when a continuous session will be held at City Hall from 8:30 a. m. until 10 p. m.

Plan Church Field Day

At the meeting of the committee Tuesday evening, the members of the Parish of St. Bernard's Church went ahead with plans for the Field Day and Lawn Party to be held on September 21 at the Newton Catholic Club.

The party will be held in the afternoon and evening, with games and races for the children and concessions and other features for the adults.

A series of parties has been planned to take place before the event. This will include a Bazaar party every Tuesday evening at the Catholic club, and a bridge and whist party on September 6, also at the club. A concert will be given by the choir of the church on one Sunday evening, the exact date not set as yet. Also there will be other entertainments at the homes of parishioners.

John Brocklesby is the chairman; Miss Nora O'Sullivan, vice-chairman; Eugene Cronin, secretary; and Joseph Edwards, treasurer. These leaders will be assisted by a committee of over fifty.

THE WEEK IN NEWTON SPORTS

By JACK MORRIS

NEWTON A. C. WINS TWO-LEAGUE PLAYOFF

Newton Catholic Club, with their ace pitcher "Red" Joyce in the box went down to defeat Wednesday night and suffered their first shut-out of the season. The winning team was the Newton A. C. and the winning pitcher, Joe Coletti, a converted catcher. The final score was 5-0. Joyce was hit hard and for the first time this season his team failed to support him properly, there being four misplays in the five innings. On the other hand, Coletti held the "Club" to three hits and his support was faultless. The younger "Tabals" was the batting hero and got the longest hit of the game, a triple to left center, in the second inning with a man on base.

This victory gives the "Aces" a record of three straight wins in the post-season series and Coletti gets the credit for two of these games. With two more victories necessary for the "Aces" or three for the "Club" it will be up to Coletti to win at least one more game to insure his team the city championship.

The Catholic Club is in a tough spot and with their best pitcher, Joyce, not available for a few days, they will have to call on the old reliable "Porky" Murphy who hasn't had enough work this season to keep him in the best of condition.

If a fifth game is necessary, it will be played at the West Newton Common on Sunday, beginning at 3 o'clock.

NEWTON TENNIS STAR OFF FOR NATIONALS

Elena Ciccone last night left her Newton Centre home to go to Philadelphia, where she will play in the National Girls' Tennis Championship tournament at the Philadelphia Cricket Club. Elena has had one of her best years thus far, winning both indoor and outdoor girls' state titles, and reaching the finals in every singles tournament she has entered. The only other representative sent from Massachusetts will be Louise Hedlund of Watertown, who has frequently paired with Miss Ciccone in doubles competition.

Elena will spend probably ten days at the beautiful Philadelphia Cricket Club. Last year at the same tournament she reached the third round, then was defeated by the national champion, Virginia Hollinger of Cincinnati, Ohio. Eliminated from the nationals, she turned her efforts to the women's middle states tournament, which was also being held at Philadelphia, and reached the quarter-finals.

Elena leaves behind unfinished business in the final round of the girls' singles championship at Oceanside, Magnolia. The match was to have been played Tuesday, but rain forced a postponement, and Elena may have to default.

Paul Rich and Franklin Rich watched the lines and Jack Canter umpired and kept score. As a result of a protest lodged by Martin, Clarke's status was questioned by the playground department, and Clarke admitted he belonged to the Hunnewell Club of Newton, a private club which owns a pair of courts. Consequently, Martin will again represent Newton in the state parks play at Springfield.

The point score of the final match follows:

*Clarke 4 4 4 1 2 4 4 4 5-6
Martin 6 2 1 1 6 4 2 0 1 3-4
*Clarke 4 4 5 1 2 1 3 3-5
Martin 2 2 3 1 1 6 5 4 5-0
Clarke 4 2 5 4 4 4 3 5-6
Martin 2 1 3 2 1 1 5 3-2
Clarke 4 0 1 1 1 2 4 3-3
Martin 1 4 4 2 1 4 4 2 5-6
*Clarke 4 5 2 1 4 0 4 7 7-6
Martin 2 3 4 4 1 4 1 5 3-3

*Served first game of the set.

Grace Moore Heads Bill At Paramount Theatre

Grace Moore's new picture, "Love Me Forever," opens at the Paramount Theatre in Newton, on Sunday for four days. According to all reports, "Love Me Forever" is far surpassing "One Night of Love" in every respect. The story deals with a wealthy cafe owner and gambler, an ardent lover of fine music, who makes Grace Moore, a singer in his cafe, his protegee. He sacrifices wealth and position to satisfy an ideal, to make of his beautiful singer the greatest soprano in the world, to give her the fame she deserves.

Grace Moore, as the cafe singer who eventually finds success and happiness, brings to the screen a vivid, colorful, acting personality. It is an experienced artist who has endeared her to audiences the world over.

Leo Carrillo, featured with Miss Moore, plays the fiery gambler in the leading male role. Luis Alberni, who was also featured in "One Night of Love," plays a comedy role, that of an excitable little Italian. On the same program is the Newton star, Bette Davis, in "Front Page Woman" with George Brent. It is an exciting newspaper story that all will enjoy.

Opening Thursday for three days, Sept. 5th, the main attraction is Warren Williams in "Don't Bet on Blondes" with Claire Dodd. On the same program will be Warner Oland in "Charlie Chan in Egypt" with Pat Peterson.

On Saturday matinee are Bob Mill's Kiddie Revue and the usual interesting serial, Tom Mix in the Miracle Rider.

Subscribe to the Graphic

BLOOD AGAIN WINS QUOITS CHAMPIONSHIP

Finals for the City of Newton Horseshoe Pitching Championship were held Sunday afternoon at Cabot Park.

The semi-finals were two out of three 50 shoe matches and Blood eliminated Wright in straight matches 37-16 to 19-10 and 57-20 to 17-4. Sullivan and Art were more evenly matched and Sullivan took the first game 35-11 to 24-9 while Art evened the court in the second game 35-13 to 19-11.

In the deciding game Sullivan scored his highest score of the day winning 44-16 to 22-7 and thus had the honor of meeting Charles Blood the defending champion in the finals.

Sullivan who is not very robust appeared tired and took a short rest before beginning the three out of five finals against Blood. In the first game Blood scored 40 points 14 ringers and 1 double ringer for his 50 shoes against 28 points 9 ringers and 1 double ringer for Sullivan. The second game went the same way 35-13-1 for Blood against 16-10-0 for Sullivan. In the final game Blood pitched the best shoes of the day scoring 61 points 22 ringers and 6 double ringers against Sullivan's 17 points 9 ringers and no double ringers. Thus Charles Blood again holds the cup emblematic of the singles horseshoe pitching championship for the City of Newton.

In the first round:
Art defeated O'Leary 28 points 11 ringers to 26 points 10 ringers; Trainor defeated Horsey 32 points 10 ringers to 17 points 3 ringers; Murphy defeated Bartley 42 points 14 ringers to 12 points 2 ringers; Sullivan defeated Simpson 21 points 13 ringers to 8 points 6 ringers; Marchand defeated Zakarian 35 points 9 ringers to 21 points 6 ringers; Wright defeated Hodgdon 31 points 8 ringers to 22 points 9 ringers; Blood defeated Kirby 46 points 12 ringers to 23 points 7 ringers; Taylor defeated Bell 27 points 9 ringers to 14 points 6 ringers.

In the quarter finals Art eliminated Murphy 29 points 9 ringers to 17 points 6 ringers. Blood defeated Ray 26 points 13 ringers to 33 points 15 ringers. Sullivan after trailing Trainor 7 to 18 in the 6th box defeated him 30-6 to 24-6 and Wright after trailing Taylor 24 to 8 in the 13th box came through to win 27-11 to 25-10.

The City of Newton doubles championship will be held at Cabot Courts on Sunday, September 8th and all residents of the City are invited to enter. The entry fee will be 50 cents per team and may be paid the day of the match.

CATHOLIC CLUB SHUT OUT IN SERIES OPENER

Newton A. C. defeated the City Club in two straight games for the right to play Catholic Club for the City Championship. City Club was somewhat handicapped by the loss of catcher Lyons who was unable to play because of an infected knee and also Ferguson, star second baseman, who dislocated a vertebra in his neck in a recent game. Ed Slavin, the old warhorse of many campaigns, left third base to replace Lyons behind the bat and pitcher McAdams was drafted to replace Ferguson at second base.

Coletti, pitching for the "Aces," kept City Club's hits scattered and held them to two runs. Meanwhile the Aces took advantage of mental lapses on the part of Nick Cicconi at 1st for the City Club and despite good pitching on the part of "Tucker" Rhodes scored four runs. Final score: Newton A. C. 4, City Club 2.

The second game was played Sunday at Victory Field. Seminelli, otherwise known as "Dickie," was at the points for the Newton A. C. and "Mucker" Greene started for the City Club. Numerous changes were made in the City Club line-up, as errors resulted in runs being scored, and for the first time this year Nick Cicconi was shifted from first base to center field where he fared poorly. The final score was 10-7.

READ FUND PICNIC PRIZE WINNERS

The annual Read Fund Picnic was held last Saturday at the Burr playground for the children of Wards 1 and 7. Interspersed with a program of games and races were acts of entertainment which thrilled and delighted the many children present. Ching Ling Fu, a Chinese magician and Frank Madden, a professional entertainer entertained with their specialties. A group of small children put on a Polish dance and a dance of French maidens. A group of boys put on a clever tumbling act which showed their strength and agility. The Stearns School group did a quadrille while another group of larger girls joined in a Russian dance and a Spanish couple dance. Elvis Samuella appeared in two specialty numbers, a toe dance and a song. Lorraine Hiltz and Helen Matton performed in a mouse specialty number. The Burr children performed a group aesthetic dance. The afternoon program concluded with a competition dance and the distribution of prizes.

Prize winners were as follows:

Read Fund Picnic Prize Winners

Recent Weddings

VAUGHAN—HATCH

Miss Marguerite Hatch, daughter of
Mr. and Mrs. Ralph Eliot Hatch of
West Newton, was married to Francis
Allen Vaughan, son of Mr. and Mrs.
Allen Vaughan of Belmont on Satur-
day afternoon, August twenty-fourth,
at four o'clock in the Second Church,
West Newton. Rev. Boynton Merrill
performed the ceremony.

The bride, who was given in mar-
riage by her father, wore a gown of
white satin with a yoke of lace, a tulle
veil and carried a bouquet of gar-
denias and lilies of the valley. Her
sister, Mrs. Haven Washburn And-
rews of West Newton, was the mat-
ron of honor and Miss Marion Hutch-
inson of West Newton was the maid
of honor. The bridesmaids were Miss
Bessie Hunton of Newton Highlands,
Miss Rita Vaughan, a sister of the
groom of Belmont, Mrs. James B. Don-
aldson of Cambridge and Mrs. John
Lockwood of New York. All of the
attendants wore dresses of white
crepe trimmed with green velvet and
green velvet hats. They carried bou-
quets of rapture roses and blue lace
flowers. Miss Patricia Andrews, niece
of the bride, was the flower girl.

Calvin Walker of Belmont was the
best man, and the ushers were Clin-
ton Roper of Newton, Ford Cleaves
of Quincy, Haven Washburn Andrews
of West Newton and Robert Moyer
of Reading.

A reception was held at the home
of the bride's parents, 38 Prince street.
Mr. and Mrs. Vaughan are to make
their home at 63 Burnham street,
Watertown.

The bride is a graduate of Miss
Wheelock's School class of 1932. The
groom graduated from Bowdoin Col-
lege in the same year. He is a mem-
ber of Theta Delta Chi fraternity.

HADDOCK—LANG

Miss Virginia Lang, daughter of Mr.
and Mrs. Edward Copeland Lang of
Belfast, Maine was married to Roger
Haddock, son of Mr. and Mrs.
Morton Webster Haddock of 5 Irving
road, Waban on Saturday afternoon,
August 24, at the home of her parents.
Rev. Clifford L. Peaslee of the First
Baptist Church, Belfast performed the
ceremony.

The bride wore a gown of white
chiffon and carried a bouquet of lilies
of the valley. Miss Marjorie Lang,
sister of the bride, was the maid of
honor. She wore a gown of apricot
chiffon and carried an old fashioned
bouquet tied with turquoise ribbon.
The bridesmaids, Miss Elizabeth E.
French of Melrose and Miss Helen
Wild of Winchester, wore dresses of
turquoise chiffon and carried old fash-
ioned bouquets tied with apricot rib-
bon.

Earl B. Bourne of Newton High-
lands was the best man. The ushers
were Richard Fisher and Lawrence
Allen, both of Waban.

Miss Dorothy Sprague, a cousin of
the bride, of Melrose played the wed-
ding march. The bride was given
away by her father, Edward Copeland
Lang, Mayor of Belfast.

Mr. and Mrs. Haddock will make
their home in Brookline.

The bride is a graduate of Miss
Wheelock's School, class of 1933. The
groom, a graduate of Deerfield Acad-
emy, is a member of the faculty of
the Bryant and Stratton School of
Business.

SMITH—REMINGTON

Miss Florence McKnight Reming-
ton, daughter of Mrs. Philip Henry
Remington of Florida street, Spring-
field, was married to Sumner R. Smith
of Newton Highlands on Wednesday
afternoon, August twenty-first, at
South Duxbury, Mass. Mrs. Graham
McCarroll of Pittsburgh, Pa. was her
sister's only attendant. Raymond W.
Woolston of Newton Centre was the
best man. After October 15 Mr. and
Mrs. Smith will make their home at
15 Woodcliff road, Newton Highlands.
The bride is a graduate of the Mac-
duff School in Springfield and of
Kendall Hall and is a member of the
Junior League of Springfield.
The groom was a member of the 1924 class
of Dartmouth College.

Recent Engagements

Mr. and Mrs. Percy Rolfe Ziegler
of 291 Otis street, West Newton, have
announced the engagement of their
daughter, Miss Mary Kate Ziegler, to
Bertrand Fox, son of Mr. and Mrs.
Philip Fox of Evanston, Illinois. Miss
Ziegler is a graduate of the Erskine
School, class of 1934. Mr. Fox is a
graduate of Northwestern University
and received his degree from Harvard
University in the department of econ-
omics. He is at present assistant
professor of Economics at Williams
College.

Mr. and Mrs. Stewart Lawrence of
111 Waban Hill road, Chestnut Hill,
have announced the engagement of
their daughter, Miss Sally Lawrence,
to Francis Jacoby, son of Mrs. Ernest
Jacoby of Brookline. Miss Lawrence
graduated in June from the Wheelock
School. Mr. Jacoby was a member
of the class of 1935 at Harvard.

Local Men Are Elected Accounting Ass'n Directors

The Boston Chapter of the National
Association of Cost Accountants has
announced the election of two Newton
residents to the Board of Associate
Directors. Mr. John J. Kenney of 28
Woodbine terrace, Auburndale and Mr.
George R. Hayes of 11 Northgate
Park, West Newton. Mr. Kenney is
well-known in accounting circles and
is connected with the International
Business Machines Corporation of Bos-
ton. Mr. Hayes is also well-known in
accounting circles being connected
with Thomas Groom & Son of Bos-
ton.

Newton Girls Return From Camp Anawan

Camp Anawan in Meredith, New
Hampshire, Miss Marion E. Riley, di-
rector, closed its twenty-third season
on Wednesday, August 28.

The camp is very popular with New-
ton girls. The following have been
members of the camp group this sum-
mer:

Mr. and Mrs. Carl L. Swan and Mrs.
A. W. Dickinson have been members
of the staff.

Senior camp—Polly Brown, 33 Birch
Hill road; Louise and Virginia Cole-
man, 44 Bowdoin street; Merrick Far-
rar, 66 Columbus street; Maxine Gad-
dis, 24 Elliot avenue; Doris and Win-
fred Mergendahl, 75 Lowell avenue;
Janet Merrill, 40 Foster street; Elaine
Preble, 38 Bowdoin street; Cynthia
Steitz, 103 Beaumont avenue; Barbara
Swan, 75 Grove Hill avenue; Virginia
Whitcomb, 42 Howland road; Mar-
garet Wilson, 99 Arlington street;
Jane Jewett, 11 Central avenue; Ar-
lie Mills, 72 Clyde street.

Junior camp—Janice Bail, 355 Cabot
street; Carolyn Coleman, 44 Bowdoin
street; Barbara Haug, 68 Walden
street; Natalie Needham, 11 Whittier
road; Gail Peterson, 36 Fairfield
street; Harriet Stock, 22 Caroline
Park; Dorotea Vollono, 971 Centre
street.

Burdett College Fall Term To Open Sept. 3rd

Burdett College will begin its 57th
year September 3, at which time the
Executive Secretarial, Stenographic
Secretarial, Stenographic, Business
and Bookkeeping Courses will begin.
Business Administration and Account-
ing Courses will start September 16,
which is also the date of the opening
of Evening School.

Enrollments for September are
showing a marked increase over those
of a year ago. This is not only no-
ticeable in the enrollment of students
nearer home, but also in the registra-
tion of students from a distance. In-
terest is especially marked among
college people, many of whom have
enrolled for practical courses at Bur-
dett.

Employment conditions affecting
Burdett graduates has shown remark-
able improvement, the Personnel De-
partment reporting an increase both
in number of calls received and posi-
tions filled. July of this year has
been the biggest placement month in
five years, 157 calls having been re-
ceived and 84 placements made, with
August promising to surpass July.
The Evening School has announced
the publication of its new catalogue
covering the sessions which begin Sep-
tember 16. The Evening School this
year will offer 27 regular and special
courses with upwards of 50 individual
course combinations covering short-
hand and typewriting, bookkeeping,
accounting, advertising, selling, and
marketing subjects.

CHESTNUT HILL SALES

John T. Burns & Sons, Inc., report
that they have sold for Donald Mac-
Kay the brick Garrison colonial nine
room home which has just been erec-
ted at 125 Ward st. The house con-
tains all the latest appointments, in-
cluding basement play room, and to-
gether with a two-car garage and 12-
000 square feet of land, is valued at
\$18,000. Hattie Gorney is the pur-
chaser and buys for a home.

Burns & Sons also report the sale
of the frame Dutch colonial residence
located at 41 Gardner st., corner of
Jewett st., Newton, for the Newton
Savings Bank. The property, which
includes 6,800 square feet of land, is
assessed for \$5,850. J. C. Marden
purchases.

Annual Business Conference At Babson's Begins Soon

Business men from all parts of the
United States will gather at Babson
Park for the five-day sessions of the
22nd Annual National Business Con-
ference beginning Sunday afternoon,
September 8 and extending through
Thursday, September 12. Speakers
of national prominence will address
the various sessions. At the opening
mass meeting on Sunday afternoon,
September 8, Colonel Frank Knox,
owner of the Chicago Daily News and
probable Republican Presidential can-
didate for 1936 will be the principal
speaker.

Lewis W. Douglas, former Director
of the Federal Budget, who resigned
last year in disagreement with the
President's financial policies, will
speak at the Monday afternoon meet-
ing. On Tuesday the principal address
will be delivered by Rudolf S. Hecht
of New Orleans, president of the
American Bankers Association.

Roger W. Babson will hold his an-
nual Question Box on Wednesday af-
ternoon when he will endeavor to
answer questions on all subjects related
to the business and investment out-
look. On Thursday, Theodore Joslin,
former Secretary to President Hoo-
ver, and long-time Washington au-
thority, will be the guest speaker.

The public is invited to all the ses-
sions which are free.

UPWARD TREND IN NEWTON REAL ESTATE

Doris Carley's office reports for the
quarter ending July 1, 1935 Newton
transactions signed, sealed and deliv-
ered involving properties valued at
\$246,900 bringing the total for the first
half of 1935 to \$530,250 which com-
pares with the first half of 1934 with
a total of \$446,350 clearly showing the
healthy upward trend of the Newton
Real Estate market as portrayed by
the activities of the Carley office.

COLONIAL HOME SOLD IN AUBURNDALE

Alvord Bros. report a sale of prop-
erty in the Lasell Junior College Sec-
tion of Auburndale. Near the corner
of Woodland road and Hancock street,
there is an interesting subdivision
called Gray Dale circle. At the end
of the road, on a lot of 11,120 square
feet of land, there has just been com-
pleted a splendid example of the
Colonial house with hip roof and a
two-car attached garage. The resi-
dence contains nine rooms, three
baths, and a first-floor lavatory. A
feature is the cozy library with ad-
jacent intriguing open porch. This
house is thoroughly insulated and
heated by steam with oil fire. Dr.
Edgar M. Holmes, of Belmont, has
purchased from William Gray, of Win-
chester, for a home. The property
has not yet been assessed.

Rotary Club

Dean Lort of the Boston Universi-
ty School of Business Administration,
was the speaker at the luncheon Mon-
day on the subject: "Who's Who, and
Why?" Admitting that "success" has
many definitions according to the
viewpoints of the various judges,
Dean Lord held that the real aim of
education is to enable each individual
to succeed in life. The keys to suc-
cess are: Character, Personality, Edu-
cation, and Opportunity. While
Character is largely inherent, Person-
ality can be developed and cultivated;
and Education and Opportunity are
factors that can be adjusted. The
Vocational Guidance movement has
been working on the problem for
twenty-five years but without the re-
sults that its promoters had hoped for
because it has had to deal with such
large numbers in the schools and col-
leges. Now a modified approach to
the problem is being made by the Via
Nova Educational Institute which
plans to take a small number of High
School graduates for a period of sev-
eral months or a year. First, this
group will be subjected to every pos-
sible reliable test which will reveal
the abilities and aptitudes of the in-
dividual and then they will be placed
in touch with practical situations in
the fields in which they show prom-
ise. They will study the occupation
first hand and prominent persons in
that occupation will study and ad-
vise them. As a result of all this, the
youngsters should obtain a much bet-
ter idea than is now possible of the
kind of life work in which they
should enlist and they will know more
about how to prepare for it.

Particularly interesting from the
Newton angle was the statement that
the dean hopes to make use of the
property formerly occupied by the
Mount Ida School for the initial unit
in the Via Nova Educational Insti-
tute.

Births

SALTONSTALL FOR GOVERNOR

Definite indications that Speaker Leverett Saltonstall of Newton will seek the Republican nomination for governor are pleasing to his many friends throughout the State. The popular leader of the House of Representatives is the outstanding Republican in Massachusetts. He has been regarded as a potential candidate for the gubernatorial office for some years. In many ways he was entitled to a place on the State ticket last year, but circumstances, coupled with his inherent desire to sacrifice his own personal ambitions for the good of the Republican party caused him to forego any attempt at higher office.

No one person available as the Republican candidate has a wider, more complete or more varied experience with State affairs than has Mr. Saltonstall. He entered politics more than fifteen years ago as a member of the Board of Aldermen. Later he served as an assistant district attorney of Middlesex County before being elected a member of the House of Representatives from Newton in 1923. He will have served Newton as a Representative for fourteen years at the end of his present term and also will have served four terms as presiding officer of the lower branch of the General Court. His election as Speaker for four terms constitutes a record in Legislative history unequalled in more than one hundred years.

During his career as a Representative he has witnessed many changes in the political and economic phases of our state government. From the post-war period through the era of prosperity and then through the discouraging days of the depression he has had a considerable hand in the shaping of the destinies of the Ship of State. Now as we are slowly emerging from the complexities of the past few years there is little need to look further for a leader.

The leadership of Speaker Saltonstall has been marked with a degree of fairness to all that is seldom found in a public official. Without fear or favor he has earned the respect and admiration of those with whom he has come in contact. Republicans and Democrats as well have always found him ready to listen and to advise without prejudice and without bringing politics into play. The State and the Nation would be a great deal better off were there more public officials of the Saltonstall type.

CONGRESS ADJOURNS

The first session of the 74th Congress adjourned this week after one of the most turbulent sessions in the history of the United States. With an overwhelming Democratic majority in both branches there were a number of instances which proved that the Democratic administration could not always have things its own way. Congress, however, enacted many bills which were distinctly sectional in their aim. Depending upon the way one looks at the problem such legislation was either favorable or unfavorable. It is apparent that the industrial East received none too favorable treatment and this fact may well result in having considerable bearing upon the coming elections next year. It has frequently happened in the past that the adjournment of Congress has resulted in a marked upward trend in business conditions. With the assurance that there will be no further changes of our national laws for another five or six months there is much hope for improved business this fall.

PARKING FACILITIES

The recommendations contained in the traffic report survey pertaining to improved parking facilities in the various business sections of the city will meet with general approval. There is no question but public parking sites would be a boon to local business houses. Particularly is this true in the three largest centres, Newton Centre, Newtonville and Newton Corner. In these sections traffic is often slowed and considerably congested due to parkers trying to locate and vacate parking places along the curbs of the main business arteries. The solution to much of the difficulty encountered in handling traffic in these sections would be found in providing public parking areas. The practicability of carrying out the recommendations of the survey is the obstacle. Not only is the cost of grading, surfacing and maintaining these parking areas a considerable factor but the greatest problem is in the cost of land damages which must be paid for the land in question. It is possible that the labor of constructing the parking places could be done with government co-operation under the WPA or ERA. The city would be required to provide the land. If the cost to the city, and ultimately to the taxpayers, could be kept to a minimum this is one form of project that would be worthwhile.

State and local police are to co-operate in a strict enforcement of automobile laws over the holiday week-end. Last year 37 persons were killed during Labor Day week, the largest in any one week. If this number of persons died from an epidemic of disease it would cause considerable consternation. Have motorists become so calloused about automobile killings that they disregard their responsibility to drive soberly, safely and sanely?

It is a violation of the copyright laws pertaining to music to quote any part of a song. Reference to one of the presently popular songs would have to read somewhat as follows: "My pal who delivers the fruit of the pow thinks you and I should wed."

In the city horseshoe pitching tournament it was noticeable that the most expert ring tossers were slender of build. The question arises were they always slender or is horseshoe pitching becoming a method of reducing among men?

With the football season rapidly approaching perhaps there will be less general kicking and more satisfying pleasure derived from watching the football players kick the pigskin around.

ABOUT TOWN

By Edward H. Powers

The social security act recently passed by Congress at the behest of President Roosevelt has been denounced by many as socialistic legislation. What alternative have these critics to offer? It has been more than difficult for elderly and even middle-aged men and women to obtain employment in recent years—even before the depression started. The much vaunted efficiency engineers (who haven't displayed their efficiency since 1929) caused multitudes of gray haired persons to lose their employment. This country has not reached that state of barbarism where elderly folks would be ostracized, and will not. So, if the exponents of rugged individualism who are condemning the "social security act" have some better and more practical plan that will care for deserving aged without reducing them to the status of paupers, let them present it.

Lately we have been reading a lot about "the horse and buggy days." Once each year we take a trip back to the "horse and buggy" era by traveling up to the Province of Quebec. A few weeks ago we made our annual jaunt, accompanied as in past years by Captain Nicholas Vedeccio of the Newton police and Eddie Murphy. Also in the party was Tom Gallinelli, manager of the Silver Lake Chevrolet Company, who provided excellent and smooth transportation by means of a Master Chevrolet. If one wants a respite from the nerve wracking bustle of this mechanized age, go for a few days or longer to Quebec, where horses and buggies are still in common use, where agriculture is the principal source of livelihood, and where conditions in many respects are similar to those that prevailed here in the last century.

Dairy farming is the dominant activity in Northern New Hampshire and Vermont, and in Southern Quebec, and the folks in these regions were harvesting their hay crops as we drove along. Not only the men and boys but the women and girls were engaged in this task. The women were driving the hay wagons and rakes, and in many instances laboring at the arduous task of pitching hay up onto the hay wagons. And there is some difference between doing this work on a hot summer's day, and playing bridge.

One day last week we visited the huge dunes at Barnstable. Even on this isolated area, with its weird beauty, we observed hundreds of broken tonic and milk bottles, left there by lazy, inconsiderate, picnicking motorists. This same type also leave a litter of discarded boxes, papers, tin cans, untied remnants of wood fires and other litter behind them. Do you wonder that more and more privately owned beaches are being closed to the public, when so large a percentage of the public seems to be onery?

AUTO ACCIDENTS

Mrs. Alice A. Mitchell, 44, of 275 Austin st., Newtonville, was seriously injured about 8:30 last week, Thursday evening, at the corner of Austin and Felton sts., West Newton, when struck by an automobile operated by Joseph Blaquiere, Jr., of 111 Mt. Vernon st., Newtonville. Mrs. Mitchell was walking with her daughter, Constance, 17, when struck down and dragged about twenty feet, according to the report made to the police. The injured woman was removed to the hospital where it was found she had received a possible fractured skull and lacerations about the scalp and body. Sergeant Bartlett Cullen, police mechanic, examined the automobile after the accident and reported that the lights were defective. A summons was issued ordering Blaquiere to appear in court this morning on charges of driving with defective brakes.

Miss Marie Joyce, 28, of 365 Cherry st., West Newton, suffered possible internal injuries in an accident at Cambridge and Washington sts., Brighton, last Saturday morning. Miss Joyce was riding with her sister, Catherine, 23, of 9 Tiptop st., Brighton, when the machine collided with a Boston Elevated bus at the intersection. The bus was operated by Michael Healey of Centre st., Roslindale.

Three persons, two men and a woman, were injured in a collision which took place between two automobiles at the corner of Homer and Pleasant sts., Newton Centre, last Saturday. The cars were operated by Thomas J. Smith of Winchester and Margaret W. Barthelmess, 39, of 21 Bailey place, Newtonville. Riding with Miss Barthelmess was George F. Barthelmess, 75. All of the occupants complained of minor injuries and were treated by physicians. Smith was proceeding southwest on Homer st. and the Barthelmess car was about to make a left turn from Pleasant st. into Homer st. when the accident occurred.

Mrs. Alice Leeds, 55, and her daughter, Miss Alice W. Leeds, 25, of 46 Waverley ave., Newton were severely injured when their automobile, operated by the younger woman, collided with another car, crashed into a pole and overturned at Vernon and Park sts. Saturday afternoon. The driver of the other machine which figured in the accident was Rodney W. Jarvis of 28 Somerset rd., Newton. The women were removed to the office of Dr. Edward J. Sawyer on Centre st. and later transferred to the Newton Hospital in the police ambulance by Patrolmen Walter Hanford and Patrick Burke. Mrs. Leeds suffered cuts on the head and the daughter injuries to her back. Jarvis was proceeding south on Park st. and the Leeds' car was going west on Vernon st. when the crash occurred. After the collision the Leeds' car kept on for about fifteen feet before striking the pole and overturning.

Shows Parking Sites Needed

(Continued from Page 1)

them, as this group is largely the one which is responsible for double parking and for parking in prohibited places."

"In towns or cities where the merchants have appreciated the importance of having convenient parking places for their patrons, increased business in the vicinity has almost invariably resulted. Quincy merchants, through the Chamber of Commerce, were instrumental in having a large lot of land, adjacent to the business district, but somewhat unsuited for stores and offices, converted into a parking space for about 2000 cars. In a short time, motorists for miles around were coming to Quincy to shop, secure in the knowledge that they would be able to park safely and conveniently without any fear of a police tag. The result was more shoppers, more leisurely shopping resulting in more purchases, and a 25% increase in business, most of which can be directly credited to the presence of the parking space. Hence, it may be readily appreciated that a convenient parking area can be a great asset to any business district."

"Rather loosely classified, there are two types of parkers—the short-time and the long-time. The dividing line may be said to be roughly the time limit set by ordinance, such as the one hour limit in Newton. Both groups must be accommodated, as both are important to the business activity of an area. The larger group by far is the short-time parker, who stops, makes his purchase, and moves on, leaving space for another car to park. This group is often responsible for such violations as double-parking, parking in prohibited areas, and the like. The reason for the violation is—that no convenient, legal space is available. Possibly, it may be occupied by a long time parker, a violator of the posted time limit. Thus, one violation is the cause of a second violation, as neither parker can find the space suited to his need. The solution is to provide off-street areas where long-time parkers may store their cars, leaving the curbs for those who wish to stop for only a few minutes. Of the group of motorists who park for an hour or less, the average length of time parked is 15 minutes; of those who violate the average time is 2½ hours. This means that the spaces occupied by a long-time parker would accommodate 10 average short-time parkers. Thus, each long-time parker (including the business, private or delivery car) which can be otherwise accommodated, leaves 10 unit parking spaces at the curb for others who wish to transact shorter errands."

"Merchants who allow their curb-parking space to be continually occupied by their own, or their employees' private or delivery cars, are reducing their likelihood of attracting the trade of passing motorists. It is to their advantage to utilize, if possible, rear entrances or alleys, or to provide such access if it is not available." Studies were made by the ERA workers of badly needed off-street parking areas at Newton Corner and Newtonville. The area which the report suggests be used at Newton Corner included the land owned by the C. C. Taylor estate at Pearl court and Pearl street, and the other properties on the South side of Pearl street to Bacon street, and on the East side of Bacon street to the Paramount Theatre. Previous traffic reports made under City of Newton auspices recommended that the R. C. Taylor estate property abutting Pearl court and Pearl street be taken, but these reports did not include all the area between Bacon street and Pearl court, as such takings would involve a large expense to the city.

The ERA traffic report in referring to the suggested Newton Corner parking space says: "... the location is particularly favorable as it is within a 5-minute walk of all the stores serving this centre, and of the railroad station; is directly adjacent to a theatre, and is only a few hundred feet from the street car lines. Approximately 100 cars could be accommodated with ease, leaving sufficient space around the edge for servicing the stores on Washington and Centre streets. While this number of cars may appear insignificant in comparison with the total number now parked on the streets, if it were completely used from 9 a. m. to 11 p. m. (as it probably would be because of the proximity of the theatre) and for the same length of time as long-time parkers average at present, it would accommodate a daily total of 560 cars. This would leave 5600 unit parking spaces at the curb for short-time parkers, who stay on an average of 15 minutes."

Part of the area bounded by Pearl street and Bacon street would be used as a bus terminal, according to the ERA traffic report plan. This part would be along Pearl street and near Pearl court. A waiting station for bus patrons would be provided and the removal of the buses from Nonantum square and Centre street would greatly improve traffic conditions at these congested places.

FAREWELL RECEPTION

A Farewell Reception was tendered Miss Rita Agnes Clancy, at the home of Mrs. John L. Grant, 497 Centre st., Newton, on Friday, August 23. Miss Clancy will leave to enter the Dominican Novitiate at St. Catherine's, Kentucky, Sept. 6. She is the daughter of Mr. and Mrs. M. J. Clancy of 53 Boyd st. A graduate of St. Patrick's Schools, she is a member of the St. Patrick's Alumni Association and of the Sunday School Teachers' Society and of the Sodality of the Children of Mary. A large purse of money was given to her, as well as the good wishes of her relatives and friends, and also of her co-workers of the Earnshaw Knitting Company of Newton, where she has been employed for the past two years.

Camp Day Closes Season

(Continued from Page 1)

to three members of the Senior Camp, namely, Robert Patey, Robert Clapp and Richard Hess. This award is the highest that the camp can give and is the result of excellent work on the part of these boys in physical, educational, social and religious activities of the camp. Four such awards have been made this year. The other winner was Marvin B. Perry Jr., who was given the award during the middle of the season. No leadership award has been made in the past eight years and these boys are to be congratulated on their achievement.

On Sunday evening, the annual candle lighting service was held. The candles of camp life are lighted from the flame of the large candle which represents all that the camp stands for. No lights are allowed in the camp on that night and the boys go to their tents by the light which is thrown by their own candles. The ceremony makes young and old realize that light is a gift of God and that the light will continue to burn when one remembers the experiences of camping. On next Christmas Eve many of these candles will cast a soft glow through the windows of the homes of the campers to light the way for those who realize the hope of Christmas Spirit; also bringing to the boys, fond memories of a glorious summer.

The feature of the banquet as always is the presentation of the Camp Cup to the members of the three camps who in the minds of the Council are the representative campers of the past season. The election is unanimous and the cups were awarded this year to Richard Hess of New York, Richard Eskert of Newton and Robert Goffton of Belmont.

Garden Club Flower Show

The Newton Highlands Garden Club will open the season with a Fall Flower Show to be held at the Club Workshop on Columbus st. on Sept. 18, 1935, under the chairmanship of Mrs. Emil F. Haberstroh. The show will be open to the public from 3:30 p. m. to 9:00 p. m.

The classes of the show comprise 1. Single Stalk of new or unusual annual or perennial; Class II, Roses; Class III, Bouquet of outstanding flowers in your garden; Class IV, Arrangement of mixed flowers; Class V, Arrangement of flowers in blue container to be placed in a niche; Class VI, Arrangement of vines in prune juice bottle.

The Newton Highlands Garden Club this next season is under the leadership of Mrs. E. J. Weaver, President; Mrs. E. F. Haberstroh, Secretary; Mrs. R. R. Wisner, Treasurer; Mrs. D. D. McKay, Program Committee, and Miss Ruth Wilkie, Chairman of the Nominating Committee. A most profitable and enjoyable series of meetings has been planned for the winter.

Relief Agencies Discuss Plans

(Continued from Page 1)

saved the citizens and organizations in one year by complete elimination of duplication.

The group was strongly of the opinion that they should hold monthly meetings, to discuss mutual problems and other matters which such a joint conference could help in deciding. This was decided upon and a monthly date for such meetings will be set, starting in September.

Kiwanis Club

In an address before the members of the Newton Kiwanis Club in the Charles River Country Club Tuesday, Wadsworth Dwight, traveling passenger agent of the Grace Line, took the Kiwanians on a 2,000-mile trip in half an hour.

His talk was illustrated by a motion picture entitled, "In the Path of the Galleons." The film presented scenic views and places of historic interest in Columbia, Panama, El Salvador and Mexico.

Newton Kiwanians are planning to attend an interclub meeting to be held by the Weston-Wayland-Sudbury Kiwanis Club at the Davis Turkey Farm. The meeting will also be attended by members of the Roslindale-West Roxbury, Marlboro and Framingham clubs.

Members of the Newton club are also planning to attend the Kiwanis convention to be held in Swampscott on Sept. 22, 23 and 24.

year. A large enrollment necessitates the reopening of the Woodland Park building as a dormitory. There is a specially large registration in the medical secretarial course. New members of the Faculty are Miss Ruth Moody, Wheaton '29, Boston University '30 in the secretarial department and Miss Ethelyn Whitney, Lasell '32, Bouve '35 in the department of physical education.

CHRISTIAN SCIENCE

"Christ Jesus" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 1.

The Golden Text is: "The law was given by Moses, but grace and truth came by Jesus Christ" (John 1:17). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And it came to pass, as he went to Jerusalem, that he passed through the midst of Samaria and Galilee. And as he entered into a certain village, there met him ten men that were lepers, which stood far off. . . . And when he saw them, he said unto them, Go shew yourselves unto the priests. And it came to pass, that, as they went, they were cleansed" (Luke 17:11, 12, 14). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine Principle, which would cast out error and heal both the sick and the sinning. He claimed no intelligence, action, nor life separate from God. Despite the persecution this brought upon him, he used his divine power to save men both bodily and spiritual" (p. 136).

Final Union Service At Newtonville Churches

The last of the summer union church services in Newtonville will be held this week with the minister of Central Congregational Church, Rev. Randolph Seaman Merrill, the preacher of the occasion. This service will be held in Central Church on Walnut st. and will start at eleven o'clock. Miss Lillian West will offer several organ numbers and Franklin Field, baritone, will be the soloist. Mr. Sigmund Ronaskiewicz will assist in the musical program.
This Sunday marks Mr. Merrill's return to Newtonville for the coming season. In a few weeks he will celebrate the fifth anniversary of his coming to Central Church as its minister. In his program this Fall he will be assisted by Joseph Ludwigsohn, who succeeds Ernest W. Kuebler, as Director of Religious Education. Mr. Ludwigsohn will also direct the three choirs and serve as Minister of Music.
The attendance at all the summer services has been most gratifying to the officials of the Methodist and Congregational Churches and the interest of the people bespeaks a busy Fall and winter program in the village.
